Scots 4-Step Annual Program

Scots 4-Step Annual Program

Now it's easy for you to have a better lawn

Scots Best Annual Program

Save money
Why even consider a lawn care service? Scots Annual Program will give you a beautiful lawn for about half the cost.

Simple and easy
No more guesswork. You simply apply the right product — one Step at a time.

Start anytime
You can start the Annual Program anytime of the year. Just check the month and select the appropriate Step listed below.

Guaranteed results
Each Step is designed for the specific season to help give you a healthier, greener lawn.

- Step 1 - Early Spring Fertilizer/Herbicide**
Control all winter and summer weeds — prevent weeds, grass, dandelions, clover and other summer weeds while promoting early spring growth for up to 7 months. This is a lawn care tonic — plus long-term protection.
- Step 2 - Late Spring Fertilizer/Herbicide**
Control all summer weeds — prevent weeds, grass, dandelions and other summer weeds while promoting early summer growth for up to 7 months. This is a lawn care tonic — plus long-term protection.
- Step 3 - Summer Annual/Herbicide**
Control all summer weeds — prevent weeds, grass, dandelions and other summer weeds while promoting early summer growth for up to 7 months. This is a lawn care tonic — plus long-term protection.
- Step 4 - Fall Annual/Herbicide**
Control all winter and spring weeds — prevent weeds, grass, dandelions and other winter and spring weeds while promoting early fall growth for up to 7 months. This is a lawn care tonic — plus long-term protection.

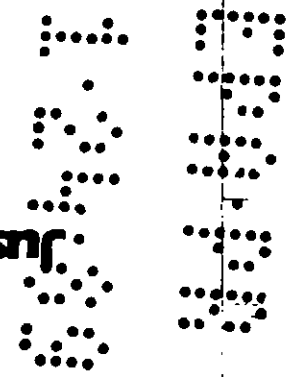

ACCEPTED
MAR 14 1989
Under the Federal Insecticide, Fungicide, and Herbicide Act, as amended, for the pesticide registered under EPA Reg. No. 538-202

Just shake it out! No spreader needed!

OUTER WRAP IN 4-STEP PKG

Summer (June-August)

Scotts best fertilizer plus crabgrass preventer—provides deep, dark greening for up to 2 months. This is Scotts best fertilizer plus crabgrass preventer.

step 1 DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application

Apply to dry, forage. It is not necessary to water in after application.

Apply this product in early Spring before the first mowing or before temperatures are regularly in the 40s. Rain, snow or freezing weather after application will not affect the performance of this product.

Do not seed or seed for four growing months following application. This product can prevent weeds from germinating.

On newly seeded or sodded areas, wait until grass has been mowed at least 4 times.

Do not use on Dicentra, bellis, helleborus or other underground stems.

Do not apply to shrubs, flower or garden seed beds or plants.

Do not apply this product more than once a year. Allow at least 4 to 6 weeks between applications of any other product in this Program.

Do not apply material to concrete, stone, clothing or shoes. If contact occurs, brush off particles to prevent staining. If necessary, rinse off with water.

Mowing

You must mow your lawn regularly to remove grass clippings and debris. But avoid breaking the soil surface to prevent soil compaction. Mow regularly after application. Heavy mowing will break the crabgrass barrier and reduce the effectiveness of this product.

Application Rate
(actual size)

Use lightweight shaker cones to spread evenly over lawn in above.
