August 6, 2019

Ms. Katelynn E. King Analyst, Regulatory Affairs The Scotts Company 14111 Scottslawn Road Marysville, OH 43041

Subject: Label Amendment – Add irrigation instructions to the directions for use

Product Name: **Lawn Fungus Granular** EPA Registration Number: 538-330 Application Date: November 15, 2018

Decision Number: 546849

Dear Ms. King:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Fast Track Label Acceptable v.20150320

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

FIRST AID:

Have the product container or label with you when calling poison control center or doctor, or going for treatment.

For emergency information call 1-800-543-8873.

PHYSICAL AND CHEMICAL HAZARDS: Do not mix or allow coming in contact with oxidizing agent. Hazardous chemical reaction may occur.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to freshwater and estuarine/marine fish and aquatic invertebrates. Do not apply directly to water. Runoff may harm aquatic organisms. Do not contaminate water when disposing of equipment wash water or rinsate.

OPTION 1 - DIRECTIONS FOR USE

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Read entire label before using this product.
- People and pets may re-enter the treated area after application.

USE RESTRICITONS:

Do not apply more than 37 lbs. of Lawn Fungus Granular/this product per 1,000 sq. ft. in a single year.

WHEN TO APPLY/USE:

- Use [Lawn Fungus Granular/this product] on home lawns to prevent disease before it appears or to control disease at the first sign of disease.
- For best results, begin applications prior to disease symptoms, when conditions are favorable for disease.
- When used as directed, this product is safe to the lawn and controls the diseases listed.
- Consult your local Cooperative Extension Service office or your state's land grant university for assistance with lawn disease identification and specific fungicide timing in your area to control lawn diseases.

HOW TO APPLY/USE:

- Measure the length and width of area to be treated before application. Length X width = square feet. For example, an area 20 ft. wide and 25 ft. long is 500 sq. ft. [Insert optional graphic]
- Refer to the Directions for Applications for Lawn Diseases table for the rate to apply to control your lawn disease problem. Add the appropriate amount of Lawn Fungus Granular/this product to your granular spreader to cover your square footage of lawn. Refer to Granular Spreader Settings table for spreader settings to deliver the rate required.
- Uniform coverage is necessary to provide the most effective level of control.
- Lawn Fungus Granular/this product can be applied after seeding or at seed germination.
- Product may be reapplied at 14-28 day intervals.
- Use the shorter re-treatment intervals and higher application rates when prolonged favorable disease conditions exist.
- Water the treated area for 15-20 minutes after application if rainfall is not expected within 24 hours.

DIRECTIONS FOR APPLICATIONS FOR LAWN DISEASES

Disease	How Much to Apply (lb. per 1,000 sq. ft.)	Application Interval (days)	Application Instructions	
Brown Patch	2 - 4	14 - 28	Apply when conditions are favorable for disease.	
Anthracnose Fusarium Patch Gray Leafspot Leaf Rust Powdery Mildew Stem Rust Stripe Rust	2 - 4	14 - 28	Begin applications when conditions are favorable for disease infection, prior to disease symptoms.	
Necrotic Ring Spot Pink Patch Red Thread Southern Blight Summer Patch	2 - 4	14 - 28	Apply when conditions are favorable for disease.	
Leafspot Melting Out	2 - 4	14 - 21	Apply when conditions are favorable for disease.	
Cool Weather Brown Patch Yellow Patch Rhizoctonia Large Patch	2-4	14 - 28	Make one or two applications in fall or when condition are favorable for disease.	
Fairy Ring	4	28	Apply as soon as possible after fairy ring symptoms develop. Severely damaged or thin turf may require reseeding. Fairy ring symptoms may take 2 to 3 week to disappear following application. Re-application after 28 days may be required in some cases.	
Gray Snow Mold	7	_	Make a single application in late fall.	
PINK Snow Mola Typhula Blight	4	10 - 28	Apply twice in the fall prior to snow cover.	
Pythium Blight Pythium Root Rot	2 - 4	10 -14	Begin applications when conditions are favorable for disease infection, prior to disease symptoms.	
Spring Dead Spot	2 - 4	14 - 28	Make 1 or 2 applications, with the last application falling approximately one month prior to bermudagras dormancy. Irrigate with 1/4" to 1/2" of water after application.	
Take-All Patch	2 - 4	28	Apply twice in the fall (typically September and October) and twice in the spring (typically April and May). Treat southern lawns (warm season grasses such as bermudagrass and St. Augustinegrass) twice in the	
Zoysia Patch	2 - 4	14 - 28	summer (June - August) as well. Make 1 to 2 applications, with the last application falling approximately one month prior to zoysiagrass dormancy.	

OPTION 2 - DIRECTIONS FOR USE (CONSUMER-FRIENDLY)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label before using this product.
