U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

538-310

Date of Issuance:

MAY 26 2009

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance: Unconditional

Name of Pesticide Product:

Bonus S Super

Name and Address of Registrant (include ZIP Code):

The Scotts Company
14111 Scottslawn Rd.
Marysville, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA provided that you:

1. Submit and/or cite all data required for registration review/reregistration of your product when the Agency requires all registrants of similar products to submit data.
2. Make the following label changes:
 - a. Change the EPA Reg. No. to "538-310".
 - b. Ensure that an application rate stating the amount of product (lb) per number of area treated (sq. ft.) is included on the label.
 - c. On page 15, remove the word "specially" from the claim "Specially Formulated with Scotts Poly-S timed released fertilizer.", as it implies the product possesses unique characteristics due to its composition, which are false and misleading.
 - d. Remove the following annual program texts, as they must clearly specify to the user that following such programs is advisory and not mandatory, and clearly indicate to the user that they may use the listed products only if specified pest(s) are a problem (ex. "If weeds are a problem, use "X", "To kill grubs, use "X"):

Signature of Approving Official:

Jim Tompkins
Product Manager 25
Herbicide Branch
Registration Division (7505P)

Date:

MAY 26 2009

- i. On page 19, the second option referencing the Scotts Annual Lawn Care Program with all associated texts and graphic.
 - ii. On page 21, the table for Optional Table of Expert Gardener Fertilizer Program and associated US Map illustration.
 - iii. On page 15, remove the related general claims "For best results, apply a Scotts annual program (see back for details)." and "For Best Results, Use the Expert Gardener Fertilizer Program".
- e. Remove or revise as follows the comparison claims to other products, as they are false and misleading:
- i. On page 18, illustration and text "Surge Growth typical fertilizer".
 - ii. On page 20, "~~Unlike ordinary weed and feeds~~, Every particle of Bonus S Super contains Scotts patented timed-release nitrogen plus phosphorus, potassium, and weed control."
 - iii. On page 20, "Scotts patented Perfect Particle Technology is available only in Scotts products, ~~so don't be fooled by weed and feeds claiming to be~~ "just like Scotts"."
 - iv. On page 20, "Remember, even weed-and-feeds claiming to contain slow- or controlled-release nitrogen typically are just simple mixes, so they can't deliver the consistent great results you'll get from Scotts patented Perfect Particle Technology."
 - v. On page 20, photos, heading "Ordinary Simple Mixes", and associated bulleted texts.
 - vi. On page 21, "~~Unlike most weed and feeds~~, Every Bonus S Super particle contains nitrogen, phosphorus, potassium, and weed killer, allowing Scotts to evenly disperse the appropriate ration of nutrients and weed control to your whole lawn."
 - vii. On page 21, illustration, heading "Ordinary Mixed Weed & Feeds", and associated bulleted texts.
- f. On page 22, revise the name from "Expert Gardener" to "Scotts" in both instances.
- g. The following alternate brand names are noted in our files:
- Super Bonus S₁
 - Super Bonus S₁ Southern Weed & Feed
 - Super Bonus S Weed & Feed
 - Super Bonus S Weed Control Plus Lawn Fertilizer

The basic and alternate Confidential Statements of Formula (CSF) dated April 22, 2009 are acceptable and will be placed in our records.

Submit one (1) copy of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

[FIRST AID AND ENVIRONMENTAL HAZARDS]

[Keep Out of Reach of Children]

[CAUTION]

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed: Call A poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment. Call: 1-XXX-XXX-XXXX (*number is available 24/7/365*)

Environmental Hazards

This product is toxic to aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treated area. Sweeping any product that lands on a driveway, sidewalk, or street, back into the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters. Do not clean equipment over hard surfaces or near storm drains.

Atrazine can travel (seep or leach) through soil and enter ground water which may be used as drinking water. Atrazine has been found in ground water. Users are advised not to apply Atrazine on sand and loamy soils where the water table (groundwater) is close to the surface and where these soils are very permeable; i.e., well drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of ground water.

Not for use under trees, shrubs, bedding plants, flower or garden plants (see Directions for Use for further explanation).

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store in a clean, dry place. Reseal opened bag [by folding top down and securing].

PESTICIDE CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

[KEY PRODUCT FACTS]

[APPLICATION]

[HOW AND WHEN TO APPLY]

[Apply in late winter, spring or fall]

OPTION 1 – DIRECTIONS FOR USE

DIRECTIONS FOR USE

It is violation of federal law to use this product in a manner inconsistent with its labeling.

[Control]

- Apply when weeds are actively growing. If complete control is not obtained a second treatment may be required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]

[Reentry]

- Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry.

Restrictions

- [Don't apply to centipede or carpetgrass lawns during the period of winter dormancy—approximately October 15 to March 15 (okay to apply in Florida, however).]
- [Don't apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur.]
- Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application.
- Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator.
- This product must be WATERED IN IMMEDIATELY after application. This product applies 2 lbs active ingredient per acre. Maximum of two applications per year.

[Extreme Temperatures. Thoroughly rinse particles off the grass blades when temperatures are 80° F or above.]

[Seeding/Sprigging]

[Apply Bonus® S Super after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application of Bonus® S Super.]

- [Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice.]
- [Don't plant sprigs for one month, or sow new grass seed for six months following application of Bonus® S Super.]

Not for use on or under trees, shrubs, bedding plants, flowers or garden plants.

Note to PM:

Bold, italicized text is information for the reader and is not part of the label.

[Bracketed information is optional.] Text separated by / denotes and/or options.

Underlined text is new. ~~Strike-through text is being deleted.~~

OPTION 2 – DIRECTIONS FOR USE

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconstant with its labeling.

[USE] RESTRICTIONS

- Do not apply this product in a way that will contact any person either directly or through drift. Keep people and pets out of area during application. Do not apply by hand or hand-held rotary devices such as hand-held rotary applicator.
- [Don't apply to lawns or mixed lawns of bahiagrass, bermudagrass, bluegrass, fine fescue, bentgrass, ryegrass, tall fescue or dichondra because injury may occur.]
- [Desirable plants: Don't apply on or under the branch spread (rootzone) of trees, shrubs, beddings plants, flower or garden plants, particularly in compact, slowly draining soils in the Dallas/Ft. Worth areas.]
- [Don't apply to newly seeded centipede and carpetgrass lawns until after the new grass has been mowed at least twice.]
- [Don't plant sprigs for one month, or sow new grass seed for six months following application.]

[INSTRUCTIONS]

[Bonus® S Super; plus lawn fertilizer controls a wide range of lawn weeds, including broadleaf weeds and annual weeds commonly found in home lawns. In addition, a XX-X-X fertilizer provides a supply of plant food needed for growth.]

- [Apply only when grass is dry]
- This product must be WATERED IN IMMEDIATELY after application. This product applies 2 lbs active ingredient per acre. Maximum of two applications per year.

[CONTROL]

- Apply when weeds are actively growing. If complete control is not obtained, a second treatment maybe required 2 months after the first.
- [Apply in the Fall to control winter weeds such as henbit, chickweed, rabbit-tobacco, eveningprimrose.]

[PREVENTION]

- [Don't apply to centipede or carpetgrass lawns during the period of winter dormancy – approximately October 15 to March 15 (okay to apply in Florida, however).]

[REENTRY]

- Do not allow people or pets to enter treatment areas until watering-in is complete and the surface is dry.

[SPRIGGING]

- [Apply after sprigging a new St. Augustine or zoysia lawn to prevent competition from germinating weeds. Water the new sprigs, allow the grass blades to dry, then make the application.]

Not for use on or under trees, shrubs, bedding plants, or garden plants.

OPTIONAL SPREADER SETTING INFORMATION

[This package applies 3.85 lbs of product per 1,000 sq ft.]

[OPTION 1]

Spreading Tips

[DESIRABLE PLANTS: DON'T APPLY ON OR UNDER THE BRANCH SPREAD (ROOTZONE) OF TREES, SHRUBS, BEDDING PLANTS, FLOWERS OR GARDEN PLANTS, PARTICULARLY IN COMPACT SLOWLY DRAINING SOILS IN THE DALLAS-FT. WORTH AREA.]

[Scotts recommends the PF Spreader to receive the maximum value from Bonus® S Super.]
[For best results, use a Scotts spreader:]

Scotts Drop:

[Mow lawn first if grass is tall enough to touch the bottom of the spreader. First apply two header strips. Then operate spreader the longest way of the lawn. Overlap wheel marks to insure uniform feeding. Shut off spreader when you have reached the header strips or stopped.]
(ILLUS.)

Scotts EasyGreen™ Rotary:

[Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]
(ILLUS.)

Scotts SpeedyGreen™ Rotary:

[Shut off spreader anytime you stop. For complete coverage make each pass about five feet from the previous one so some overlapping occurs. Avoid applying this product on flower, vegetable and shrub plantings.]
(ILLUS.)

GENERAL CLAIMS

- Apply in late winter, spring, or fall
- Contact us – Consumer Helpline 1-866-369-2533
- Enjoy a beautiful/thick/green lawn
- For best results, apply a Scotts annual program (see back for details)
- For Best Results Use the Expert Gardener® Fertilizer Program

PESTICIDAL CLAIMS

- Kills/controls dollarweed/pennywort and [25] other [common] [lawn] weeds**
- Kills/controls weeds and fertilizes your lawn
- Kills/controls dollarweed/pennywort, chickweed and [over] [25] [common lawn] weeds [while greening your lawn without rapid, extreme growth]**
- Weed-and-Feed
- Weed control plus lawn fertilizer

**As listed – OR– including (*insert any weeds listed in Optional Product Efficacy Claims section*)

FERTILIZER CLAIMS

- Builds strong, deep roots
- Builds thick/strong/green turf [[from the roots up] [without burning your lawn*]]
- Dual Action fertilizer – Protect[s] [lawn] for Winter and Build[s] for Spring
- Each lawn fertilizer particle provides gradual release that won't burn or cause surge growth when applied as directed
- Enhanced/Improved Formula – X% More Greening Power* (**vs [insert Scotts product name]*)
- Enhanced 3-in-1/three-in-one Formula – [Helps lawn] recover from Summer, Replenish for Winter and Rebuild for Spring
- Feeding with Scotts Water Smart™ Formula helps grow a thick lawn with more roots to better absorb water and nutrients. This helps protect your lawn against heat, drought and other stresses.
- Feeds [and greens] up to X months/weeks longer * **vs/than regular insert Scotts product name*
- Feeds and strengthens [the] [lawn] [against heat/drought]
- Feeds for a thick, green lawn
- Feed[s] [the] lawn
- Formulated with Scotts technology [for long lasting greening and feeding]
- Greens longer* **vs/than regular insert Scotts product name*
- Grows Strong Roots
- Helps strengthen your lawn against heat/drought/wear/tear
- Scotts® Best Fertilizer(s)
- Scotts Longest-Lasting Green up/Green/Greening Power/Deep Green Color/Deep Greening/Added Greening/Power/Feeding/ Nutrients/Food/even greening/consistent green
- Specially formulated with Scotts Poly-S® timed released fertilizer
- The Bonus® S Super Advantage Contains more essential nutrients than regular Bonus® S
- Water Smart™ Formula
- Water Smart Formula [Makes the most of every drop. [Improves lawn's ability to absorb water & nutrients]
- We guarantee thick, green turf without risk of burning or surge growth
- Won't Burn Lawn(s) Guaranteed
- Well-fed lawns are more efficient at using available water
- Your lawn makes a good environment...and Scotts products help you get the best lawn

*When used according to manufacturer's directions.

PHOSPHORUS CLAIMS

- Contains no phosphorous/phosphate
- Phosphorous/phosphate free [formula]
- PHOSPHORUS – Stimulates root growth;[helps grass multiply]

NITROGEN CLAIMS

- Contains both readily available nitrogen for quick green up and controlled release nitrogen for uniform growth and extended feeding.
- [Contains] timed/slow/controlled-release nitrogen for extended, even feeding
- Contains timed/slow-release/controlled/extended release nitrogen [for extended feeding and greening]
- More slow/extended/time[d] /even release Nitrogen for longer lasting even greening/consistent green* *vs/than regular ***insert Scotts product name***
- More slow/extended/time[d] /even release Nitrogen for longer lasting Green up/Green/Greening Power/Deep Green Color/Deep Greening/Added Greening Power/Feeding* *vs/than regular ***insert Scotts product name***
- NITROGEN – Essential for plant [and/& root] growth; [makes grass green] [and/& strengthens roots]
- X% MORE Slow-Release Nitrogen than/vs. regular ***insert Scotts product name.***
- X% added slow/extended/time[d]/even release Nitrogen* *vs/than regular ***insert Scotts product name***

POTASSIUM CLAIMS

- [Delivers] more Potassium than/vs. regular ***insert Scotts product name*** to help protect against drought stress
- POTASSIUM – Makes plant strong; [better able to resist drought and extreme heat]/[improves heat &/and drought tolerance]/[protects against winter]
- X% added Potassium [for improved overall lawn strength/vitality/durability/toughness] than/vs. regular ***insert Scotts product name***
- X% More potassium than/vs. regular ***insert Scotts product name***

MICRO-NUTRIENT CLAIMS(X will be provided on Final Printed Label)

- Added essential nutrients for a[n] better/stronger/more durable/resilient/more balanced/improved lawn
- Added essential nutrients for a[n] strong/durable/resilient lawn
- Added Iron for Summer Green Extender
- Contains X% Iron [for added greening]
- Contains Xlbs, Xoz Iron [per bag]
- Contains X% iron/[micro nutrients] for the deep/dark green[ing] [turf]
- Contains micronutrients to help improve [your] soil [conditions]
- More complete micronutrients for all your turf essentials.
- More micronutrients/iron/essential nutrients/nutrients for a[n] better/stronger/more durable/resilient/more balanced/improved lawn
- Provides/Delivers key/essential nutrients for a lush/thick/beautiful/green/strong lawn
- With added [MicroMax] [Micronutrients] to/for/help[s] strengthen/the strongest lawn defense against heat, drought, and wear & tear

PACKAGING CLAIMS

- Bonus size
- Convenient [new] size
- Easy [to] pour [spout]
- Easy-tear, recloseable pour spout
- Easy to Carry Package
- Easy open, easy close
- Easy open, resealable bag
- Easy/EZ Seal [zipper/closure]
- Easy-to-Carry size/handle
- [Just] flip, tilt, feed
- [Just] shake and/n feed
- [Now with] X% more
- [Perfect] [size] for small lawns
- Reclosable bag
- Secure seal [zipper/closure]
- Sure seal [zipper/closure]
- Zip close

resist drought and extreme heat

Scotts & Your Environment >> [art-Scotts]

- **We care** - Scotts products are designed with care to grow thicker, greener lawns.
- **[Because] Green is good[®]** - A healthy lawn cleans the air, produces oxygen and prevents runoff and soil erosion.
- **[You can] make a difference** - Help keep our water resources clean. Apply this product only to your lawn, and sweep any product that lands in the driveway, sidewalk or street back onto your lawn.

[Water Smart®] Tips for Lawncare Success:

- **Feed regularly for your best lawn.** [Regular feedings of Scotts Turf Builder will help grow/build a lawn you and your family can enjoy. Scotts Turf Builder provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.]
- **Mow your lawn high.** [Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.]
- **Leave the grass clippings on your lawn.** [This recycles the plant nutrients back into the soil.]
- **Conserve water.** [Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.]

[art] one annual feeding

[art] 2-3 annual feedings

[art] 4 annual feedings

[Art] [Water Smart Formula] Water Smart Formula [Makes the most of every drop.] [Well-fed lawns are more efficient at using available water.]

Feeding with Scotts Water Smart Formula helps build a thick lawn with more roots to better absorb water and nutrients. This helps protect your lawn against heat, drought and other stresses.

What to expect

Weeds will be dead/killed within 6 weeks and your lawn will be greener in 7 days

Controls and prevents weeds while feeding your lawn. Bonus® S Super gives you a better lawn. That's because each small particle delivers weed control for complete coverage. And Bonus® S Super feeds your lawn with Scotts Trionized® formula to help fill-in and crowd out new weeds.

Bonus® S Super provides even greening. Each particle of Bonus® S Super contains nitrogen, phosphorus and potassium. This means that each grass plant receives the feeding it needs so your lawn will grow uniformly thick and green.

Bonus® S Super stimulates steady grass growth. Typical all-soluble fertilizers can cause surge growth. When you mow grass that has grown too fast and too tall, you weaken the grass plant by "scalping." With Bonus® S Super you have less mowing and less chance of scalping when you mow.

Bonus® S Super provides up to 2 months of greening. The nitrogen in Bonus® S Super is time-released to help your lawn grow thick and green for up to 2 months.

How much is enough?

To determine the square footage of your lawn, walk the length and width of your lawn; one average pace equals about 3 feet. Multiply the length of the lawn by the width of the lawn. This equals the area of your lawn in measure square areas, then add the figures together to reach your total lawn size.

2-MONTH PERIOD

(ILLUS.)

STEADY GROWTH

Bonus® S Super

(ILLUS.)

SURGE GROWTH

typical fertilizer

A well-maintained lawn provides environmental benefits as well as an attractive and pleasant setting for your home. Healthy grass takes carbon dioxide and pollutants from the air while creating oxygen; it traps dust and prevents erosion; and it reduces the heat, noise, and glare of modern urban areas while providing a safer recreation area.

The timed-release nitrogen in Bonus® S Super is designed to be absorbed by the grass plants slowly and steadily, to build thick turf that helps prevent runoff and leaching into groundwater.

SEASONAL PRODUCT APPLICATION OPTIONS

Optional Product Program Information

[Plan your feeding schedule. Chose the right product for your lawn.]

[Any Season - Apply any season if weeds or bugs are not a problem: Scotts® [Southern] [Super]Turf Builder® Lawn Fertilizer]

[Early Spring February-April – If you have weeds/To kill weeds: Scotts® Super Bonus® S

[Late Spring April-June - If weed or bugs are not a problem: Scotts® [Southern] [Super] Turf Builder® Lawn Fertilizer]

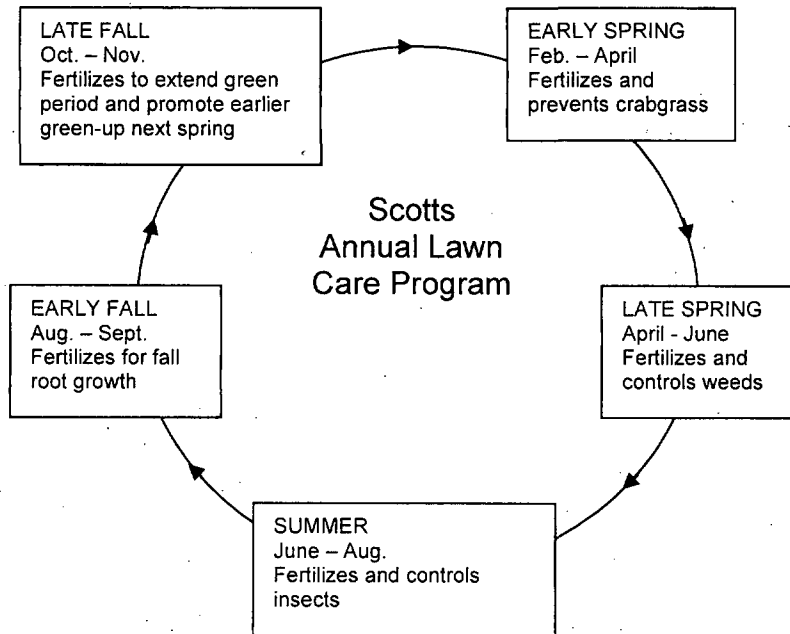

[Summer June/July-August - Scotts® [Southern] [Super] Turf Builder® Lawn Fertilizer. If you have bugs/To kill bugs: Scotts® [Super] Turf Builder® with SummerGuard®]

[Fall September – November - Scotts® [Super] Turf Builder® WinterGuard®]

-or-

For best results, apply [the] Scotts Annual [Lawn Care] Program.

- Start the program at any time
- Start anytime . . . just check the month and apply products at 2 month intervals
- If bugs/weeds are not a problem, apply ***insert name of straight fertilizer product only***
- [Allow two months between applications]
- No more guesswork . . . apply the right product at the right time for a thick, green lawn

SCOTTS ADVANTAGE® PARTICLE TECHNOLOGY

The Scotts Difference®

Perfect Particle™ Technology

(art: particle with NPK)

Unlike ordinary weed-and-feeds, every particle of Bonus® S Super contains Scotts patented timed-release nitrogen plus phosphorus, potassium, and weed control. (See back for details).

The Scotts Difference ®

Scotts patented Perfect Particle™ Technology is available only in Scotts® products, so don't be fooled by weed-and-feeds claiming to be "just like Scotts."

Uniform proportions of the major nutrients – timed-release nitrogen plus phosphorus and potassium – and weed control are bonded together in every Bonus® S Super particle, so that they are distributed evenly across the entire lawn, eliminating hit-or-miss feeding and weeding. And the time-released nitrogen feeds your lawn without burning, and steadily for up to 2 months. Because of Scotts time-released nitrogen, you won't get the rapid surge growth. With regular mowing, you will have fewer clippings and may not even have to bag your clippings.

Remember, even weed-and-feeds claiming to contain slow- or controlled-release nitrogen typically are just simple mixes, so they can't deliver the consistent great results you'll get from Scotts patented Perfect Particle Technology. With Scotts Bonus® S Super you can be assured that every particle contains time-released nitrogen, plus the other primary nutrients and weed control.

(photo: simple mix particles)

ORDINARY SIMPLE MIXES

- Composed of nutrient and weed control granules of many different sizes and shapes
- Each nutrient may separate from the others in the bag and during application

(photo: simple mix pattern)

ORDINARY SIMPLE MIXES

- Because of the difference in size, shape, and weight of these granules, the amount of individual nutrients and weed control delivered in each square inch of lawn can vary greatly
- Result: uneven, inconsistent weeding and feeding of your lawn

(photo: BSS particles)

SCOTTS TECHNOLOGY

- Bonus® S Super granules are consistent in size and shape
- This gives consistent distribution of particles – and nutrients and weed control – throughout the lawn

(photo: BSS pattern)

SCOTTS TECHNOLOGY

- Bonus® S Super particles deliver the same ratio of nitrogen, phosphorus, and potassium (plus weed control) to every square inch of turf
- Result: even, consistent greening and thickening of your lawn, plus better weed control

-OR-

The Scotts Advantage®: All-in-One Particles®*

Your lawn requires essential nutrients to thrive. Unlike most weed and feeds, every Bonus® S Super particle contains nitrogen, phosphorus, potassium, and weed killer, allowing Scotts to evenly disperse the appropriate ration of nutrients and weed control to your whole lawn. Only Scotts All-in-One® particles provide consistent feeding to every square inch of turf for a green, thick, strong lawn.

*All-in-One = nitrogen, phosphorus, potassium and the weed killer ingredient contained in every particle

(ILLUS.)

Bonus® S Super

- Each All-in-One® particle contains essential nutrients and weed control ingredient
- Evenly dispersed particles provide more consistent feeding and weed control for a green, thick, strong lawn.

(ILLUS.)

Ordinary Mixed Weed & Feeds

- Each particle contains fertilizer nutrient with separate particles for weed control
- Particles can separate during application, resulting in inconsistent feeding and weed control.

-OR-

The Scotts Advantage®

Each of Scotts All-in-One Particles®* contains the guaranteed feeding nutrients and the weed control ingredients to provide consistent feeding and weed control to every treated square inch of your lawn. The result: A thick, green lawn without burning. Guaranteed.

- *All-in-One Particles = nitrogen, phosphorous, potassium and weed control contained in every particle.
