Subject: Submission of revised labeling
for products containing 2,4-D
Ref: Agency letter dated 10/30/92
Scotts Lawn Pro Weed and Feed
EPA Reg. No. 538-215

Gentlemen:

The attached labels for the above listed product are provided in response to the Agency's request to submit revised labeling for products containing 2,4-D as outlined in the EPA's letter of October 30, 1992.

To aid the Agency in its review of the attached labels, we have summarized the Agency's requirements in an attached appendix. We have also highlighted the changes on the first copy of all labels to further facilitate your rapid review.

Finally, the following certification is provided on behalf of The O. M. Scott and Sons Company as required in the Agency's letter of October 30, 1992.

"I, being an authorized representative of The O. M. Scott and Sons Company, certify that all containers of Scotts Lawn Pro Weed and Feed, EPA Reg. No 538-215 produced by June 15, 1994 will bear revised labeling in accordance with the revised labeling required for Task Force technical and manufacturing use products.

I further certify that all containers of said product sold or distributed by this company by January 1, 1995."

Respectfully yours,

THE O. M. SCOTT & SONS COMPANY

Michael P. Kelty

APPENDIX
(RETAIL, GRANULAR)

The following changes have been made to the attached product label for a product containing 2,4-D. The basis for these revisions were for a granular product sold to homeowners for residential use.

We have added the following statements to the Hazards to Humans and Domestic Animals section of the label.

"When using this product, wear long sleeved shirt, long pants, socks and shoes."

"After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water."

"Do not allow people (other than applicator) or pets on treatment areas until spray has dried or dust has settled."

We have added the following statements to the Directions For Use to satisfy our requirements to state the appropriate application rate for each product and limit the number of applications per year.

"This product applies (1.5 or 2.0 depending on product) pounds of 2,4-D per acre per application. The maximum number of broadcast applications per treatment site is two per year two per year."

CAUTION
PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION. Harmful if swallowed, ;
Avoid inhalation and contact with skin, eyes, or clothing. In case of contact
immediately flush eyes or skin with plenty of water. Get medical attention if
irritation persists. Avoid contamination of feed or foodstuffs. Do not
contaminate water used for irrigational or domestic purposes.

Do not allow people (other than the applicator) or pets on treatment area during application. Do not enter treatment areas until spray has dried or dust has settled.

When using this product, wear long-sleeved shirt, long pants, socks and shoes.

After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water.

Environmental Hazards: Do not apply when weather conditions favor drift from target area. Do not contaminate water used for irrigation or domestic purposes. Drift or runoff may adversely affect non-target plants. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Do not contaminate water when disposing of equipment washwaters.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.

ACTIVE INGREDIENTS:

2,4-Dichlorophenoxyacetic acid	1.18%
2-(2-Methyl-4-chlorophenoxy) propionic acid	1.18%
INERT INGREDIENTS:	97.64%
Total	100.00%

Advantages

- . Safe feeding--won't burn when applied as directed
- . Quick-greening--usually in 3 to 5 days
- . Long-lasting--feeds up to 2 months
- . Dependable--traditional Scotts quality
- . Controls more than 50 weeds...

aster	English daisy	pigweed
bittercress	eveningprimrose	plantain
black medic	filaree	prickly lettuce
bristly oxtongue	fleabane	puncturevine
buckhorn	ground ivy	purslane
bull thistle	healall	pusley, Florida
burclover	henbit	ragweed
buttonweed	horseweed	scarlet
carpetweed	knotweed	pimpernel
centella	(seedling)	shadflower
chicory	lambquarter	shepherdspurse
chickweed	lippia	smartweed
cinquefoil	mallow	sowthistle
cudweed	moneywort	stitchwort
curly dock	morningglory	thymeleaf
dandelion	mustard	sandwort
dichondra	pennywort	vetch
dollarweed	pepperweed	white clover
		yellow rocket

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product applies 1.5 pounds of 2,4-D per acre per year. The maximum number of broadcast applications per treatment site is two per year.

APPLICATION

- . Apply any time weeds are actively growing (when daytime temperatures are consistently above 60°F).
- . Apply on a calm day.
- . Apply to moist grass. To help particles stick to weed leaves the grass should be thoroughly watered or wet from dew before applying Lawn Pro Weed and Feed.
- . Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine, lippia and dichondra lawns. On bermudagrass lawns, under certain conditions, some temporary discoloration may result.

WATERING OR RAIN

Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product.

This product should not be applied if rain is expected within the next 24 hours.

SPREADER

Be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. The Scotts PF Drop Spreaders provide excellent controlled application to protect these areas. When using the EasyGreen™ Rotary Spreader take special care near desirable plants.

(treats 5,000 sq ft)	4 1/2	25	4

RIGHT COLUMN

IMPORTANT

WHAT TO EXPECT

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90 degrees.

SEEDING/SODDING

Wait until the new grass has been mowed at least four times before applying Lawn Pro Weed and Feed weed control.

If you are planning to seed, you should wait at least one month after you have applied Lawn Pro Weed and Feed.

TIPS ON SPREADING WITH SCOTTS SPREADERS

Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn (ILLUS.)
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped (ILLUS.)
- Mow lawn first if grass is tall enough to touch the bottom of spreader

EasyGreen™ Rotary:

- Slide shut-off lever to the right. Application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs

Speedy Green™ Rotary:

- Shut off spreader anytime you stop
- For complete coverage make each pass about 5 feet from the previous one so some overlapping occurs
- Avoid applying product to flower beds adjacent to lawns.

Additional Spreader Settings (Non-Scotts spreader settings are approximate. You may need to adjust for proper coverage.)

Cyclone Rotary (Model B)	3 1/2
Central Drop (#205).	6
Sears Drop (#19810).	8
Ortho Drop (#5000)	6
Greenview Drop (#105).	7
Precision Drop	5 1/2
