PRIVATE LABEL WEED AND FEED ✓

weed control plus lawn fertilizer ✓

Advantages of Private Label Weed and Feed ✓

LEFT COLUMN

SUPERIOR QUALITY

SMALL LIGHTWEIGHT GRANULES MEAN BETTER WEED CONTROL. ^{OK} Most lawn weed controls must be absorbed through the weed's leaves to be effective. Private Label Weed and Feed granules are small and lightweight so they will stay on even the smallest weed leaves. And each Private Label Weed and Feed granule contains weed control and America's favorite lawn fertilizer. ✓

TRIONIZED (R) II FORMULA PROVIDES A MORE EFFICIENT NITROGEN THAN EVER BEFORE. This means Private Label Weed and Feed now promotes quick, deep greening while feeding your lawn as it needs to be fed. ✓

PRIVATE LABEL WEED AND FEED PROVIDES UP TO TWO MONTHS OF GREENING. The nitrogen in Private Label Weed and Feed is time-released to help keep a supply of this essential nutrient available to your lawn. This means that your lawn can stay thick and green for up to two months. ✓

PRIVATE LABEL WEED AND FEED GRANULE CONTAINS NPK AND WEED CONTROL. We bond our unique controlled-release nitrogen (N) with phosphorous (P) and potassium (K) and a weed control, so your lawn receives a safe even feeding, and effective weed control. ✓

(ILLUS.)

Easy To Apply

LEFT COLUMN

DIRECTIONS FOR USE ✓

It is a violation of federal law to use this product in a manner inconsistent with its labeling. ✓

APPLICATION

- . Apply anytime weeds are actively growing (when daytime temperatures are consistently above 60°). ✓
- . Apply on a calm day. ✓
- . Apply to moist grass. To help particles stick to weed leaves the grass should be thoroughly watered or wet from dew *before* applying Private Label Weed and Feed. ✓
- . Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine and dichondra lawns. On bermudagrass lawns, under certain conditions, some temporary discoloration may result. ✓

WATERING OR RAIN ✓

Do not water your lawn for 24 hours after application. Water will wash the weed control off the weed's leaves and reduce the effectiveness of this product. ✓

This product should not be applied if rain is expected within the next 24 hours. ✓

SPREADER

Be careful when applying this product near shrubs, flower beds or vegetable gardens as contact with weed control may damage these desirable plants. Drop Spreaders provide excellent controlled application to protect these areas. ✓

Spreader Settings

Drop Spreaders ✓

(treats XX,XXX sq ft)

XXX ✓

RIGHT COLUMN

IMPORTANT

WHAT TO EXPECT ✓

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control.

This product will not prevent weed seeds from producing new plants.

EXTREME TEMPERATURES

Avoid applying when temperatures are consistently above 90 degrees. ✓

SEEDING/SODDING

Wait until the new grass has been mowed at least four times before applying Private Label Weed and Feed weed control.

If you are planning to seed, you should wait at least one month after you have applied Private Label Weed and Feed. ✓

TIPS ON SPREADING ✓

Drop Types:

- First apply 2 header strips
- Operate spreader the longest way of the lawn (ILLUS.)
- Overlap wheels to insure uniform feeding ✓
- Shut off spreader when you have reached the header strips or stopped (ILLUS.)
- Mow lawn first if grass is tall enough to touch the bottom of spreader
