U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7504P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Registration
 Number:
 538-320

Date of Issuance:
 APR - 5 2011

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Term of Issuance: **Unconditional**

Name of Pesticide Product:
Scotts 65 MAT Weed & Feed

Name and Address of Registrant (include ZIP Code):

The Scotts Company
14111 Scottslawn Road
Marysville, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered in accordance with FIFRA provided that you:

1. Submit and/or cite all data required for registration review/reregistration of your product when the Agency requires all registrants of similar products to submit data.
2. Submit one-year Storage Stability (Guideline 830.6317) and Corrosion Characteristics (Guideline 830.6320) studies within eighteen (18) months from the date of this notice.
3. Submit the MSDS for one of the inert ingredients as stated in the product chemistry review within ninety (90) days from the date of this notice.
4. In reference to the product labeling, make note that the marketing claims "new" and "now" can only be used for a period of six months from the first date of shipment to a customer of this product.

The Basic and Alternates #A-G Confidential Statements of Formula (CSFs) dated July 16, 2010 and December 17, 2010 are acceptable.

A stamped copy of the label is enclosed for your records. Submit one (1) copy of the revised final printed label before you release the product for shipment. Products shipped after eighteen (18) months from the date of this Notice or the next printing of the label, whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA §6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have any questions regarding this Notice, please contact Mindy Ondish at (703)605-0723 or at ondish.mindy@epa.gov.

[FIRST AID AND ENVIRONMENTAL HAZARDS/ INFORMATION]

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

[Medical Information Call 1-800- 543-TURF (8873)]

Environmental Hazards: To protect the environment, do not allow pesticide to enter or run-off into storm drains, drainage ditches gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

[Application]

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

This product applies 0.075 lbs of aminocyclopyrachlor per acre.

OPTION 1 – QUICK START GUIDE

Insert company name Quick Start Guide

[You're just three/a few [simple/easy] steps away from a beautiful *insert company name* lawn]

[ICON – Spreader/Dial]

[1.] Fill & Set Spreader

[*Insert company name* Broadcast/Rotary Spreaders]

[X]

[*Insert company name* Drop Spreaders]

[X]

[Use only with *insert company name* spreaders/applicators.]

[*Insert company name* products are designed to work with *insert company name* spreaders/applicators.]

[For additional spreader settings, [please] call *insert company phone number*.]

[ICON – Lawn]

[2.] Apply

May be applied to a wet or dry lawn.

Apply on a calm day.

[ICON – Broom]

[3.] Clean-Up

Sweep product from hard surfaces onto the lawn [to keep valuable feeding nutrients on the grass.]

You're Done! What's Next?

Do not allow people or pets to enter treated area until dusts have settled. If applying to wet lawn or watering-in, do not allow people or pets to enter treated area until lawn has dried.

Questions? [Call] [now] *insert company phone number*

Restrictions

- Do not apply more than two times per year.
- Do not use grass clippings from treated areas for mulch or compost. Grass clippings must either be left on the treated lawn or if allowed by local yard waste regulations, disposed of in the trash.
- Apply only to grass. Do not apply to flowers, shrubs, trees, fruit or vegetable gardens or beds.
- Do not use grass clippings for mulch around vegetable or flower gardens or around ornamental trees and shrubs.

Other Things You Need To Know

- If rain does not occur within a week after application [of Scotts 65 MAT Weed & Feed], water in lightly for activation.
- [For] use on all lawn grasses except St. Augustinegrass and bentgrass.
- On centipedegrass or bahiagrass apply after mid-March and before October 1.
- May be applied anytime/when [in Spring or Fall] weeds are actively growing.
- [Weeds stems and leaves will begin to twist and curl in a few days and will disappear in a few weeks.]
- [This product will not prevent weed seeds from producing new plants.]
- [For best results, grass taller than 3 inches should be mowed a day or two before application.]

- Kills Weeds Including ***insert weeds from weed list here*** or Weeds Controlled ***insert weeds from weed list here*** or Kills [major/broadleaf] weeds that occur in your lawn including: ***insert weeds from weed list here*** or [Kills/Controls listed weeds [that occur in your lawn] ***insert weeds from weed list here***

OPTION 2 – HANDHELD APPLICATOR/SHAKER JUG/SHAKER BOTTLE

Easy to Follow Instructions

Step 1 - Flip [icon]: Remove seal under cap. Flip spout from cap.

Step 2 - Tilt [icon]: Tilt bottle to a 90° angle.

Step 3 – Apply [icon]: May be applied to a wet or dry lawn. Apply on a calm day. Walk at a steady pace and shake bottle side-to-side using your wrist. For uniform coverage apply product in rows as you move across the lawn overlapping the rows a few inches. For best results maintain a 90° angle during application at all times.

Step 4 – Clean- up [icon]: Sweep product from hard surfaces onto the lawn [to keep valuable feeding nutrients on the grass.]

Step 5 – Do not allow people or pets to enter treated area until dusts have settled. If applying to wet lawn or watering-in, do not allow people or pets to enter treated area until lawn has dried.

Restrictions

- Do not apply more than two times per year.
- Do not use grass clippings from treated areas for mulch or compost. Grass clippings must either be left on the treated lawn or if allowed by local yard waste regulations, disposed of in the trash.
- Apply only to grass. Do not apply to flowers, shrubs, trees, fruit or vegetable gardens or beds.
- Do not use grass clippings for mulch around vegetable or flower gardens or around ornamental trees and shrubs.

Other Things You Need to Know

- If rain does not occur within a week after application [of Scotts 65 MAT Weed & Feed], water in lightly for activation.
- [For] use on all lawn grasses except St. Augustinegrass and bentgrass.
- On centipedegrass or bahiagrass apply after mid-March and before October 1.
- May be applied anytime/when [in Spring or Fall] weeds are actively growing.
- [For best results, grass taller than 3 inches should be mowed a day or two before application.]
- [Weeds stems and leaves will begin to twist and curl in a few days and will disappear in a few weeks.]
- [This product will not prevent weed seeds from producing new plants.]
- Kills Weeds Including ***insert weeds from weed list here*** or Weeds Controlled ***insert weeds from weed list here*** or Kills [major/broadleaf] weeds that occur in your lawn including: ***insert weeds from weed list here*** or [Kills/Controls listed weeds [that occur in your lawn] ***insert weeds from weed list here***

[TIP: 1,000 sq ft (20x50 ft) is approximately half the size of a tennis court [image]]

OPTION 3 – ROTARY OR BROADCAST APPLICATION

[How and When to Apply]

- May be applied to a wet or dry lawn.
- Apply on a calm day.
- Apply anytime/when [in Spring or Fall] weeds are actively growing.
- Apply only to grass. Do not apply to flowers, shrubs, trees, fruit or vegetable gardens or beds.

60918

NOTE to PM:

EPA Reg. No. 538-320

Bold, italicized text is information for the reader and is not part of the label.

[Watering/Rain]

- If rain does not occur within a week after application [of ***insert product name***], water in lightly for activation.

Restrictions

- Do not apply more than two times per year.
- Do not use grass clippings from treated areas for mulch or compost. Grass clippings must either be left on the treated lawn or if allowed by local yard waste regulations, disposed of in the trash.
- Apply only to grass. Do not apply to flowers, shrubs, trees, fruit or vegetable gardens or beds.
- Do not use grass clippings for mulch around vegetable or flower gardens or around ornamental trees and shrubs.
- Do not allow people or pets to enter treated area until dusts have settled. If applying to wet lawn or watering-in, do not allow people or pets to enter treated area until lawn has dried.

[Precautions/Other Things You Need to Know]

- [For] use on all lawn grasses except St. Augustinegrass and bentgrass.
- On centipedegrass or bahiagrass apply after mid-March and before October 1.
- [For best results, grass taller than 3 inches should be mowed a day or two before application.]

[Weeds Controlled]

- Kills Weeds Including ***insert weeds from weed list here or Weeds Controlled insert weeds from weed list here or*** Kills [major/broadleaf] weeds that occur in your lawn including: ***insert weeds from weed list here or*** [Kills/Controls listed weeds [that occur in your lawn] ***insert weeds from weed list here***

[Product Information/Facts/Tips]

[What to Expect]

- [Weed stems and leaves will begin to twist and curl in a few days and will disappear in a few weeks]
- [This product will not prevent weed seeds from producing new plants]

OPTION 4 – CARTRIDGE SPREADER

[When to Apply]

- May be applied to a wet or dry lawn.
- Apply on a calm day
- Apply anytime/when [in Spring or Fall] weeds are actively growing
- On centipedegrass or bahiagrass apply after mid-March and before October 1.

[Where to Apply]

- Apply only to grass.
- Do not apply to flowers, shrubs, trees, fruit or vegetable garden or beds.
- [For] use on all lawn grasses except St. Augustinegrass and bentgrass.

[How to Apply]

- Each spreader pass should be within 5 ft of another pass to ensure overlap.
- If rain does not occur within a week after application [of Scotts 65 MAT Weed & Feed], water in lightly for activation.

Restrictions

- Do not apply more than two times per year.
- Do not use grass clippings from treated areas for mulch or compost. Grass clippings must either be left on the treated lawn or if allowed by local yard waste regulations, disposed of in the trash.
- Apply only to grass. Do not apply to flowers, shrubs, trees, fruit or vegetable garden or beds.
- Do not use grass clippings for mulch around vegetable or flower gardens or around ornamental trees and shrubs.

FERTILIZER

- Builds/Grows/Promotes [a] thick, green lawn/grass from the roots up [without burning your lawn]
- Feeds and Greens
- Build/Grow a better lawn with/using less water* [*vs. unfed]
- [A] [strong/thick/beautiful/lush/green] lawn/grass/turf [without weeds]
- [Builds/Grows] A thicker, greener [Southern/Texas/Florida] lawn/grass* [--guaranteed] [*vs. unfed]
- Builds/Grows a strong/thick/beautiful/lush/green lawn [Southern/Texas/Florida] lawns/grass [--guaranteed]
- Feeds and strengthens [against heat, drought and other stresses]
- Well-fed lawns are more efficient at using available water. Feeding with **insert Scotts company name** fertilizer/lawn food [Water Smart] helps grow a thick lawn/grass with more roots/stronger root system to better absorb water and nutrients than an unfed lawn. This helps protect [your lawn] against heat, drought and other stresses.
- Make[s] the Most of Every Drop®
- [**insert Scotts company name**/ lawn fertilizer/food/Water Smart] improves lawn's ability to absorb water and nutrients.
- Feed the lawn/grass. Water Smart.
- Grows/Builds strong, deep roots/root systems [that use water better/more efficiently] [and can reach down to stores of water in the soil]
- Helps grass [plants] store needed carbohydrates/nutrients to strengthen/prepare for winter/drought conditions
- A lawn fed with Scotts fertilizer/lawn food [has a healthy root system that] protects against [heat & drought] [summer stresses]
- Gives/Provides/Replenishes [your/the] [grass/lawn] nutrients it needs to recover faster [after/from winter/summer/dormancy/drought]
- Fall is the #1 [recommended] season to feed your lawn/grass
- [Experts agree that] Fall is the best time of the year to fertilize/feed your grass/lawn [because conditions are ideal for root development]
- Builds strong, deep grass roots/grass roots systems [for winter]
- Feed now [in fall] for a more vibrant lawn next spring [and all year long]
- Fertilize/Feed 4 times a year for best results – no more than two applications per year with [**insert Scotts product name**]
- Won't burn/Guaranteed not to burn your lawn/grass when used as directed
- Won't burn lawn when used as directed, guaranteed.
- [Warm soil] [Cooler air] [More precipitation] [**insert Scotts product name**] works with [these] fall conditions to strengthen roots for Winter and build/create a stronger foundation [for next year]
- [Warm soil] [Cooler air] [More precipitation]. The ideal environment/conditions [for root development] [for grass/lawns to grow]

FORMULA

- [Contains] No phosphorous/phosphate (**Note to PM: for Phosphorous free formula(s) only**)
- Phosphorous-free/Zero-Phosphorous/Phosphate-free/Zero-phosphate/No-Phosphorous/No-Phosphate [formula] (**Note to PM: for Phosphorous free formula(s) only**)
- Contains X% Iron [for added greening]/[for a deep, dark green turf]/ [for deep greening]/ [for deeper greening].
- [Contains] timed/slow-release/controlled/extended release feeding/ nitrogen [for extended/even feeding and greening] [without surge growth]
- Protect[s] [lawn] for Winter and Build[s] for Spring.
- X% More Greening Power versus **insert Scotts product name**
- [Helps lawn] recover from Summer, Replenish for Winter and Rebuild for Spring
- Mixed grass/lawn [type] formula
- New [Formula]
- Works on mixed lawns
- NITROGEN – Essential for plant [and/& root] growth; [makes grass green] [and/& strengthens roots]
- PHOSPHORUS – Stimulates root growth;[helps grass multiply]
- POTASSIUM – Makes plant strong; [better able to resist drought and extreme heat]/[improves heat &/and drought tolerance]/[protects against winter]

Your lawn needs a regular supply of the highest-quality nutrients to stay thick and strong. So, for a thick, beautiful **insert Scotts company name** lawn that can stand up to heat, drought, wear and tear, we recommend feeding every 6-8 weeks/2 months.

Dedicated To A Beautiful World™

Trusted by generations of homeowners, **insert Scotts company name** is dedicated to helping enhance and protect the beauty of your home environment. – **insert Scotts company name**

Insert company name & Your Environment

We Care – **insert Scotts company name** products are designed with care to grow thicker, greener lawns/grass [Because] A Green Lawn Is A Good Lawn – [A] healthy lawn/grass can clean the air, produce oxygen and prevent runoff and soil erosion.

[You Can] Make a Difference - Help keep our water resources clean. Apply this product only to your lawn. And sweep any product that lands in the driveway, sidewalk or street back on to your lawn.

[Water Smart®] Tips for Lawncare Success

- Feed Regularly For Your Best Lawn. [Regular feedings of **insert Scotts product name** will help grow a lawn you and your family can enjoy. **insert Scotts product name** provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.]
- Mow Your Lawn. [Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.]
- Leave The Grass Clippings On Your Lawn. [This recycles the plant nutrients back into the soil.]
- Conserve Water. [Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature's sprinkler and rely on the rain to water your lawn.]
