OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

SUBJECT: Label Amendment Submission of 01/31/94 in Response to PR Notice 93-7  
EPA Reg. No. 538-242  
FUNGICIDE IX

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, successfully **REMOVES THE PRODUCT FROM THE SCOPE** of PR Notice 93-7 once the comments (if any) on the attached sheet are addressed. Other than the alterations (if any) listed on the attached sheet, no further alterations to the labeling are necessary to reflect the requirements of the Worker Protection Standard.

As required by section 6(f)(1) of FIFRA, Since your amendment proposes to delete uses directly and/or to delete uses implicitly through the use of exclusionary statements), the Agency will publish in the Federal Register a notice of receipt of your amendment to delete uses, as required by section 6(f)(1) of FIFRA. and The Agency will defer action for 90 days from the date of the Federal Register notice to give affected minor users an opportunity to try to persuade you to retain the uses(s). When the comment period has expired, the Agency will approve the amendment unless you have withdrawn it, and stamp the amended labeling "accepted." Your stamped-accepted labeling will then be sent to you.

As described in Supplement A of PR Notice 93-11 (self-verification option), you may sell and distribute product bearing the submitted labeling before you receive a copy of your stamped-accepted labeling. Note that your registration is not amended until the comment period required by section 6(f)(1) of FIFRA has expired and the Agency has approved the amendment. Therefore, you may withdraw your proposed amendment at any time during the comment period and until you receive your stamped-accepted labeling.

Sincerely,

James Tompkins, Deputy Chief  
Registration Support Branch  
Registration Division (7505W)

PRECAUTIONARY STATEMENTS

ACCEPTED  
with COMMENTS  
In EPA Letter Dated

APR 20 1994

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

538-242

Hazards to Humans and Domestic Animals: Causes moderate eye irritation.  
Harmful if inhaled or absorbed through the skin. Avoid breathing dust. Avoid  
contact with skin, eyes or clothing. Wash thoroughly with soap and water  
after handling.

Statement of Practical Treatment

If in eyes: Flush eyes with plenty of water. Call a physician  
if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical  
attention.

If inhaled: Remove to fresh air. Administer CPR if necessary.  
Call a physician.

Environmental Hazards: Do not apply directly to water, to areas where surface  
water is present or to intertidal areas below the mean high water mark. Do  
not contaminate water when disposing of equipment washwaters. Apply this  
product only as specified on this label.

ACTIVE INGREDIENTS:

Chloroneb, (1,4-Dichloro-2,5-dimethoxybenzene . . . . .	3.26%
Thiophanate-methyl, Dimethyl 4,4'(-o-phenylenebis) (3-thioallophanate) . . . . .	1.63%
INERT INGREDIENTS: . . . . .	95.11%
Total	100.00%

Directions for use

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Adapted for use in all areas where listed turf diseases attack turfgrasses.

TO PREVENT GRAY AND PINK SNOW MOLD, apply to dry foliage at the NORMAL or MEDIUM RATE prior to the first snow. Repeat in mid-Winter when turf is free of snow and again immediately after the final snow melts in the Spring. In areas where snow cover is present the entire Winter, apply at the HIGH RATE prior to the first snow and follow with a NORMAL RATE when the snow melts in the Spring, if needed.

TO PREVENT PYTHIUM BLIGHT (when weather conditions are favorable: high temperature and humidity, day and night), apply to moist foliage at the NORMAL or MEDIUM RATE and repeat at 5-7 day intervals while weather conditions persist.

TO CONTROL ACTIVE PYTHIUM BLIGHT, apply to moist foliage at the MEDIUM RATE as soon as symptoms are observed and repeat as needed if weather conditions remain favorable. For severe attack, apply a HIGH RATE application to moist foliage and repeat at NORMAL RATE as needed. If disease symptoms do not subside, use a second HIGH RATE application in 5-7 days.

TO PREVENT DOLLAR SPOT\*, COPPER SPOT AND BROWN PATCH, apply to dry or moist foliage at the NORMAL or MEDIUM RATE when disease activity is noted or suspected, repeat at 2-3 week intervals. During periods of high day and night temperatures and humidity, treatment intervals may need to be shortened for best brown patch control.

TO CURE DOLLAR SPOT, COPPER SPOT AND BROWN PATCH, when symptoms indicate advanced stages, apply at the MEDIUM or HIGH RATE and follow with the NORMAL RATE preventive program.

\*If dollar spot control is not effective after using this product as recommended, a thiophanate-methyl or benomyl-tolerant strain of fungi may be present. Consult your ProTurf Tech Rep for recommendations of suitable ProTurf Fungicides to use promptly.

ON NEW SEEDINGS, apply at MEDIUM RATE just after sowing seed. After germination or at first sign of disease, apply to moist foliage and repeat at 7-10 day intervals if evidence of disease persists.

DRY FOLIAGE APPLICATIONS should be made to prevent snow mold. For prevention or control of Pythium blight, prolonged contact with the foliage enhances activity.

ON GREENS AND FAIRWAYS, it is suggested to apply the product to moist foliage in the morning and evening, followed by a light syringing before mowing or allowing heavy play.

Do not apply in a brisk wind.

#### PRECAUTIONS

Allow one week between the application of this and other control products. (This guideline can be relaxed where severe insect or disease attack requires immediate treatment).

When treating Pythium and brown patch for control on established turf, do not fertilize or water heavily during periods when disease is active.

Back continued:

### Storage and disposal

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store in a clean, dry place. Reseal opened bag by folding top down and securing.

**PESTICIDE DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or be incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

### Suggested Spreader Settings

To provide proper distribution calibrate spreader before application.

42.12 lbs. treats 22,000 sq ft (1/2 acre) at the NORMAL RATE  
42.12 lbs. treats 11,000 sq ft (1/4 acre) at the MEDIUM RATE  
42.12 lbs. treats 7,333 sq ft (1/6 acre) at the HIGH RATE

SPREADER	GROUND OR PTO SPEED	WIDTH OF COVERAGE	SPREADER SETTINGS		
			NORMAL RATE	MEDIUM RATE	HIGH RATE
Scotts Drop Type	3 mph	overlap wheels			
Gandy 42"	3 mph	overlap wheels			
Scotts Rotaries*					
R-7, R-7X, PT-10, PT-11	3 mph	XX ft.			
R-8 (cone X)	3 mph	XX ft.			
Lely Models (see below)	4.5 mph	XX ft.			
Vicon	4.5 mph	XX ft.			

Lely models WTR, WFR, HR and 1250. PTO at 450 rpm.

PRODUCT RATE:   NORMAL = 1.91 lbs. product/1,000 sq ft (1.0 + 0.5 oz ai/M)  
                  MEDIUM = 3.83 lbs. product/1,000 sq ft (2.0 + 1.0 oz ai/A)  
                  HIGH    = 5.74 lbs. product/1,000 sq ft (3.0 + 1.5 oz ai/A)

IMPORTANT NOTICE: DISCLAIMER AND LIMITATION OF LIABILITY

This product has been researched to provide necessary data to support its uses listed on the label. The user should always follow the label directions and exercise his judgement and caution when using the product under his growing conditions. NO WARRANTY OR REPRESENTATION IS MADE, EXPRESS, OR IMPLIED, CONCERNING THE RESULTS TO BE OBTAINED FROM THE USE OF THIS PRODUCT IF NOT USED IN ACCORDANCE WITH DIRECTIONS OR ESTABLISHED SAFE PRACTICE. The exclusive remedy of the user or Buyer, and the limit of liability of The O M Scott & Sons Company or any other Seller, for any and all losses, injuries or damages resulting from the use or handling of this product shall be the purchase price paid by the user or Buyer for the quantity of this product involved. The Buyer and users are deemed to have accepted the terms of this Notice, which may be varied only by agreement in writing, signed by a duly authorized representative of The O M SCott & Sons Company.
