CHERRY BOMB INSECT KILLER

NON-TOXIC
TO HUMANS
AND PETS

CAUTION: KEEP OUT OF REACH OF CHILDREN Contents under pressure. See back panel for additional required caution statements.

CHERRY BOMB - Powerful Synergized Pyrethrin Formula Insect Killer. Non-toxic to humans and pets. For use in Food Processing Plants. Pleasantly Scented - Cherry Fragrance. Kills Flies, Mosquitoes, Ants, Roaches, Gnats and Silverfish.

U.S.D.A. Reg. No. 541-112

DIRECTIONS

Remove protective cap. Hold can upright with valve pointed away from face.

For flies, mosquitoes and certain other flying insects: Spray upwards into four corners of closed room for flying insects, about 15 or 20 seconds for average room. Close windows and doors for about 15 minutes after treatment.

For roaches, ants, silverfish and certain other crawling insects: Spray liberally into cracks of woodwork, walls, floors, hiding and breeding places; directly on insects when possible. Repeat when necessary. Cover cooking utensils, dishes and food before spraying.

For ants: Treat ant trails and areas where these pests enter the premises such as door sills and window frames.

CAUTION: Do not puncture or dispose of container in fire. Store at room temperature (not over 120° F.). Do not spray on food and foodstuff. Do not spray directly on painted surfaces. Cover fish bowls and aquariums before spraying. Use the product as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.
