OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

JUN 24 2010

Ms. Cheryl Prinster  
The Scotts Company  
14111 Scottslawn Rd  
Marysville, OH 43041

Subject: Turf Builder Plus Halts For Lawns  
EPA Registration Number 538-190  
Resubmission dated June 3, 2010

Dear Ms. Prinster:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended is acceptable, provided you make the following changes before you release the product for shipment.

- 1) Add an appropriate EPA Establishment Number to the label.
- 2) Add "We recommend" before "Use Scotts Halts (without fertilizer) to prevent goosegrass" on page 4

NOTE: While no additional data is being requested at this time, marketing claims made on the pesticide label must be substantiated by data maintained in your files. If data supporting marketing claims made on the product label is not available then those claims must be removed.

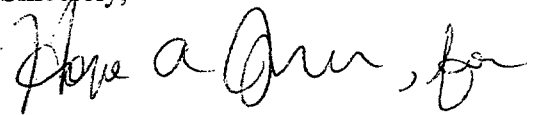

NOTE: Should you wish to retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2  
EPA Registration Number 538-190

Submit one (1) copy of final printed labeling incorporating the above changes before you release the product for shipment. Amended labeling will supercede all previously accepted ones. A stamped copy of labeling is enclosed for your records.

If you have any questions, please contact Hope Johnson at 703-305-5410.

Sincerely,

James A. Tompkins  
Product Manager 25  
Herbicide Branch  
Registration Division (7505P)

**[FIRST AID AND ENVIRONMENTAL INFORMATION]**

[Keep Out of Reach of Children]

[CAUTION]

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

**USER SAFETY RECOMMENDATIONS**

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

**FIRST AID**

- If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
- If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
- If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. [Call: 1-XXX-XXX-XXXX]

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems. In case of spills, either collect for use or dispose of properly.

[Staining Note: Can cause staining to cement, stone, metallic surfaces (such as automobiles and garden furniture), closing or shoes. If contact occurs, brush off particles to prevent staining and/or unwanted tracking into the house. If necessary, rinse off with water.]

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** Store in a clean, dry place. Reseal opened bag [by folding top down and securing.]

**PESTICIDE AND CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container.

**If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**-Begin Directions for Use-****[DIRECTIONS FOR USE VERSION #1]****DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**APPLICATION**

Turf Builder plus Halts® for Lawns should be applied when your lawn is dry. It is not necessary to water it in after application. However, for best results the lawn should receive ¼ to ½ inch of water from rainfall or watering within 2-3 days after application.

Apply in early spring before the 3<sup>rd</sup> or 4<sup>th</sup> mowing or before temperatures are regularly in the 80s. Rain, snow or freezing weather will not affect the performance of this product.

This product applies 1.5 lbs of pendimethalin per acre [at the regular rate and 1.67 lbs of pendimethalin at the heavy rate.] Do not apply more than twice a year.

**[OPTIONAL RATE TO COVER WARM AND COOL SEASON GRASSES]**

1. For Kentucky bluegrass, fine fescue, tall fescue, perennial ryegrass and blends of these grasses, apply at the REGULAR RATE.
2. For bermudagrass, St. Augustinegrass, bahiagrass, centipedegrass and blends of these grasses, apply at the HEAVY RATE.

**[END OF OPTIONAL RATE TO COVER WARM AND COOL SEASON GRASSES]**

**[OPTIONAL RATE TO COVER SPECIFIC REGIONAL USES** - For Kentucky bluegrass, fine fescue, tall fescue, perennial ryegrass, bermudagrass, St. Augustinegrass, bahiagrass, centipedegrass and blends of these grasses, apply at the REGULAR RATE.]

Do not seed or sod for 4 months following application. The Turf Builder plus Halts® for Lawns [in the soil] will prevent grass seed from sprouting.

Apply to prevent germination [stop the emergence of] of crabgrass, foxtail, barnyardgrass, fall panicum, spurge\* and oxalis (common yellow woodsorrel):

- in early spring (before dandelions reach the puffball stage)
- before March in southern California
- before mid-March in northern California

\*For heavy infestations a repeat treatment is recommended after 6-8 weeks.

Apply in August or September to prevent germination [stop the emergence of] of *Poa annua* and chickweed.

**[OPTIONAL DIRECTIONS TO ADD TO MOSS CONTROL]**

Apply in the fall (August-October), after temperatures have cooled and fall rains have begun, to prevent moss (except in California) from becoming established during winter or next spring, or to prevent germination [stop the emergence of] of *Poa annua* and chickweed.  
(Not for use on dichondra or bentgrass lawns.)

Use Scotts Halts ® (without fertilizer) to prevent goosegrass.

**[END OF OPTIONAL DIRECTIONS FOR MOSS CONTROL]**

Except for heavy infestations of spurge, allow at least a 4 month interval between applications of this product.

Do not enter or allow others to enter the treated area until dust has settled.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Important: Do not rake or aerify for 4 months after application to avoid disturbing the layer of soil to which The Turf Builder plus Halts® for Lawns was applied.

**SEEDING/SODDING/SPRIGGING**

Please do not apply to newly seeded or sodded areas until after the fourth mowing. On newly sprigged areas, wait 5 months before application.

**ACTIVELY GROWING CRABGRASS (OR MOSS).**

This product controls crabgrass in its early stages of growth. This product does not control mature crabgrass and other existing weeds. You can kill broadleaf weeds with Scotts Turf Builder with Plus 2.

***[END OF DIRECTIONS FOR USE VERSION #1]***

***[DIRECTIONS FOR USE VERSION #2]***

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Turf Builder Plus Halts for Lawns should be applied when your lawn is dry. It is not necessary to water this product in after application. However, for best results the lawn should receive ¼ to ½ inch of water from rainfall or watering within 2-3 days after application.

Apply in early spring before the third or fourth mowing or before temperatures are regularly in the 80's (before dandelions reach the puffball stage). Rain, snow, or freezing weather will not affect the performance of this product.

Do not seed or sod for 4 months following application. The Turf Builder plus Halts® for Lawns [in the soil] will prevent grass seed from sprouting.

Not for use on dichondra or bentgrass lawns.

Allow at least 6 weeks between applications of this product and Treatment TWO [the next application of a fertilizer product]

Important: Do not rake or aerify for 4 months after application to avoid disturbing the layer of soil to which The Turf Builder plus Halts® for Lawns was applied. ~~crabgrass barrier on the soil surface.~~

**SEEDING/SODDING/SPRIGGING**

Do not apply to newly seeded or sodded areas until after the fourth mowing. On newly sprigged areas, wait 5 months before application.

[Actively growing crabgrass or moss]

This product controls crabgrass in its early stages of growth. This product does not control mature crabgrass and other existing weeds. You can kill broadleaf weeds with Scotts Turf Builder with Plus 2.

Do not enter or allow others to enter the treated area until dust has settled. Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

This product applies 1.5 lbs of pendimethalin per acre at the regular rate and 1.67 lbs of pendimethalin at the heavy rate. Do not apply more than twice a year.

**[DIRECTIONS FOR USE VERSION #4]**

**DIRECTIONS FOR USE**

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

1. To prevent the germination [sprouting] of crabgrass, foxtail, barnyardgrass, fall panicum, spurge\* and oxalis (common yellow woodsorrel), apply to dry foliage in the early spring:
  - before dandelions reach the puffball stage
  - before the third or fourth mowing
  - before temperatures regularly reach the 80s
  - before March in southern California; or
  - before mid-March in northern California
2. Set spreader to the setting indicated by the chart on the right before applying
3. It is not necessary to water it in after application. However, for best results the lawn should receive ¼ to ½ inch of water from rainfall or watering within 2-3 days after application.

For areas with moss problems, such as Pacific Northwest, Turf Builder plus Halts® for Lawns can be applied to lawns in the fall to prevent moss from growing.

This product applies 1.5 lbs of pendimethalin per acre [at the regular rate and 1.67 lbs of pendimethalin at the heavy rate.] Do not apply more than twice a year.

**What to Avoid**

- Do not seed or sod for 4 months following application. [Optional - The Turf Builder plus Halts® for Lawns [in the soil] will prevents grass seed from sprouting.]
- Do not rake or aerify for 4 months after application to avoid disturbing the layer of soil to which The Turf Builder plus Halts® for Lawns was applied. Do not apply to newly seeded or sodded areas until after the fourth mowing. On newly sprigged areas, wait 5 months before applying the product.
- Do not apply to dichondra or bentgrass lawns.
- Allow at least a 4-months interval between applications of this product.
- Do not enter or allow others to enter the treated are until dust has settled.
- Do not apply this product in a way that will contact any person or pet, either directly or through drift.
- Keep people and pets out of the area during application.

**Actively growing crabgrass or moss**

This product controls crabgrass in its early stages of growth. This product does not control mature crabgrass and other existing weeds. You can kill broadleaf weeds with Scotts Turf Builder with Plus 2.

**Storage and Disposal**

~~Pesticide Storage: Store in a clean, dry place. Reseal opened bag by folding top down and securing.~~  
~~Pesticide Container Disposal: Nonrefillable container. Do not reuse or refill this container. If Empty: Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.~~

**[DIRECTIONS FOR USE VERSION #5]**

**DIRECTIONS FOR USE**

It is violation of Federal law to use this product in a manner inconsistent with its labeling.  
This product applies 1.5 lbs of pendimethalin per acre. Do not apply more than twice a year.

**Quick Start Guide**

[You're just three simple steps away from a beautiful Scotts lawn!]

1. Fill & Set Spreader [illustration]  
Scotts Broadcast/Rotary Spreaders      3 1/2  
Scotts Drop Spreaders                      5 1/2  
[This package applies 2.67 pounds of product per 1000 sq.ft] [Covers 5,000 sq ft]  
[Scotts products are designed to work with Scotts spreaders]  
[For additional spreader settings, please call 1-800-543-TURF]
2. Apply [illustration]  
Apply in early spring, before the 3<sup>rd</sup> or 4<sup>th</sup> mowing. Apply when lawn is dry and before temperatures are regularly in the 80s.
3. Clean-Up [illustration]  
Sweeping product from hard surfaces back onto the lawn keeps product [valuable feeding nutrients] on the grass.

**Restrictions**

Do not enter or allow others to enter the treated area until dust has settled.  
Do not apply this product in a way that will contact any person or pet, either directly or through drift.  
Keep people and pets out of the area during application.

**Other things you should know**

For best results the lawn should receive 1/4 to 1/2 inch of water from rainfall or watering within 2-3 days after application.

[Rain, snow or freezing weather will not affect the performance of this product.]

Not for use on dichondra or bentgrass lawns.

This product controls crabgrass in its early stages of growth. It does not control mature crabgrass and other existing weeds. [You can control broadleaf weeds with Scotts Turf Builder with Plus 2 /ABN]

Allow at least a 4-month interval between applications of this product.

Important: Do not rake or aerify for 4 months after application to avoid disturbing the layer of soil to which The Turf Builder plus Halts® for Lawns was applied.

**Seeding/Sodding/Sprigging**

Do not seed or sod for 4 months following application. [The Turf Builder plus Halts® for Lawns [in the soil] will prevent grass seed from sprouting.]

Do not apply to newly seeded or sodded areas until after the 4<sup>th</sup> mowing. On newly sprigged areas, wait 5 months before application.

**[ALTERNATE SPREADER SETTING INFORMATION]**

Spreading Tips. For best results, use a Scotts spreader:

Scotts Drop: Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or stopped.

Scotts EasyGreen™ Rotary: Slide shut-off lever to the right; application automatically starts and stops when you do. For complete coverage make each pass about 30 inches from the previous one so some overlapping occurs.

Scotts SpeedyGreen™ Rotary: Shut off spreader anytime you stop. For complete coverage make each pass about 5 feet from the previous one, so some overlapping occurs. Avoid applying this product on flowers, vegetables and shrub plantings.

- Spring applications prevent crabgrass, foxtail, oxalis and spurge
- Stops crabgrass
- Stops crabgrass and other weeds before they sprout and fertilizes your lawn
- Stops crabgrass and other weeds before they sprout and helps make your lawn its thickest, greenest ever.
- Stops crabgrass before its starts [sprouts]!
- This simple 2-treatment program eliminates the confusion over what and when to apply for a thick, green, weed-free lawn . . . guaranteed.
- These two applications replace three regular applications of fertilizer.

### **OPTIONAL LAWCARE INFORMATION**

[Feeding/Lawncare Information]

[Tips for Lawncare Success:]

[Feed Regularly For Your Best Lawn]

[Regular feedings of Scotts Turf Builder will help grow a lawn you and your family can enjoy. Scotts Turf Builder provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.]

[Mow your lawn high. [A mowing height of 3" / Mowing high] allows the grass to develop a deep root system & helps your lawn use water more effectively.]

[Leave the grass clippings on your lawn. This recycles the plant nutrients back into the soil.]

[Conserve water. Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn. ][[It's free.]

[One Annual Feeding-Feeding once a year starts the growth process by greening and building new roots.] [photo]

[2-3 Annual Feedings – Each feeding builds on the last. The roots grow thicker and stronger, and the lawn starts to crowd out weeds.] [photo]

[4 Annual Feedings – The root system is deep and strong and the lawn has more resources to survive stresses.] [photo]

[Logo: Water Smart]

[Well-fed lawns are more efficient at using available water.] Feeding with Scotts® fertilizer helps grow a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat, drought and other stresses.

[20% More Nitrogen/Nutrients/Nutrition than regular Turf Builder]

[The Super Turf Builder Advantage - Your lawn requires essential nutrients to thrive. The Super Turf Builder line of fertilizers is exclusively formulated to deliver the most greening power/nutrients/nutrition you can get from Scotts. The special formula in Super Turf Builder with Halts Crabgrass Preventer gives your lawn 20% more nitrogen/nutrition/nutrients than regular Turf Builder with Halts Crabgrass Preventer for your best lawn ever.]

**Note to PM: The contents of the following box, Scotts and Your Environment, will appear in their entirety and the statements will not appear elsewhere on a label.**

**Scotts and Your Environment**

We care. Scotts products are designed with care to grow thicker, greener lawns.

[Because] A Green Lawn Is A Good Lawn. A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion.

You can make a difference. Help keep our water resources clean. Apply this product only to your lawn, and sweep up any product that lands in the driveway, sidewalk or street back on to your lawn

[Apply in Early Spring]

**OPTIONAL CLAIMS REGARDING RECOMMENDED PROGRAMS**

- Allow 2 months between application
- For best results, apply a Turf Builder® product four times a year (see back for details).
- For best results, apply as part of a Scotts Annual Lawn Pro® Program [see back for details]
- For best results, apply the Scotts® Turf Builder® Annual Program
- For best results, apply Scotts Annual Lawn Care Program

20  
 31

- 4-Step® Program
- Guaranteed results
  - Each step is designed to the specific season to help give you a greener lawn.
- No more guesswork . . . apply the right product at the right time for a thick, green, weed-free lawn.
- Its easy for you to have a better lawn.
- Save Money
  - Why even consider a lawn care service? Scotts Lawn Pro® Annual Program will give you a beautiful lawn for about one-third the cost.
- Scotts/our best annual/value program
- Simple and easy
  - No more guesswork. You simply apply the right product – one Step at a time.
- Start anytime . . . just check the month below and apply products at 2 month intervals
- Start anytime
  - You can begin the Annual Program anytime of the year. Just check the month and select the appropriate Step listed. Apply the remaining Steps at two-month intervals. If weeds or bugs are not a problem, apply Step 4 Lawn Fertilizer.
- Start the program at any time

**OTHER GREAT TURF BUILDER® PRODUCTS FOR YOUR LAWN.**

If weeds are a problem, use Turf Builder Plus 2®, weed and feed. This product clears out dandelions and over 50 other broadleaf weeds while providing your lawn with a safe, uniform feeding of fertilizer.

If you don't have weed problems, use Turf Builder®, lawn fertilizer. Turf Builder® promotes quick, deep greening without the danger of burning.

These great Turf Builder® products are developed specifically by Scotts for the unique needs of your lawn – your satisfaction is unconditionally guaranteed.

Turf Builder Plus 2®  
 Fertilizer plus Broadleaf Weed Control  
 (Crabgrass Preventer)

Turf Builder®  
 Fertilizer

**Advantages**

- Safe feeding – won't burn when applied as directed
- Quick greening – usually in 4 to 6 days
- Long lasting – feeds up to 2 months
- Dependable – traditional Scotts quality
- Prevents 9 weeds:

Grassy Weeds		Broadleaf Weeds
barnyardgrass	fall panicum	chickweed
crabgrass, large	foxtail	oxalis (yellow woodsorrel)
crabgrass, smooth	Poa annua	spurge (prostrate)

**What to Expect**

Crabgrass will be prevented all summer and your lawn will be greener in one week (4-6 days).

Stops crabgrass and other weeds before they sprout and helps make your lawn its thickest, greenest ever.

What to expect: Crabgrass will be prevented all summer and your lawn will be greener in 4 to 6 days.

Turf Builder plus Halts® for Lawns (Crabgrass Preventer) prevents crabgrass, foxtail, spurge, barnyardgrass, fall panicum, and oxalis (common yellow woodsorrel) from sprouting and appearing above ground level. This product does not control dandelions or any other weeds (including crabgrass) that are already sprouted and growing. You can kill growing broadleaf weeds with Scotts Super Turf Builder Plus 2 weed control plus lawn fertilizer.

Super Turf Builder® lawn fertilizer contains extra nitrogen, carefully blended with potassium and phosphorus, to make your lawn greener.

- Your lawn will be greener in 4 to 6 days if weather conditions are good (warm soil, some moisture) and application instructions were followed.
- The greening will reach its peak 8 to 10 days after application. The color difference will be more noticeable if your lawn is hungry to begin with.
- Super Turf Builder works below the soil, too, helping to promote root and rhizome development; this strengthens the grass plants and enables them to produce more blades of grass, and it thickens the lawn with the addition of new grass plants.
- Thin areas of turf will fill in over time (about 6 weeks), creating a more uniformly dense lawn.

**[OPTIONAL INFORMATION ON LAWN SIZING/APPLICATION SEASONS]**

Coverage	Treats/covers (and fertilizes) up to XX,XXX sq. ft. (Treats/covers and feeds XX,XXX sq. ft.)
----------	---

**How much is enough?**

To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in square feet. NOTE: If your lawn has an irregular shape, measure square areas, then add the figures together to reach your total lawn size.

**OPTIONAL CLAIMS SPECIFIC TO SCOTTS TECHNOLOGY**

[The Scotts Advantage / Scotts Patented All-in-One Particle\*: Each of Scotts exclusive all-in-one particles contain the guaranteed feeding nutrients and the weed control ingredient to provide consistent feeding and weed control to every treated square inch of your lawn. The result: A thick, green weed-free lawn without burning. Guaranteed.]

\*All-in-One Particles: nitrogen, potassium and the weed control contained in every particle.]

Exclusive Particle Technology

The Scotts Difference™

Patented Particle™ Technology

Every particle of this product contains Scotts® patented timed-release nitrogen plus phosphorus, potassium, and weed control. (See back for details.)

*The Scotts Difference™*

Scotts patented (exclusive) Particle Technology is available only in Scotts® products, so don't be fooled by weed-and-feeds (or crabgrass preventers) claiming to be "just like Scotts".

Uniform proportions of the major nutrients – timed-release nitrogen, plus phosphorus and potassium – and weed control are bonded together in every Turf Builder Plus Halts for Lawns particle, so they are distributed evenly across the entire lawn, eliminating hit-or-miss feeding and weeding. And the timed-release nitrogen feeds your lawn safely, without burning, and steadily for up to 2 months. Because of Scotts exclusive timed-release nitrogen, you won't get the rapid surge growth. With regular mowing, you will have fewer clippings and may not even have to bag your clippings.

With Scotts Turf Builder Plus Halts for Lawns, you can be assured that every particle contains timed-release nitrogen, plus the other primary nutrients and weed control.

	SCOTTS TECHNOLOGY
	<ul style="list-style-type: none"> <li>• Ultra Turf Builder Plus Halts for Lawns granules are consistent in composition.</li> <li>• Result: consistent distribution of nutrients and crabgrass preventer.</li> </ul>

**-OR-**

[Experience] [Get] The Scotts Advantage™: Feeds Your Lawn and Stops Crabgrass Before It Starts! Every Scotts particle contains plant nutrients and the prevention ingredient. Scotts All-in-One particles™ feed and prevent crabgrass [and other grassy weeds] from sprouting all season long [for up to 4 months].

All-in-One = nitrogen, phosphorus, potassium and the crabgrass prevention ingredient contained in every particle.

#### Turf Builder Plus Halts for Lawns

- Each All-in-One\* particle contains nutrients and the crabgrass prevention ingredient
- Evenly dispersed particles provide [better] crabgrass prevention and more consistent feeding

#### Turf Builder Plus Halts for Lawns

Turf Builder Plus Halts for Lawns particles deliver the same ratio of nitrogen, phosphorus, potassium and weed preventer in every treated square inch of turf for even, consistent feeding plus [better] crabgrass prevention.

#### Poly-S™ Technology

Scotts® Slow-release polymer-encapsulated nitrogen fertilizer – for uniform growth with extended feeding.

#### Advantages of Turf Builder plus Halts® for Lawns

#### QUALITY

**TURF BUILDER PLUS HALTS® for LAWNS** Our small, uniform granules cover your lawn completely to stop these weeds before they start. All this means that Turf Builder plus Halts® gives your lawn the best season-long crabgrass and foxtail prevention

**SCOTTS TRIONIZED® II FORMULA PROVIDES A MORE EFFICIENT NITROGEN THAN EVER BEFORE** to help promote quicker greening.

**TURF BUILDER PLUS HALTS® WON'T BURN YOUR LAWN.** The nitrogen in the Trionized® II formula is buffered. This means Turf Builder plus Halts® for Lawns greens your lawn without the danger of burning.

**PART OF THE NITROGEN IN TURF BUILDER PLUS HALTS® for LAWNS IS TIMED-RELEASE** to provide a supply of this essential nutrient to help your lawn stay thick and green for up to 6 to 8 weeks.

**EACH TURF BUILDER PLUS HALTS® for LAWNS GRANULE CONTAINS THE THREE MAJOR NUTRIENTS AND CRABGRASS PREVENTER.** We bond Scotts unique controlled-release nitrogen with other essential nutrients and a unique crabgrass preventer so your lawn receives a safe, uniform feeding and highly effective crabgrass, foxtail and spurge preventer.

<p><b>TURF BUILDER PLUS HALTS® for LAWNS</b></p>
