## The Scotts Advantage™:

### Tiny, Lightweight Particles For Better Weed Control

Weed killers work by entering through the weeds leaves. Therefore, it's best to apply a weed & feed to a wet lawn, so the particles can stick better to the weeds. Scotts Turf Builder® With Plus 2® has tiny, lightweight granules that stick to weed leaves far better than the larger pellets of other weed killers, for better control.

And unlike most weed & feeds, every Scotts All-in-One® particle™ contains plant nutrients and the weed control ingredient. Scotts provides consistent feeding and weed control to every square inch of turf for a green, thick lawn with no weeds. Guaranteed!

\*All-in-One = nitrogen, phosphorus, potassium and the weed control ingredient contained in every particle

### Turf Builder® With Plus 2®

- Tiny, lightweight particles stick to weed leaves for better weed control
- All-in-One® particles contain nutrients and the weed control ingredient for green, thick lawns with no weeds

### Ordinary Mixed Fertilizers
