

**NEW**

**IMPROVED!**

Kills many gram positive and gram negative organisms. Kills most common pathogenic bacteria, including anti-biotic resistant Staph as well as Pseudomonas and Mycobacterium Tuberculosis.

Especially designed for use where soil and bacterial contamination are high. Cleans thoroughly. Reduces labor. Works equally well in hard or soft water. Controls mold, mildew, odor due to bacterial decomposition. Sanitizes.

New Improved ONE passes A.O.A.C. Use Dilution Confirmation Tests against Staphylococcus aureus and Salmonella choleraesuis at 1 to 128 dilution and against Pseudomonas aeruginosa at 1 to 90 dilution. It also passes the latest A.O.A.C. in vitro test procedure against T.B. at 1 to 80 dilution. Accordingly, it is accepted for hospital and other environmental sanitation programs.

Active Ingredients: 20.0%  
Coconut oil soap  
Ortho-benzyl para-chlorophenol  
Isopropanol  
Tetrapotassium pyrophosphate  
Tetrasodium ethylene diamine tetraacetic acid  
Inert Ingredients: 80.0%  
Water

**DIRECTIONS**

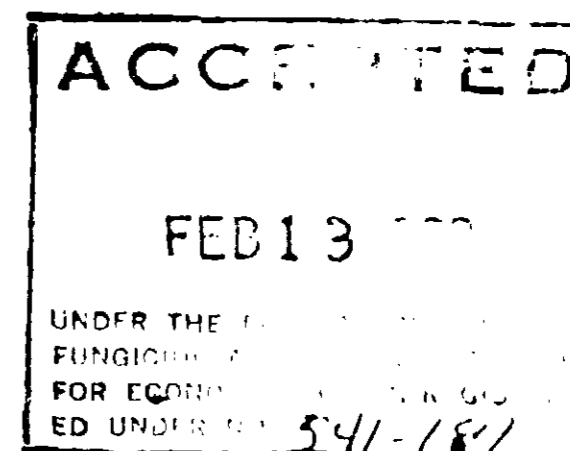

FOR CLEANING, DISINFECTING & DEODORIZING IN ONE OPERATION: Mix 1 part of New Improved ONE in 80 parts of water; that is, about 4 ounces per 2½ gallon bucket. Apply by mop, brush or cloth. Allow solution to remain on surface for several minutes, then remove with squeegee, damp mop or wet vacuum. Rinse with fresh water if desired. For removal of heavy soil deposits use somewhat stronger solutions as required.

**CAUTION:** Keep out of reach of children.

Harmful if taken internally. May cause skin irritation. Avoid contact with skin. Avoid splashing in eyes.

FIRST AID: In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention. If swallowed, give raw egg white, milk, mucilage or cornstarch paste and follow with emetic of mustard. Call a physician.

U.S.D.A. Registration No. 541-187
