LAWN WEED KILLER

Contains 2, 4-D and Silvex

SPREADER SETTINGS

Sears Calibrated 6 1/2	Scott 6
Lawn Beauty 5	Jackson 6 1/2
Modern 6	

NOTE: Except for Sears Calibrated models, above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply only 1/4 lb. per 100 sq. ft.

DIRECTIONS

Lawn Weed Killer is a mixture of 2, 4-D and Silvex for application to active growing broadleaf weeds. Better results are obtained if applied when ground moisture is adequate. During dry weather water lawn thoroughly 24 hours prior to application. For persistent weeds or if a heavy rain within 2 days after application, a second application may be necessary.

FOR ESTABLISHED LAWNS

With a calibrated spreader, apply evenly at rate of 2 2/3 lbs per 1000 sq. ft. Do not apply to creeping grass such as Bent Grass. Do not mow, water or make heavy use of lawn for at least 24 hours after spreading.

FOR NEW LAWNS

Do not apply to newly seeded lawn until after the second or third cutting.

CAUTION

Avoid inhaling dust. Avoid contact with skin, eyes or clothing. Do not apply directly or otherwise permit through drift to contact vegetables, flowers, fruit trees, ornamentals or other desirable plants. Do not store near fertilizers, seeds, insecticides, or fungicides. Vapors from this product may injure susceptible plants in the immediate vicinity.

This product is toxic to fish and wildlife. Keep out of lakes, streams and ponds.

Do not re-use container. Destroy when empty.

WARRANTY

Conditions of use are beyond seller's control. Seller's liability is limited to product's replacement or purchase price refund. Seller makes no warranty, express or implied, concerning product's use beyond claims on label.
