*Includes nonionic synthetic detergents.

DIRECTIONS

FOR CLEANING: Brush surfaces with solution containing 1/2 ounce per gallon of warm water.

FOR SANITIZING: Spray interior surfaces of tanks or vats with solution containing 1/2 ounce per gallon. For circulating systems add water and concentrate to receiving tank at the level of 1/2 ounce of concentrate per gallon of water and pump through system.

FOR SANITIZING IN-PLACE LINES: Clean thoroughly using Puritan's approved cleaner and rinse with warm water. Sanitize by circulating solution containing 1/2 ounce of concentrate per gallon of warm water for 5 to 10 minutes. Drain solution. Do not rinse.

Allow at least 2 minutes of exposure time on all equipment. Sanitize at least 5 minutes before each product run. A clear water rinse after sanitizing is not necessary unless required by local health authorities.

This product, when used as directed, fulfills the criteris of Appendix F as revised March 12, 1956 of the Milk Ordinance and Code, 1953 recommendations of the U.S. Public Health Service.

CAUTION (18 pt.): Keep out of reach of children (12 pt.).

Harmful if swallowed. Causes skin irritation. Avoid contamination of food.

Avoid contact with skin or eyes. If splashed on skin or eyes, flush with plenty of water; for eyes, call a physician.
