Fertilizes and protects against insects

Experience The Scotts Advantage™ Feeds Your Lawn and Stops Crabgrass Before It Starts!

Scotts Super Turf Builder® with Halts® works by forming a preventive barrier in the soil. Unlike most crabgrass prevention products, every Scotts particle contains plant nutrients and the prevention ingredient. Scotts All-in-One® particles* feed and provide a preventive barrier to every square inch of your lawn, keeping crabgrass and other grassy weeds from sprouting all season long.

*All-in-One = nitrogen, phosphorus, potassium and the crabgrass prevention ingredient contained in every particle

Scotts Super Turf Builder® with Halts®

- Each All-in-One particle contains nutrients and the crabgrass prevention ingredient
- Evenly dispersed particles provide better crabgrass prevention and more consistent feeding

Ordinary Mixed Fertilizers

- Nutrients and the crabgrass prevention ingredient often in separate particles
- Particles can separate during application, resulting in inconsistent crabgrass prevention and feeding

KEY PRODUCT FACTS

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- To prevent the germination of crabgrass, spurge, foxtail, barnyardgrass, fall panicum and oxalis (common yellow woodsores), apply to dry foliage in the early spring:
 - before dandelions reach the puffball stage;
 - before the third or fourth mowing;
 - before temperatures regularly reach the 80s;
 - before March in southern California; or
 - before mid-March in northern California
- Set spreader to the setting indicated by the chart on right before applying.

What to Avoid

- Do not seed or sod for 4 months after application.
- Do not rake or aerate for 4 months after application to avoid disturbing the crabgrass barrier.
- Do not apply to newly seeded or sodded areas until after the 4th mowing. On newly sprigged areas, wait 5 months before applying the product.
- Do not apply to dandelions or bentgrass lawns.
- Do not apply this product more than twice annually. Allow at least a 4-month interval between applications of this product.

This product can cause staining. To prevent staining and/or unwanted tracking of particles into the house, sweep or brush accidentally applied materials off of cement, stone, metallic surfaces (such as autos and garden furniture), clothing and shoe surfaces. If necessary, rinse off with water.

This product does not control actively growing crabgrass and other existing weeds. You can kill growing broadleaf weeds with Scotts Super Turf Builder® with Plus 2® Weed Control.

Storage and Disposal

- STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.
- PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.
- CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

Spreading Tips

Apply bander strips. Then apply product in longest direction of lawn.

Spreader Settings:

For best results, use a Scotts spreader
