Moss Control Plus  
Lawn Fertilizer

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

O. H. Scott & Sons Company  
14310 Scottslawn Road  
Marysville, OH 43041

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 538-223."

b. Modify "Keep out of lakes, ponds, or streams" to read "Do not apply directly to water."

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

Moss Control(R)  
plus Lawn Fertilizer

**CONTROLS MOSS:** each uniform granule in this bag contains the necessary active ingredient to control the moss in your lawn. Each moss plant in your lawn will get thoroughly coated to assure a complete effective control. The moss will turn black and eventually disappear.

The uniform granules in Scotts Moss Control provide an effective control. (applied at Scotts Recommended Rate)

Other moss control products with a mixture of large and small granules can give uneven control. (applied at Manufacturer's Recommended Rate).

#### Directions for use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Apply during winter thru early spring (December-April) when moss is actively growing.

It is best to apply when the lawn is moist and tall grass has been mowed to expose low growing moss. Use the REGULAR RATE (covers 5,000 sq ft.) for normal moss infestations. Use the HEAVY RATE (covers 4,000 sq ft.) for heavy moss infestations.

Do not apply to a newly seeded or sodded lawn until it has been mowed four times.

Brush or rinse particles from cement, stone, clothing or shoes to prevent staining.

Grass blades may show a temporarily black color, however this condition will disappear after mowing.

#### TIPS ON SPREADING WITH SCOTTS SPREADERS

##### Scotts Drop:

- First apply 2 header strips
- Operate spreader the longest way of the lawn
- Overlap wheels to insure uniform feeding
- Shut off spreader when you have reached the header strips or stopped

##### EasyGreen<sup>TM</sup> Rotary:

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs
