NET WEIGHT 10 1/16 LBS (4.56 kg)

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals.
CAUTION. Causes eye irritation. Avoid contact with eyes, skin, or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Wash after handling. May be harmful if swallowed. Avoid inhalation. Do not contaminate feed or foodstuff. Do not graze treated areas. Do not feed clippings to livestock.

Environmental Hazards. This pesticide is toxic to fish. Do not apply directly to water. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of wastes. In case of fire, either collect for use or do not let it spread.

STORAGE. Store in a clean, dry place. Recal opened bag by folding top down and securing.

PESTICIDE DISPOSAL. Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL. Do not reuse bag. Discard bag in trash.

ACTIVE INGREDIENT

Pencytethrin, N-(1-Ethylpropyl)-
3,6-dimethyl-2,6-

dinitro-“isoproturon” 1.71%

INERT INGREDIENTS. 98.29%

Total 100.00%

EPA Reg. No. 538-192 EPA Ex. 538-OH-1

Scotts

Halts

crabgrass preventer

stops crabgrass,
foxtail, spurge
and 6 other problem weeds
before they start - see below.

Directions for use

- It is a violation of federal law to use this product on a manner inconsistent with its labeling.
DO apply when lawn is dry.
DO apply to prevent germination of crabgrass, foxtail, spurge, bermudagrass, tall panicum, goosegrass, etc.
• before March 1 in southern California. For best results on thin lawns apply by mid-February.
• before mid-March in northern California.
• early Spring (up to time dandelions are in puffball stage) in all other states.
• for pregermination control, repeat application if winter rains, snow or freezing weather after application will not affect the performance of this product.
DO apply in August or September to prevent germination of Poa annua and chickweed.

Scotts
Sprinkler Setting

PP EasyGreen™
Drop Sprayer

(treats 5,000 sq ft)

5½ 26

*The Amounts are Standard amounts.

DO overlap PP or other drop spreader wheel tracks to avoid missed streaks. With Scotts EasyGreen™ rotary, avoid missed streaks by making each pass about 10 inches from the previous one so some overlapping occurs.

DO NOT use this product on dichondra or bentgrass lawns.

DO NOT use this product to control dandelions or any other weeds already sprouted and actively growing. Scotts Summer Crabgrass Control[®] is recommended to control actively growing crabgrass.

DO NOT use on newly seeded grass lawns until after the fourth mowing. On newly sprouted areas, wait 3 months before application.

DO NOT plant grass seed for four growing months after use of this product.

DO NOT apply more frequently than once yearly. Allow at least a 4 month interval between applications (except for goosegrass control).

DO NOT rake or aerify after application, as the Halts[®] chemical barrier in the soil will be disturbed.

NOTE: DO NOT apply material to cement, stone, clothing or shoes. If contact occurs, brush off particles to prevent staining. If necessary, rinse off with water.
