Derived from Sulfate of Potash	
Iron as elemental from Sulphate and Sulfides .....	1.0%
Soil Penetrant (Alkylated Aryl Polyetheralcohol) .....	1.0%

Insects Controlled: Lawnmoth Larva, Cutworms, Ants, Earwigs

DIRECTIONS FOR USE:

Established Lawns

Use one bag for each 2000 square feet (50x40 feet, for example).  
This rate is equivalent to 1 lb. per 150 square feet. Water  
thoroughly after application.

New Lawns

Apply at above rate, spreading evenly on soil just prior to  
planting. Rake into top one or two inches of soil, then plant  
seed as usual. Water thoroughly after application.

Carbaryl

CAUTION: Harmful if swallowed or inhaled. Keep children off treated areas until washed into soil and lawn is thoroughly dry. Avoid contact with skin, eyes and clothing. Avoid prolonged breathing of dust. Wash thoroughly after use. Do not contaminate food stuffs or crops for feed or human consumption.

Do not contaminate waters used for ornamental fish ponds, lakes, streams or water for irrigational purposes.

Because of danger of killing bees, apply when bees are inactive, normally in early morning or evening.

NOTE FOR PHYSICIAN: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

Conditions of use are beyond seller's control. Seller's liability is limited to product's replacement or purchase price refund. Seller makes no warranty, express or implied, concerning product's use beyond claims on label.
