

# NEW DITOX 25

HIGHLY CONCENTRATED FOGGING INSECTICIDE

*For Rapid Kill of Resistant Insects and  
for Prolonged Residual Kill*

*Contains Malathion, DDVP and Naled,  
Patented Insecticide*

**Quickly knocks down and kills resistant insects, including Flies,  
Mosquitoes, Wasps, Gnats, Roaches, Waterbugs, Ants and Spiders.**

Active Ingredients 100%

Aromatic petroleum distillate  
Malathion (0.0 dimethyl dithiophosphate of diethyl mercaptosuccinate)  
Naled\* (1:2 dibromo:2:2 dichloroethyl dimethyl phosphate)  
2:2 dichlorovinyl dimethyl phosphate (DDVP)\*\*

\*\* Consist of 2:2 dichloro:nyl dimethyl phosphate (DDVP) and related compounds.  
\* U. S. Patent No. 2,971,882

## DIRECTIONS

DITOX 25 is a highly concentrated material and should be diluted before fogging by mixing 1 gallon of the concentrate with 25 gallons of kerosene, fuel oil, mineral seal oil or horticultural base oil. For heavy infestations, a dilution of 1 to 14 is recommended. Use within a few days after mixing. Do not store diluted spray. Do not mix with water.

**FOR OUTDOOR SPACE SPRAYING & REDUCTION OF AIRBORNE INSECT POPULATIONS:** For Flies, Mosquitoes, Wasps and Gnats, disperse with fogging apparatus, smoke generator or pressure sprayer.

**FOR OUTDOOR RESIDUAL SPRAYING:** For control of Flies, Mosquitoes, Roaches, Waterbugs, Ants and Spiders, mix 1 gallon DITOX 25 with 14 gallons of suitable solvent and apply as a coarse wet spray on garbage dumps, athletic fields, drive-in theaters, camp sites, and around buildings. For outdoor meeting places, spray several hours in advance of the desired period of protection. To prevent entry of flies, mosquitoes or wasps into human dwellings, apply to screens, window frames, doorsills and areas on porches where insects congregate. Heavy application is desirable for the most effective kill and greatest residual effect. Do not apply or allow to drift to areas occupied by unprotected humans and beneficial animals.

**CAUTION:** Keep out of reach of children.

This product is toxic to fish. Keep out of lakes, streams and ponds. Apply only as specified on this label.

Harmful if swallowed, inhaled or absorbed through the skin. Do not spray on humans or animals or near fish bowls. Avoid contamination of feed and foodstuffs, utensils, dishes or drinking water. Do not apply to any area not specified on the label. Do not apply on crop areas used for the production of food, feed or forage. Avoid inhalation of mist or contact with skin. In case of contact with skin or eyes, wash with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking; wear clean clothing. Do not use or store near heat or open flame. Do not smoke while spraying. If swallowed, induce vomiting immediately, and get medical attention.
