

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

538-333

Date of Issuance:

4/24/18

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Turf Builder Weed & Feed - Dicamba

Name and Address of Registrant (include ZIP Code):

Cheryl Prinster
 Manager – Regulatory Affairs
 The Scotts Company
 14111 Scottslawn Road
 Marysville, OH 43041

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA).

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A).

You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Continued on page 2

Signature of Approving Official:

Grant Rowland, Product Manager 23
 Herbicide Branch, Registration Division (7505P)

Date:

4/24/18

2. You are required to comply with the data requirements described in the Generic Data Call-Ins (GDCIs) identified below:
 - a. 2,4-D GDCI-030063-1362
 - b. Dicamba GDCI-029801-1659

You must comply with all of the data requirements within the established deadlines. If you have questions about the GDCIs listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: <http://iaspub.epa.gov/apex/pesticides/f?p=chemicalsearch:1>

3. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

The following alternate brand names have been added to the record for this product:

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt, long pants, shoes, and socks.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling poison control center or doctor, or going for treatment. [For emergency information call 1-800-543-8873.]

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn will help to prevent run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

Option 1 Directions

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product applies 1.5 lbs. of 2,4-D and 0.1 lbs. of dicamba per acre per application. The maximum number of broadcast applications per treatment site is two per year.

Application Restrictions

- Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application.
- Do not allow people or pets to enter the treated area until dusts have settled.
- Do not apply if rain is expected within 24 hours.
- Do not apply if day temperatures are regularly below 60°F or above 90°F.
- Do not apply more than twice per year.
- Do not water or mow lawn for at least 24 hours after application. [Granules must remain on weeds to be most effective.]
- Apply only to grass. Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetable plants.
- Do not use this product on flowers, shrubs, fruit or vegetable plants
- Do not use on Creeping Bentgrass, St. Augustinegrass (including Floratam), Dichondra, Carpetgrass or Lippia lawns.
- Do not apply to new grass unless it has been mowed at least 4 times.
- Do not seed, sod or plant grass sprigs until at least one month after using this product.

Bold, italicized text is information for the reviewer and is not part of the label.
 [Bracketed information is optional text]. Text separated by "/" denotes and/or options.

WEEDS CONTROLLED

Some or all of the following weeds will appear on the label

Aster	Clover (red)	Lespedeza (Seedling)	Scarlet Pimpernel
Bindweed	Clover (white)	Lippia (Matchweed)	Shadflower
Bittercress	Cudweed	Mallow	(Whitlowort)
Black Medic	Curly dock	Moneywort	Shepherdspurse
Bristly Oxtongue	Dandelion	Morningglory	Smartweed
Buckhorn	Dichondra	Mustard	Sow Thistle
Bull Thistle	Dollarweed	Pennywort	Spurweed
Burclover	English Daisy	Pepperweed	Stitchwort
Buttonweed	Eveningprimrose	Pigweed	Threeseeded Mercury
Canada Thistle	Filaree	Plantain	Thymeleaved
Carpeweed	Fleabane	Prickly Lettuce	Sandwort
Catsear (Coast Dandelion)	Ground Ivy	Puncturevine	Vetch
Centella	Hawkweed	Purslane	Wild carrot
Chickweed	Healall	Pusley (Florida)	Yarrow
Chicory	Henbit	Pussytoes	Yellow rocket
Cinquefoil	Horseweed	Ragweed	
Clover (hop)	Knotweed (Seedling)	Red sorrel (Sheep Sorrel)	
	Lambsquarter		

[Application/Apply]

- The product may be used [only] on Bahiagrass, Bermudagrass, Bluegrass, Centipedegrass, Fescue, Ryegrass, or Zoysiagrass lawns.
- Apply when weeds are actively growing [when daytime temperatures are consistently between 60°F and 90°F].
- For best results, apply to grass that is wet from dew or watering./Make sure that the grass is wet from dew or watering before applying. [This helps particles adhere to weed leaves to produce best results.]
- Mow tall grass a day or two before application.
- **In Spring**, apply on Bahiagrass and Centipedegrass lawns in mid-April or later and after the third mowing.
- **In Fall**, apply on Centipedegrass lawns before September 1st and Bahiagrass lawns before November 1st.
- Set spreader to the setting indicated by the chart [below] [before applying].

[Watering]

Wait at least 24 hours before watering your lawn. If watering sooner, water will wash the product off the weed's leaves and reduce the effectiveness of this product.]

[What to Expect]

Weed stems and leaves will begin to twist and curl in a few days, but a month or more may be required for complete control. This product will not prevent weed seeds from producing new plants.]

[Under certain conditions, temporary discoloration may occur on Bahiagrass, Centipedegrass, Bermudagrass, and Zoysiagrass lawns].

[Seeding/Sodding/Sprigging]

- Wait at least one month after you have applied this product before seeding, sodding or sprigging.
- Mow new grass at least 4 times before applying.]

WEED CONTROL CLAIMS

39. Kills dandelions and other major lawn weeds*
40. Kills dandelions, clover and most other broadleaf lawn weeds*
41. Small, lightweight granules provide complete uniform coverage and are quickly absorbed to help ensure control of large and small weeds.
42. Controls more than 50 common lawn weeds such as dandelion, clover and chickweed.
43. Effective on both large and small weeds* (see list below).
44. Kills roots.
45. Kills dandelions, chickweed, white clover and most other common broadleaf weeds*.
46. Now with more powerful particles
47. Faster-acting than previous formula
48. Moves into leaves faster **/than/vs previous formula
49. Same great results in less time **/than/vs previous formula
50. Penetrates the weed faster **/than/vs previous formula

* as listed

** than/vs previous formula

COMBINATION CLAIMS

51. Scotts' most effective weed and feed
52. Weed control plus lawn fertilizer for use on bahiagrass, bermudagrass, bluegrass, centipedegrass, fescue, ryegrass or zoysiagrass lawns
53. All you need for a thicker, greener lawn without dandelions
54. Clears out clover and other broadleaf weeds and helps prepare your lawn for winter
55. Kills dandelions and more than 50 other broadleaf weeds after they sprout and helps make your lawn its thickest, greenest ever
56. Kills dandelions, clover, chickweed and other non-grassy weeds while greening your lawn without rapid, extreme growth
57. Unlike ordinary weed-and-feeds, every particle of this product contains Scotts patented timed-release nitrogen plus potassium and weed control. (See back for details).
58. What to expect - Dandelions and other weeds will be killed in 3 to 4 weeks and your lawn will be greener in 4 to 6 days
59. Thickens lawn to crowd out weeds

FERTILIZER CLAIMS

60. [art] Builds strong, deep roots
61. [art: Water Smart] Improves lawn's ability to absorb water & nutrients
62. ULTRA GREENING POWER!
63. "We guarantee thick, green, turf without risk of surge growth."
64. Timed-release nitrogen won't burn your lawn or cause surge growth
65. Plus fertilizes with a feeding of Turf Builder® for developing thick, green lawns
66. Builds thick, green turf from the roots up [without burning your lawn]
67. Scotts Best Annual Program For A Picture-Perfect LawnBoost of nutrients to help your lawn survive/prepare for the summer/summer stress/heat, drought & wear and tear!
68. Develops longer, deeper roots to help your lawn survive/prepare for the summer/summer stress/heat, drought, and wear and tear!
69. Builds thick, green turf without burning

Bold, italicized text is information for the reviewer and is not part of the label.
 [Bracketed information is optional text]. Text separated by “/” denotes and/or options.

70. Feeds lawn, helping turf to fill in where weeds once were
71. Strengthens/protects your lawn
72. Fast, long lasting greening power
73. Won't burn lawns, guaranteed.
74. No burning
75. No surge growth
76. Builds thick, green lawns.
77. Quick greening, long lasting.
78. Patented, timed-released nitrogen formula builds thick, green lawns from the roots up
79. Each lawn fertilizer particle provides release that won't burn or cause surge growth when applied as directed
80. Delivers nutrients which enhance root growth and provide extended feeding
81. All the nutrients your lawn needs in one application/bag/step
82. Scotts All-in-One®** particles combine essential nutrients into every particle [for even feeding]
83. Total nutrient package helps repair thin and bare spots in your lawn
84. Patented timed-release nitrogen formula builds thick, green lawns from the roots up.
85. [Product Name] lawn fertilizer contains extra nitrogen, carefully blended with potassium to make your lawn greener.
86. Your lawn will be greener in 4 to 6 days if weather conditions are good [warm soil, some moisture]
87. The greening will reach its peak 8 to 10 days after application. The color difference will be more noticeable if your lawn is hungry to begin with.
88. [Product Name] works below the soil, too, helping to promote root and rhizome development; this strengthens the grass plants and enables them to produce more blades of grass, and it thickens the lawn with the addition of new grass plants.
89. Thin areas of turf will fill in over time [about 6 weeks], creating a more uniformly dense lawn.
90. The result is a beautiful, thicker, greener lawn.

Nitrogen, Phosphorus, Potash / Potassium

[N] Nitrogen for greening / Slow release nitrogen for continuous feeding / For lush, green plant growth

[P] Phosphorus helps develop a stronger, hardier root system

[K] Potassium / Potash is vital for growth. Improves plant hardiness and drought resistance / For overall plant vigor

FOR A BEAUTIFUL STA-GREEN® LAWN/YARD

Bold, italicized text is information for the reviewer and is not part of the label.
 [Bracketed information is optional text]. Text separated by “/” denotes and/or options.

A good fertilization program can keep your lawn/yard green and vigorous. STA-GREEN® has a wide selection of fertilizers to help you throughout the year.

STA-GREEN® LAWN STARTER FERTILIZER

Apply this specially formulated fertilizer when starting new lawns/yards from seed or sod. The high phosphorus level promotes strong root development and winter hardiness.

STA-GREEN® CRABGRASS PREVENTERS

Use these preemergent products to control crabgrass and many other weeds in your lawn/yard before they germinate. Crabgrass preventers are available with or without fertilizer. Use these products in early spring before weeds being to emerge.

STA-GREEN® LAWN FERTILIZERS

A high nitrogen fertilizer with iron that feeds any established lawn/yard up to 3 months. Use this product anytime during the active growing season.

STA-GREEN® WEED & FEED

This postemergent product controls a wide variety of existing broadleaf weeds while it feeds your desirable grass. Use weed and feeds when weeds are actively growing.

STA-GREEN® SOUTHERN WEED & FEED

This fertilizer is especially formulated to control a wide variety of broadleaf weeds in Centipede and St. Augustine lawns/yards. Use weed and feeds when weeds are actively growing.

STA-GREEN® WINTERIZER & WINTERIZER WEED & FEED

Winterizer helps prepare your lawn/yard for winter stress and helps promote early spring green-up. Winterizer Weed & Feed helps prepare your lawn/yard for winter and kills late season broadleaf weeds.

STA-GREEN® is used under license to (*insert company name*).

Tips for Lawncare Success:

- Feed regularly for your best lawn – Regular feedings of Scotts [Turf Builder] [insert alternate brand/product name] will help build a lawn you and your family can enjoy. Scotts [Turf Builder] [insert alternate brand/product name] provides the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought and family activity.
- Mow your lawn high. Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively.
- Leave the grass clippings on your lawn. This recycles the plant nutrients back into the soil.
- Conserve water. Your lawn will begin to wilt when water is needed. As much as possible, take advantage of nature’s sprinkler and rely on the rain to water your lawn.

OR

Tips for Lawncare Success:

[icon: granules falling on grass] **Feed Regularly**

Regular feedings provide the nutrients your lawn needs to look its best and withstand the stresses of weeds, heat, drought & family activity

Benefits of Multiple Feedings [art] one annual feeding [art] 2-3 annual feedings [art] 4 annual feedings

[icon: lawn mower] **Mow and Leave the Grass Clippings on Your Lawn**

Bold, italicized text is information for the reviewer and is not part of the label.
 [Bracketed information is optional text]. Text separated by “/” denotes and/or options.

Mowing high allows the grass to develop a deep root system & helps your lawn use water more effectively. Grass clippings recycle the plant nutrients back into the soil.

[Water Smart™ logo][Water Smart Makes The Most Of Every Drop™] **Conserve Water** Well-fed lawns are more efficient at using available water. Feeding with Scotts [fertilizer/lawn food] helps grow/build a thick lawn with more roots to better absorb water and nutrients than an unfed lawn. This helps protect your lawn against heat drought and other stresses. Remember your lawn will begin to wilt when water is needed. As much as possible take advantage of nature’s sprinkler and rely on the rain to water your lawn.

Scotts Recommended [Annual] Feeding Schedule/Plan
 Plan your feeding schedule. Choose the right product for your lawn.
 Any Season. Apply any season if weeds or bugs are not a problem:
 [Art: Bag] Scotts Turf Builder Lawn Fertilizer/ ***insert brand name***

Early Spring. February/March – April. To prevent crabgrass:
