**NET CONTENTS ONE GALLON**

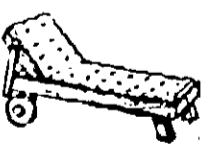

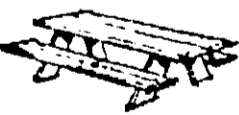

MANUFACTURED BY  
**WOOD TAR PRODUCTS CO.**

Cornell St. Milwaukee, Wisconsin 53209

- ### FEATURES
- **PENETRATES DEEPLY** - USOL formula impregnates wood, preventing attack by termites, powderpost beetles, other destructive insects. Eliminates decay and fungus growths.
  - **SEALS COMPLETELY** - Keeps out water and moisture, stopping wood rot and mildew. Prevents surface from swelling, shrinking, warping or discoloring. Helps maintain dimensional stability of wood. USOL Water Repellent Wood Preservative Stain is registered with the Environmental Protection Agency and meets TT-W-572B, the Federal Specifications for a water repellent wood preservative.
  - **COLORS PERMANENTLY** - Stain will not rub off on clothing after thoroughly dry. Doesn't crack, chip or peel.
  - **APPLIES EASILY** - Ready for instant use; just stir, then apply. Flows freely. Will not raise the grain or show brush or lap marks.
  - **SERVES AS PRIMER** - Also ideal as a water-resistant prime coat for paint, varnish or lacquer.
  - **LASTS INDEFINITELY** - One treatment stays in wood and remains effective for years.
- PROTECTS AND BEAUTIFIES ANYTHING MADE OF WOOD - IN ONE EASY APPLICATION**

- Homes • Cabins
- Decks • Siding
- Lawn Furniture
- Fences • Garages
- Shingles • Barns and Out Buildings
- Porches and Steps

Fertilizer plus Lawn Disease Preventer

Gives your lawn a full feeding of Scotts long lasting fertilizer.

For use on Kentucky bluegrass, mixtures of bluegrass and fescue, perennial ryegrass, tall fescue, St. Augustine, bahia or centipedegrass.

Fall and early spring application will prevent these lawn fungus diseases.

leaf spot	brown patch
melting out	pink snow mold
dollar spot	(Washington, Oregon, California)

This product also controls the same diseases when they are active.

**Directions for use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DO apply when disease activity is expected or is first noticed. Apply at Scotts Spreader (Standard, Automatic or Precision Flow Control Model) setting   X  

(treats 2,500 sq ft)  
in Colorado apply at setting   X    
(treats 2,250 sq ft).

DO overlap spreader wheel tracks so no stripes are missed.

DO make a second application 2-3 weeks after the first when treating to control heavy infestation of disease.

DO apply when foliage is moist.

DON'T use this product on dichondra or zoysia.

DON'T use any other control product (such as a weed control) within one week after application of this product.

*FAST DOCUMENT REPRODUCTION*

**What to expect**

Normal turf density and color will be maintained by preventing damage caused by disease.

This product also controls lawn fungus diseases. The fertilizer will increase the rate of recovery of the damaged grass.
