KEEP OUT OF REACH OF CHILDREN
CAUTION
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION, causes eye irritation. Do not get in eyes. If in eyes, flush with plenty of water and get medical attention if irritation persists. Wash after handling. May be harmful if swallowed. Do not contaminate feed or foodstuffs. Do not graze treated areas. Do not feed clippings to livestock.

Environmental Hazards: This pesticide is toxic to fish. Do not apply directly to water. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes. In case of spills, either collect for use or dispose of properly.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

ACTIVE INGREDIENT:

Pencimethalin, N-(1-Ethylpropyl)-3,4-dimethyl-2,6-dinitrobenzenamine*	0.74%
INERT INGREDIENTS:	99.26%
Total	100.00%

Advantages of Turf Builder plus Halts(R)

LEFT COLUMN

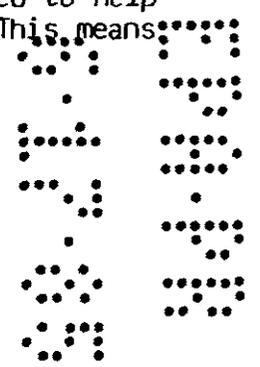

SUPERIOR QUALITY

Turf Builder plus Halts(R) - no one else has a tougher crabgrass, foxtail and spurge preventer. And our small, uniform granules cover your lawn completely to stop these weeds before they start. All this means that Turf Builder plus Halts (R) gives your lawn the best seasonlong crabgrass, fox-tail and spurge prevention available.

Scotts Trionized(R) II formula provides a more efficient nitrogen than ever before. This means Turf Builder plus Halts(R) now promotes quick, deep greening while feeding your lawn as it needs to be fed.

Turf Builder plus Halts(R) won't burn your lawn. The nitrogen in the Trionized(R) II formula is buffered. This means Turf Builder plus Halts(R) greens your lawn quickly without the danger of burning.

Turf Builder plus Halts(R) provides up to two months of greening. Part of the nitrogen in Turf Builder plus Halts (R) is time-released to help keep a supply of this essential nutrient available to your lawn. This means that your lawn can stay thick and green for up to two months.

Each Turf Builder plus Halts^(R) granule contains the three major nutrients and crabgrass preventer. We bond Scotts unique controlled-release nitrogen with other essential nutrients and a unique crabgrass preventer so your lawn receives a safe, uniform feeding and the most effective seasonlong crabgrass, foxtail and spurge prevention available.

(ILLUS.)

Turf Builder plus Halts^(R)
EVERY GRANULE CONTAINS
NITROGEN, PHOSPHOROUS, POTASSIUM
AND CRABGRASS PREVENTER

Provides safe, even greening
with uniform crabgrass
prevention.

LEFT COLUMN

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Turf Builder Plus Halts^(R) should be applied when your lawn is dry. It is not necessary to water it in after application.

Apply in early spring before the 3rd or 4th mowing or before temperatures are regularly in the 80s. Rain, snow or freezing weather will not affect the performance of this product.

DO NOT SEED OR SOD FOR 4 MONTHS AFTER USING TURF BUILDER PLUS HALTS(R). The crabgrass barrier prevents grass seed from sprouting.

Apply to prevent germination of crabgrass, foxtail, barnyardgrass, fall panicum, spurge* and cixalis (common yellow woodsorrel):

- . before March in southern California
- . before mid-March in northern California
- . in early spring (before dandelions reach the puffball stage) in all other areas

* For heavy infestations a repeat treatment is recommended after 6-8 weeks.

Apply in August or September to prevent germination of Poa annua and chickweed.

Not for use on dichondra or bentgrass lawns.

- Scotts recommends the PF Spreader, the most accurate spreader you can buy, to receive the maximum benefit from Turf Builder Plus Halts(R). DO NOT USE A ROTARY SPREADER, except Scotts EasyGreen™ rotary.

Scotts Spreader Settings	Scotts Drop Spreaders	Scotts EasyGreen™ Rotary
(treats 5,000 sq ft)	XX	XX

- use Scotts Halts(R) (without fertilizer) to prevent goosegrass.
- except for heavy infestations of spurge, allow at least a 4 month interval between applications of this product. Don't apply Turf Builder Plus Halts(R) more often than twice annually.

Important: Do not rake or aerify for 4 months after application to avoid disturbing the crabgrass barrier on the soil surface.

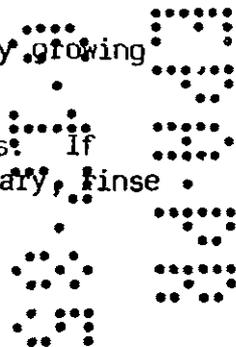

RIGHT COLUMN

Seeding/Sodding/Sprigging

Please do not apply to newly seeded or sodded areas until after the fourth mowing. On newly sprigged areas, wait 5 months before application.

Actively growing crabgrass. This product does not control actively growing crabgrass and other existing weeds.

NOTE: Do not apply material to cement, stone, clothing or shoes. If contact occurs, brush off particles to prevent staining. If necessary, rinse off with water.

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped

EasyGreen™ Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do.
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs.
