

PURI-MIST

BACTERIOSTATIC FLOOR AND DUST MOP TREATMENT

Cleans and revitalizes all types of floors. Inhibits the growth of dust-borne bacteria in contagious disease areas. Not effective against gram negative bacteria.

Treated surfaces possess residual bacteriostatic action and continue to inhibit the growth of gram positive bacteria so long as they are kept visually free of dust and dirt.

ACTIVE INGREDIENTS 0.075%
1-Heptadecenyl-2-(hydroxyethyl) imidazolinium chloride . 0.040%
Heptadecadienyl-1-benzyl-2-imidazolinium chloride . . . 0.035%
INERT INGREDIENTS 99.925%
Mineral Seal Oil, Isopropanol

DIRECTIONS

RUBBER AND ASPHALT TILE FLOORS: Spray dust mop lightly with PURI-MIST and ALLOW MOP TO DRY FOR 8 HOURS BEFORE USING. Apply dust mop to floor in the usual manner. Repeat application as often as necessary. Do not spray PURI-MIST directly on rubber or asphalt tile floors.

FINISHED WOOD FLOORS: To Clean—Spray PURI-MIST lightly over the floor. Allow to stand for a few minutes, then remove excess with a soft mop or cloth.
To Maintain—Spray PURI-MIST lightly on a soft mop and go over the floors in the usual manner. Mop should be only moistened, not saturated.

E.P.A. Est. 541-GA-1

276

UNFINISHED WOOD FLOORS: Spray a sufficient quantity of PURI-MIST on the floor to penetrate into the pores and loosen the imbedded dirt. Allow to stand a few minutes, then sweep with a stiff brush or broom.

NOTE: It is important to have a clean mop in order to get best results and maintain attractive floors. Wash dust mops in a mild neutral soap solution. Wring out thoroughly and allow to dry.

CAUTION:

Harmful if swallowed. Keep out of reach of children.

Do not take internally. Avoid contact with eyes. In case of contact, flush with plenty of water, get medical attention if irritation persists. Avoid contamination of foods.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
