- . broad spectrum fungicide
- . controlled release nitrogen

Net Weight 33 1/2 lbs (15.20 kg)

KEEP OUT OF REACH OF CHILDREN  
CAUTION  
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION, causes eye irritation. Do not get in eyes, on skin, or on clothing. In case of contact immediately wash eyes or skin with plenty of water. Get medical attention if irritation persists. May be harmful if swallowed or absorbed through skin. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

Environmental Hazards: Do not apply directly to water.

ACTIVE INGREDIENTS:

Thiophanate-Methyl, [Dimethyl (1,2-phenylene)bis (iminocarbonothioyl)bis(carbamate)] . . . . .	1.75%
Iprodione, 3-(3,5-Dichlorophenyl)-N-(1-methylethyl)-2,4-dioxo-1-imidazolidinecarboxamide. . . . .	0.87%
INERT INGREDIENTS: . . . . .	97.38%
	Total 100.00%

EPA Reg No 538-194

Directions for use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

For use on ~~turfgrass areas~~ consisting of bentgrass, bluegrass, Poa annua, bermudagrass, ryegrass, fine fescue or tall fescue or mixtures where these grasses predominate.

Controls these diseases while fertilizing the turfgrass:

- ~~pink patch/red thread~~
- Dollar spot
- Brown patch
- Fusarium (Gerlachia) patch\*
- Leaf spot/melting out  
(Helminthosporium spp/Drechslera spp)

\*Washington, Oregon and California only

**BEST AVAILABLE COPY**

- ~~summer patch~~
- ~~melting out~~
- ~~Fusarium patch~~

Apply to moist or dry foliage. To avoid product pickup, lightly irrigate treated areas soon after application.

For prevention or control of dollar spot, leaf spot, melting out, pink patch (red thread), Fusarium patch (in Washington, Oregon and California) and brown patch (light to moderate disease), apply at the NORMAL RATE when disease activity is expected or noted. Repeat at two to three week intervals to prevent disease through the season. ~~For longer intervals between applications (30 days) use the DOUBLE RATE.~~

To control severe leaf spot, melting out, dollar spot, brown patch and ~~pink patch/red thread~~ apply at the DOUBLE RATE every 10-30 days until the disease is brought under control, then revert back to the preventive schedule.

For suppression of summer patch diseases apply at the DOUBLE RATE every 20 days (beginning in late spring to early summer). Three to five applications may be necessary for seasonlong suppression. Water immediately after application and keep turf from becoming drought stressed by watering (1" weekly. Under extreme hot weather conditions on sandy and clay soils, additional watering may be required.

**BACK CONTINUED:**

To control severe brown patch infestations, use a non-fertilizer fungicide such as ProTurf Systemic Fungicide, ProTurf Fungicide VI, or ProTurf Fungicide 7 to limit the amount of fertilizer applied. ~~This label is for the suppression of summer patch and winter patch (see label) only.~~ Once the brown patch is controlled, prevent further infestations by following up with ProTurf fungicide or combination fertilizer plus fungicide products.

**Note to User**

On short cut bentgrass (less than 3/4 inch) when temperatures are above 80° F, apply only to dry foliage.

Do not expose product to atmospheric moisture. For example, after application fold down and seal top of bag. This is particularly important under humid conditions.

Use only in clean, dry hopper. Do not leave product in hopper after application.

**Storage and disposal**

**STORAGE:** Store in a clean, dry place. Reseal opened bag by folding top down and securing.

**PESTICIDE DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.
