TO PREVENT DOLLAR SPOT, ANTHRACNOSE, POWDERY MILDEW AND RUST (Puccinia spp.) apply to moist or dry foliage at the RECOMMENDED RATE when environmental conditions favor disease activity. Repeat at two week intervals throughout the expected disease period.

TO CONTROL ACTIVE DOLLAR SPOT, ANTHRACNOSE, POWDERY MILDEW AND RUST (Puccinia spp.) apply at the DOUBLE RATE to moist or dry foliage at two week intervals. When the disease activity is under control, apply at the RECOMMENDED RATE at two week intervals.

TO PREVENT BROWN PATCH apply to moist or dry foliage at the DOUBLE RATE when environmental conditions favor disease activity. Repeat at two week intervals throughout the expected disease period.

TO CONTROL ACTIVE BROWN PATCH use a non-fertilizer fungicide such as ProTurf Fungicide XI to limit the amount of fertilizer applied since high levels of nitrogen applied to turf during or just prior to the onset of hot, humid weather may increase the severity of brown patch. Follow with the RECOMMENDED RATE of either product once the disease is controlled.

TO PREVENT NECROTIC RING SPOT AND SUMMER PATCH apply to moist or dry foliage at the HEAVY RATE. Begin in the spring when conditions are favorable for disease development. Make 2-4 applications at monthly intervals. For best results water in after application.

Note carefully

To avoid product pick-up, lightly irrigate treated areas soon after application.

On short cut bentgrass (1/2" or less) when temperatures are above 80°F, apply only to dry foliage.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing. **PROTECT FROM WATER AND EXTREME HEAT.**

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Suggested Spreader Settings

To provide proper distribution calibrate spreader before application.

Do not adjust rates of application in order to meet fertilizer requirements of your soil.
