# Southern Weedgrass Control

Scotts  
ProGrow  
Southern  
Weedgrass  
Control

- preemergent control of goosegrass, crabgrass, Poa annua and other annual grassy weeds in southern grasses
- preemergent control of broad-leaf weeds

Net Weight 28 1/4 lbs (12.81 kg)

**PROLURF**  
 A preemergent herbicide for the control of annual grassy weeds and broadleaf weeds in southern lawns and turfgrasses. It is effective against goosegrass, crabgrass, and Poa annua. It is also effective against broadleaf weeds such as dandelion, clover, and chickweed. It is applied as a granular material and is water-soluble. It is safe for use on most types of turfgrasses and lawns. It is also safe for use on children and pets. It is available in 28 1/4 lb. and 56 lb. bags.
