14310 Scottslawn Road
Marysville, OH 43041

Dear Dr. Snyder:

Subject: New Brand Name/Label Revisions
Scotts Lawn Pro Weed and Feed
EPA Registration No. 538-176
Your Submission Dated May 29, 1985

BEST AVAILABLE COPY

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable, provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. On the back panel, in the paragraph beginning "Scotts patented Polyform process..."
 1. Delete the terms "concentrated" and "high analysis." We believe these terms imply unstated benefits related to higher concentrations of active ingredients.
 2. Delete the vague reference to "similar weed control... found in other..." unspecified "...Scotts Weed and Feeds."
 3. Delete the unqualified term "...long-lasting..." since it implies control for an extended indefinite period. Alternatively, you may specify a duration of effectiveness which has been established by testing.
 4. Delete safety claims "...non-burning..." and "safe."
2. Submit one (1) copy of your final printed labeling before you release the product for shipment.

CONCURRENCES

APPROVAL							
SUBMITTER							
DATE							

A stamped copy of the labeling is enclosed for your records.

The product name change referred to in the subject and the change in fertilizer analysis are also acceptable.

Sincerely yours,

Richard E. Sautter

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: Harmful if swallowed. Avoid inhalation and contact with skin, eyes, or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Avoid contamination of feed or foodstuffs. Do not contaminate water used for irrigation or domestic purposes.

Environmental Hazards: Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate water used for irrigation or domestic purposes.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

ACTIVE INGREDIENTS:

2,4-Dichlorophenoxyacetic acid 1.15%

2-(2-Methyl-4-chlorophenoxy) propionic acid 1.15%

INERT INGREDIENTS: 97.70%

Total 100.00%

Weed
and
Feed

weed control plus fertilizer

Scotts patented Polyform (R) process makes Scotts Lawn Pro Weed and Feed
lightweight and concentrated... so it is easy to handle and easy to use. This
high analysis Weed and Feed has similar weed control, greening, long-lasting
and non-burning qualities found in other Scotts Weed and Feeds.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

APPLICATION

- Apply any time weeds are actively growing (when daytime temperatures are consistently above 60°F).
- Apply on a calm day.
- Apply to moist grass. To help particles stick to weed leaves the grass should be thoroughly watered or wet from dew before applying Lawn Pro Weed and Feed.

BACK CONTINUED:

Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine, lippia and dichondra lawns. On bermudagrass lawns, under certain conditions, some temporary discoloration may result.

WATERING OR RAIN

Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.

This product should not be applied if rain is expected within the next 24 hours.

SPREADER

Be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. The Scotts PF Drop Spreaders provide excellent controlled application to protect these areas. When using the EasyGreen™ Rotary Spreader take special care near desirable plants.

IMPORTANT

WHAT TO EXPECT

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90 degrees.

SEEDING/SODDING

Wait until the new grass has been mowed at least four times before applying Lawn Pro Weed and Feed weed control.

If you are planning to seed, you should wait at least one month after you have applied Lawn Pro Weed and Feed.

BACK CONTINUED:

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn (ILLUS.)
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped (ILLUS.)
- Mow lawn first if grass is tall enough to touch the bottom of spreader

EasyGreen™ Rotary:

- Slide shut-off lever to the right. Application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs

Scotts Lawn Pro(R) ... Your Do-It-Yourself Lawn Care Headquarters
