IMPORTANT

RAKING. You may rake your lawn lightly to remove grass clippings or debris. But please avoid breaking the soil surface in your lawn for 4 months after application. Heavy raking will disturb the crabgrass barrier and reduce the effectiveness of this product.

SEEDING/SODDING. Please do not apply to newly seeded or sodded areas until after the fourth mowing.

ACTIVELY GROWING CRABGRASS. This product does not control actively growing crabgrass and other existing grasses.

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- . First apply 2 header strips
- . Operate spreader the longest way of the lawn
- . Overlap wheels to insure uniform feeding
- . Shut off spreader when you have reached the header strips or stopped
- . Mow lawn first if grass is tall enough to touch the bottom of spreader

(ILLUS.)

EasyGreen™ Rotary:

- . Slide shut-off lever to the right. Application automatically starts and stops when you do
- . Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs
