SNAIL AND SLUG MEAL

DIRECTIONS

COVERAGE: One Pound will treat 800 to 1500 square feet.

FOR GARDENS, ETC.: Toss the dry material throughout the entire garden. These pests travel and feed almost exclusively at night. Bait bedding plants and other low growing plants. Apply to soil surface around the plants. Do not contaminate edible parts. For citrus trees sprinkle around base of trees. Distribute bait in the garden thoroughly. Repeat at three week intervals or as necessary. If ground is dry, sprinkle garden until wet.

FOR LAWNS (Dichondra, Clover, or Grass): Distribute dry bait over entire lawn as necessary.

WARNING: Avoid breathing dust; may be fatal if swallowed. Avoid contact with skin, eyes, or clothing. Keep out of reach of children, pets, and domestic animals.

Dogs may be attracted to this bait. Care should be taken to keep these animals off treated areas. Do not contaminate ponds or drinking water. Birds feeding in treated area may be harmed.

Dispose of container promptly when empty.

Conditions of use are beyond seller's control. Seller's liability is limited to product's replacement or purchase price refund. Seller makes no warranty, express or implied, concerning product's use beyond claims on label.
