

GENERAL INFORMATION

Sears Lawn Pre-Renovator is recommended for the control of a wide variety of unwanted vegetation around buildings, along sidewalks and driveways and under trees and ornamentals. It is also recommended for complete lawn renovation. It is inactivated on contact with soil.

MIXING INSTRUCTIONS

For every 3 parts of water placed in a spray tank or other convenient container, add 1 part of Sears Lawn Pre-Renovator. Stir gently until well mixed. When through spraying, flush spray tank or mixing container with water and dump washings on bare ground.

DIRECTIONS FOR USE

One gallon of mixed spray solution (3 quarts of water mixed with 1 quart of Lawn Pre-Renovator) will treat 250 square feet, four gallons will treat 1000 square feet. Apply the spray solution with a fluid-pump or pressure-type tank sprayer, using a nozzle or nozzle setting that gives a coarse spray. GENERAL WEED CONTROL: Spray unwanted vegetation thoroughly to the point of run-off. Wilting will appear in 1 to 3 days and thorough browning in about 5 to 7 days. Repeat applications may be necessary, particularly for hard-to-kill perennials. The best kill is obtained on young plants and during hot sunny weather. Make sure the spray does not contact the leaves, green or damaged bark, or grafts of desired trees and ornamentals.

LAWN RENOVATION: The area to be treated should be mowed before treatment. Bermuda-grass and other deep-rooted perennials or uncovered foliage may require a second treatment. Reapply five days later if green areas remain. When foliage is all brown, matted areas should be raked and bare areas scarified. About five days after last treatment, water thoroughly and then seed at rate recommended for new lawns. Seed must be raked into soil. Keep seeded areas well watered.

CAUTION

Harmful if swallowed. Avoid contact with skin. Avoid breathing spray mist. Wash hands after using. Avoid storage near feed or food products. Keep children and domestic animals off treated areas until this material has been washed into the soil. Do not graze treated area or feed treated forage to livestock. Do not track from treated to untreated areas.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

ANTIDOTE

If taken internally, induce vomiting and call physician at once.

NOTICE

Conditions of use are beyond seller's control. Seller's liability is limited to product's replacement or purchase price refund. Seller makes no warranty, express or implied, concerning product's use beyond claims on label.

SOARS ROOBUCK & CO.
WEED KILLER
