UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF  
CHEMICAL SAFETY AND  
POLLUTION PREVENTION

Ms. Cheryl H. Prinster  
The Scotts Company  
14111 Scotts Lawn Road  
Marysville, OH43041

MAY 24 2011

Subject: Label Amendment to revise label format and claims  
Product Name: Turf Builder Plus 2  
EPA Reg. No. 538-282  
Application dated February 21, 2011

Dear Ms. Prinster:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

Amended labeling will supercede all previously accepted ones. A stamped copy of labeling is enclosed for your records.

Submit one (1) copy of final printed labeling before you release the product for shipment.

Sincerely,

A handwritten signature in black ink, appearing to read "Kathryn V. Montague".

Kathryn V. Montague  
Product Manager 23  
Herbicide Branch  
Registration Division (7505P)

[FIRST AID AND ENVIRONMENTAL INFORMATION]

[KEEP OUT OF REACH OF CHILDREN]

[CAUTION]

PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals**

**CAUTION.** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt, long pants, shoes and socks. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

**First Aid**

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

**Environmental Hazards**

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

4/21

**Note to PM:**

**Bold, italicized text is information for the reader and is not part of the label.**  
 [Bracketed information is optional.] Text separated by / denotes and/or options.

**Directions for Use *Option 1***

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product applies 1.5 pounds of 2,4-D per acre per application. The maximum number of broadcast applications per treatment site is two per year. A minimum of 30 days between applications is required.

**Application Restrictions**

- Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application. Do not allow people or pets to enter treated areas until dusts have settled.
- Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine, dichondra, florata, carpetgrass or lippia lawns.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.
- Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.

**Application Precautions**

- Apply when weeds are actively growing (when daytime temperatures are consistently between 60°F and 90°F.).
- Grass wet with dew or thoroughly-watered grass helps particles stick to weed leaves.
- **In Spring** treat bahia and centipede lawns mid-March or later after the second mowing. **In Fall**, treat centipede lawns before October 1 and bahia lawns before November 1.
- Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.

**Watering or Rain**

This product may be applied if rain is not expected in the next 24 hours.

Do not water or mow lawn for at least 24 hours after application. (Granules must remain on weed leaves for 24 hours to be effective.)

**IMPORTANT**

**What to Expect**

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for control. This product will not prevent weed seeds from producing new plants.

Under certain conditions, temporary discoloration may occur on bahia, centipede, bermudagrass, and zoysiagrass lawns.

Controls [the following] Weeds/Weeds Controlled [including]:

**Note to PM:**

**Bold, italicized text is information for the reader and is not part of the label.**  
 [Bracketed information is optional.] Text separated by / denotes and/or options.

**Seeding/Sodding/Sprigging**

Wait at least one month after you have applied this product before seeding, sodding or sprigging.

Mow new grass at least 4 times before applying.

**Note to PM: End of Option 1**

**Directions for Use Option 2**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.  
 This product applies 1.5 pounds of 2,4-D per acre per application.

**Application**

- Apply on a calm day.
- Make sure that the grass is wet from dew or sprinkling before applying. (This helps particles adhere to weed leaves to produce best results.)
- Set spreader to the setting indicated by the chart below [before applying].

**Restrictions**

- Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application. Do not allow people or pets to enter treated areas until dusts have settled.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.
- Do not apply more than twice per year. A minimum of 30 days between applications is required.
- Do not water or mow lawn for at least 24 hours after application. (Granules must remain on weed leaves for 24 hours to be effective.)
- Do not apply if rain is expected within 24 hours.
- Do not apply if day temperatures are regularly below 60° F or above 90° F.
- Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.
- Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.
- Delay application on newly seeded, sodded or sprigged areas until new grass has been mowed four times.
- Do not seed, sod or plant grass sprigs until at least one month after using this product.
- Do not apply on St. Augustinegrass, Floratam, dichondra, lippia, carpetgrass or bentgrass.
- On bahia or centipedegrass lawns, wait until after the second mowing of the year, but not before mid-March.
- In fall, DO NOT treat centipedegrass after Oct. 1, nor bahiagrass after Nov. 1.

---------	----------	----------------------	---------------

**Note to PM: End of Option 2**

**Directions for Use Option 3**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

- This product applies 1.5 pounds of 2,4-D per acre per application.
- Apply no more than twice per year.
- A minimum of 30 days between applications is required.

**Application Precautions**

- Make sure that the grass is wet from dew or watering before applying. (This helps particles adhere to weed leaves to produce best results.)
- Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.
- Set spreader to the setting indicated by the chart below before applying. Fill spreader over bare ground or hard surface.
- Apply one or two header strips, then apply in longest direction of lawn. Shut off spreader each time you reach the header strip, or stop.
- Sweep or blow stray particles from hard surfaces back onto lawn area. Clean spreader away from hard surfaces or storm drains.
- One month after using this product, it is okay to seed, sod or plant grass sprigs.
- Mow grass 4X before applying on newly seeded, sodded or sprigged areas.

**Restrictions**

- Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application. Do not allow people or pets to enter treated areas until dusts have settled.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.
- Do not apply this product if rain is expected within 24 hours.
- Do not apply if day temperatures are regularly below 60° F or above 90° F.
- Do not mow or water lawn for at least 24 hours after application. (Granules must remain on weed leaves for 24 hours to be effective.)
- Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.
- Do not apply this product on St. Augustinegrass, Floratam, dichondra, lippia, carpetgrass or bentgrass.
- Do not apply before the second mowing of the year and before mid-March on bahia or centipedegrass lawns.
- Do not treat centipedegrass after Oct. 1 and bahiagrass after Nov. 1.
- Do not apply to hard surfaces like driveways or streets. Apply only to grass.

chicory	hawkweed	plantain (broadleaf)	yellow rocket

**Note to PM: End of Option 3**

**Directions for Use Option 4**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product applies 1.5 pounds of 2,4-D per acre per application. The maximum number of broadcast applications per treatment site is two per year. Allow a minimum of 30 days between applications.

**Application Precautions**

- Apply when weeds are actively growing (when daytime temperatures are consistently above 60° F).
- Apply on a calm day.
- Apply to moist grass. To help particles stick to weed leaves, the grass should be thoroughly watered or wet from dew before applying this product.
- Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.

**Application Restrictions**

- Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application. Do not allow people or pets to enter treated areas until dusts have settled.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when windy. Apply this product directly to your lawn, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when raining or when rain is expected that day.
- On bahia and centipede lawns, wait until after the second mowing of the year but NOT before mid-March. In the fall, DO NOT treat centipede after the first of October and DO NOT treat bahia after the first of November.
- Do not use this product on flowers, shrubs, fruit or vegetable plants or on creeping bentgrass, St. Augustine and dichondra lawns. On Bermudagrass, bahia, centipedegrass, zoysia lawns, under certain conditions, some temporary discoloration may result.
- Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.

**Extreme Temperatures**

Do not apply when temperatures are constantly above 90° F.

**Watering or Rain**

- Do not water or mow lawn for at least 24 hours after application. Granules must remain on weed leaves for 24 hours to be effective.
- Do not apply if rain is expected within the next 24 hours.

**Easy to Follow Instructions**

Apply with a drop or rotary spreader. For best results, use a Scotts spreader.

**Step 1 Make sure that the grass is wet from dew or sprinkling before applying.**

- This helps particles adhere to weed leaves to produce best results.

**Step 2 Set and fill spreader.**

- Set spreader to the setting indicated by the chart below.

**Step 3 Apply product.**

- Apply on a calm day.
- Do not water or mow lawn for at least 24 hours after application. Granules must remain on weed leaves for 24 hours to be effective.
- Delay application if rain is expected within 24 hours.
- Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn. *Optional Florida Environmental statements. Note to PM: Label placement here is optional*

**Step 4 Clean-up.**

- Return unused product to original container and store out of reach of children and pets.
- [Sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.] *Optional Florida Environmental statement. Note to PM: Label placement here is optional*
- [To keep lawn products from reaching storm sewers, sweep or blow any stray particles from hard surfaces back onto lawn area. Do not clean spreader over hard surfaces or near storm drains.] *Optional*

**Step 5 Enjoy your lawn.**

*Note to PM: End of Option 5*

**Storage and Disposal**

Do not contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. [Reseal opened bag by folding top down and securing.]

**PESTICIDE CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. **If Empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

*Optional Florida Environmental statement. Note to PM: Label placement in front of [within]any spreader settings section is optional:*

[Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk or street, back onto your lawn.]

**Note to PM:**

[This package applies 2.86 lbs of product per 1,000 sq. ft.][Covers X,XXX sq ft]

**Option 1**

**Tips on Spreading**

**Scotts Drop:**

- Do not apply during windy days.
- First apply 2 header strips.
- Overlap spreader application area to avoid strips of untreated lawn.
- Shut off spreader when you reach the header strip or any time you stop.

**EasyGreen® Rotary:**

- Slide shut-off lever to the right, application automatically starts and stops when you do
- Avoid misses by making each pass about 30 inches from the previous one so some overlapping occurs

**Scotts Spreader Settings**

[Picture of shaker carton]	Use lightweight shaker carton to sprinkle evenly over lawn as shown.	[Picture of dime]

**If you have questions**

We designed this program to make having a better lawn as simple and easy as possible. But you may still have some questions about your lawn during the year. If so, you can contact the Scotts Lawn Pro retailer where you bought this program. They are ready to answer your questions and provide any help or information that you may need - **OR**- You can get the answer by talking directly with one of Scotts lawn counselors. Simply dial this toll-free number 1-800-543-TURF (in Ohio 1-800-762-4010).

**Option 2  
Spreading Tips**

**For best results, use a Scotts spreader**

	Spreader Setting REGULAR RATE covers 5,000 sq.ft.	DIRECTIONS
Scotts Drop Spreaders	X	Mow lawn first; apply 2 longest direction of lawn, overlapping wheel marks.
Scotts EasyGreen® Rotary	X	Make each pass about XX header strips; apply inches from previous pass to overlap spread width.
Scotts SpeedyGreen® Rotary	X	Make each pass about X feet from previous pass to overlap spread width.

SETTINGS FOR DROP SPREADERS

Scotts EasyGreen® (30" spread width)	XXX
Scotts SpeedyGreen® (5' spread width)	XXX
Republic EZ Rotary	XXX
Ortho, Sears, K Gro	XXX
Red Devil	XXX

**When Using A Drop Spreader:** Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or when you have stopped.

**When Using A Rotary Spreader:** Shut-off spreader any time you stop. For complete coverage make each pass according to spreader manufacturer's directions so some overlapping occurs.

[photo]  
This lawn was fed with *Insert Product Name*

[photo] Treated

[photo] Untreated

XX NITROGEN	X PHOSPHORUS	X POTASSIUM
Essential for plant growth; makes grass green.	Stimulates root growth; helps grass multiply.	Makes plant strong; better able to resist drought and extreme heat.

**[APPLICATION]**

**How and When to Apply**

Apply in late spring, summer, or fall. For use on bahia, bermuda, bluegrass, centipede, fescue, ryegrass, or zoysia lawns.

**DO NOT USE ON ST. AUGUSTINEGRASS, FLORATAM, DICHONDRA, LIPPIA, CARPETGRASS OR BENTGRASS LAWNS.**

**How Much is Enough?**

To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in square feet. NOTE: If your lawn has an irregular shape, measure square areas, then add the figures together to reach your total lawn size.

[Bracketed information is optional.] Text separated by / denotes and/or options.

- Feeds lawn, helping turf to fill in where weeds once were
- Strengthens/protects your lawn
- Fast, long lasting greening power
- Won't burn lawns, guaranteed.
- No burning
- No surge growth
- Builds thick, green lawns.
- Quick greening, long lasting.
- Patented, timed-released nitrogen formula builds thick, green lawns from the roots up
- Each lawn fertilizer particle provides safe gradual release that won't burn or cause surge growth when applied as directed
- Delivers nutrients which enhance root growth and provide extended feeding
- All the nutrients your lawn needs in one application/bag/step
- Scotts All-in-One®\*\* particles combine essential nutrients into every particle (for even feeding)
- Total nutrient package helps repair thin and bare spots in your lawn
- Patented timed-release nitrogen formula builds thick, green lawns from the roots up.
- Miracle-Gro® nutrients help develop a thicker, greener lawn
- ***Insert Product Name*** lawn fertilizer contains extra nitrogen, carefully blended with potassium and phosphorus, to make your lawn greener
- Your lawn will be greener in 4 to 6 days if weather conditions are good (warm soil, some moisture) and application instructions were followed.
- The greening will reach its peak 8 to 10 days after application. The color difference will be more noticeable if your lawn is hungry to begin with.
- ***Insert Product Name*** works below the soil, too, helping to promote root and rhizome development; this strengthens the grass plants and enables them to produce more blades of grass, and it thickens the lawn with the addition of new grass plants.
- Thin areas of turf will fill in over time (about 6 weeks), creating a more uniformly dense lawn.
- Patented timed-release Miracle® Capsules feed your lawn over an extended period of time.
- There's no overfeeding or underfeeding when you follow the fail-proof directions.
- The result is a beautiful, thicker, greener lawn.

\*As listed ***Note to PM: Applies to weeds noted under claims***

FOR BEST RESULTS, APPLY TO A WET LAWN

**Scotts & Your Environment >> [art-Scotts]**

**We care.**

Scotts products are designed with care to grow thicker, greener lawns.

**[Because] A Green Lawn is A Good Lawn.**

A healthy lawn can clean the air, produce oxygen and prevent runoff and soil erosion.

**You can make a difference.**

Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back onto your lawn.

**Note to PM:**

**Bold, italicized text is information for the reader and is not part of the label.**  
[Bracketed information is optional.] Text separated by / denotes and/or options.

**Tips for Lawncare Success:**

**Feed regularly for your best lawn.** Regular feedings of Scotts Turf Builder will help build a lawn you and your family can enjoy. Scotts Turf Builder provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.

**Mow your lawn high.** Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.

**Leave the grass clippings on your lawn.** This recycles the plant nutrients back into the soil.

**Conserve water.** Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.

Scotts Recommended [Annual] Feeding Schedule/Plan

**Plan your feeding schedule. Choose the right product for your lawn.**

**Any Season.** Apply any season if weeds or bugs are not a problem:

[Art: Bag] Scotts Turf Builder Lawn Fertilizer

**Early Spring.** February – April. To prevent crabgrass:

[Art: Bag] Scotts Turf Builder with Halts Crabgrass Preventer

**Late Spring.** April – June. To kill weeds:

[Art: Bag] Scotts Turf Builder with Plus 2 Weed Control

**Summer.** June – August. To kill bugs:

[Art: Bag] Scotts Turf Builder with SummerGuard

**Fall.** September – November.

[Art: Bag] Scotts Turf Builder WinterGuard. To kill fall weeds:

[Art: Bag] Scotts Turf Builder WinterGuard with Plus 2 Weed Control

-OR-

Scotts Recommended [Annual] Feeding Schedule/Plan

**Use Any of These Products Next to Keep Your Lawn Looking Great All Season!**

**Anytime**

[art-Turfbuilder] Use anytime if weeds or insects are not a problem

**Summer**

[art-Turf Builder with Summerguard] Use to kill insects and strengthen your lawn against heat and drought

**Fall**

[art-Turf Builder Winterguard] Use to build stronger, deeper roots for a thicker, greener lawn in spring

**[Art: Water Smart] Well-fed lawns are more efficient at using available water.**

Feeding with Scotts [Water Smart][fertilizer] helps build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat, drought and other stresses.

- No more guesswork . . . apply the right product at the right time for a thick, green lawn
- Start anytime . . . just check the month below and apply products at 2 month intervals

<b>Turf Builder® With Halts® Crabgrass Preventer</b>	<b>Turf Builder® With Plus 2® Weed Control</b>
<ul style="list-style-type: none"> <li>• Apply in early spring (Feb.-April)</li> <li>• Prevents crabgrass and other annual weeds while feeding your lawn. (In the Pacific Northwest, substitute Turf Builder® Moss Control Granules. For St. Augustine grass, substitute Bonus® S. For dormant bermudagrass, substitute Halts®.)</li> </ul>	<ul style="list-style-type: none"> <li>• Apply in late spring (April-June)</li> <li>• Kills dandelions and other broadleaf weeds while feeding your lawn. (For St. Augustinegrass substitute Turf Builder®.)</li> </ul>
<b>Turf Builder® With Insect Control</b>	<b>Turf Builder®</b>
<ul style="list-style-type: none"> <li>• Apply in summer (June-Aug.)</li> <li>• Kills lawn damaging insects plus fleas while feeding your lawn.</li> <li>• For grub control, apply Scotts® GrubEx® Season-Long Grub Killer anytime from April to mid-August.</li> </ul>	<ul style="list-style-type: none"> <li>• Apply in fall (Aug.-Nov.)</li> <li>• Important time to feed for a thicker, greener lawn.</li> </ul>

**Optional Winterizer Feeding**

**Late Fall**

**(Sept.-Nov.)**

(4 to 6 weeks after Early Fall Turf Builder feeding)

Apply as a last feeding in fall to help prepare your lawn for winter.

**Super Winterizer**

19/21

*Note to PM:*  
**Bold, italicized text is information for the reader and is not part of the label.**  
 [Bracketed information is optional.] Text separated by / denotes and/or options.

EPA Reg. No. 538-282

**Additional Super Winterizer Feeding**

**Late Fall**

**September – November**

4-6 weeks after Early Fall fertilizer feeding. Apply as last feeding in fall to help prepare your lawn for winter.

**Now it's easy for you to have a better lawn**

**Save money**

Why even consider a lawn care service? Scotts Recommended Annual Program will give you a beautiful lawn for less money.

*Or*

Why even consider a lawn care service? Scotts Lawn Pro® Annual Program will give you a beautiful lawn for about one-third the cost.

**Start anytime**

You can start into the Recommended Annual Program anytime of the year. Just check the month and select the appropriate Step listed below.

**Simple and easy**

No more guesswork. You simply apply the right product - one Step at a time.

**Guaranteed results**

Each Step is designed to the specific season to help give you a greener lawn.

<b>Step 1: Early Spring February-April</b>	<b>Step 2: Late Spring April-June</b>	<b>Step 3: Summer June-August</b>	<b>Step 4: Fall August-November</b>
Crabgrass Preventer plus Fertilizer - prevents crabgrass, foxtail, spurge, oxalis, chickweed and other annual weeds while providing deep, thick greening for up to 2 months. This is Scotts best fertilizer plus crabgrass preventer. In the Pacific Northwest, Step™ 1 is "Moss Control plus Fertilizer".	Weed Control Plus Fertilizer - controls dandelions, clover, chickweed and other broadleaf weeds while greening your lawn for up to 2 more months. This is Scotts best weed and feed.	Insect Control plus Fertilizer - controls white grubs, chinch bugs, sod webworms and other lawn insects plus keeps your lawn green through the Summer.	Lawn Fertilizer - specially formulated for the Fall - the best time to develop a stronger root system for a more vigorous, thicker lawn. Helps your lawn green up even quicker next Spring. This is Scotts best fall fertilizer.

**Bold, italicized text is information for the reader and is not part of the label.**  
[Bracketed information is optional.] Text separated by / denotes and/or options.

**Scotts tiny, lightweight granules provide two advantages:**

- 1) They stick to weed leaves
- 2) They spread evenly for better weed control and feeding. The better the product adheres to the weed leaves, the better the results!

**The Scotts Advantage®:**

Tiny, Lightweight Particles For Better Weed Control

Weed killers work by entering through the weeds' leaves. Therefore, its best to apply this product to a wet lawn, so the particles can stick better to the weeds. *Insert Product Name* has tiny, lightweight granules that stick to weed leaves for better control of broadleaf weeds.

-OR-

**The Scotts Advantage®:**

Each of Scotts exclusive All-in-One Particles®\* contains the guaranteed feeding nutrients and the weed control ingredients to provide consistent feeding and weed control to every treated square inch of your lawn. The result: A thick, green lawn without burning. GUARANTEED.

- All-in-One Particles® = nitrogen, phosphorus, potassium and the weed control ingredient contained in [on] every particle.

-OR-

- All-in-One Particles® = nitrogen, potassium and the weed control ingredient contained in [on] every particle.

**Advantages of *Insert Product Name*:**

**SMALL LIGHTWEIGHT GRANULES MEAN BETTER WEED CONTROL.** Most lawn weed controls must be absorbed through the weed's leaves to be effective. *Insert Product name* granules are small and lightweight so they will stay on even the smallest weed leaves. And each *insert product name* granule contains weed control and America's favorite lawn fertilizer.

**SCOTTS TRIONIZED® II FORMULA PROVIDES A MORE EFFICIENT NITROGEN THAN EVER BEFORE** to help promote quicker greening.

**THE NITROGEN IN *INSERT PRODUCT NAME* IS TIME-RELEASED** to provide a supply of this essential nutrient to help your lawn stay thick and green for up to 6 to 8 weeks.

**EACH *INSERT PRODUCT NAME* GRANULE CONTAINS NPK [NK] AND WEED CONTROL.** We bond Scotts® unique controlled-release nitrogen (N) [with phosphorous (P)] and potassium (K) and a weed control, so your lawn receives a uniform feeding, and effective weed control.

<b>[ILLUS.] Scotts <i>Insert Product Name</i></b>	
<b>EVERY GRANULE CONTAINS NPK [NK] AND WEED CONTROL</b>	
Provides uniform greening with effective weed control.	
<i>Insert Product name</i> particles deliver the same ratio of nitrogen, phosphorus, potassium and weed control to every square inch of turf for even, consistent feeding plus better weed control.	

21/21

*Note to PM:*

EPA Reg. No. 538-282

***Bold, italicized text is information for the reader and is not part of the label.***

[Bracketed information is optional.] Text separated by / denotes and/or options.

**How Weed Control Works**

Small, lightweight granules mean better weed control. Most lawn weed controls must be absorbed through the weed's leaves to be effective. The weed control in this product consists of granules that are small and lightweight, so they will stay on even the smallest weed leaves. The weed control in *Insert Product Name* is absorbed by weed leaves (the weed's leaves), killing the plant.

**Other Great Turf Builder® Products for Your Lawn:**

To prevent crabgrass, use **Turf Builder® Plus Halts®**. No one else has a tougher crabgrass preventer. This problem solver forms a protective barrier to stop ugly crabgrass before it starts.

These great **Turf Builder®** products are developed specially by Scotts for the unique needs of your lawn - your satisfaction is unconditionally guaranteed.

*Note to PM: End of Optional Back Panel Statements*

**NOTICE:** [To the extent consistent with applicable law,] buyer assumes all risks of use, storage, or handling of this product not in accordance with directions.

**Scotts No-Quibble Guarantee®**

If for any reason you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us evidence of purchase and we will mail you a refund check promptly.
