DIRECTIONS:

Use undiluted for the control of household pests in homes and institutions. Apply only as a coarse, wet spray or with a small paint brush as a "spot" treatment. Do not use as a space spray indoors. Heavy application is desirable for the most effective kill and greatest residual effect.

FOR ROACHES, WATERBUGS & SILVERFISH: Apply to cracks and other infested areas where insects have been seen resting, running or hiding. Special attention should be given to treatment of baseboards, areas behind shelving, bookcases and storage areas.

FOR ANTS: Apply to ant trails and areas around door sills, window frames, where pests may enter. Treat openings around water pipes, heat ducts and electrical outlets.

FOR BROWN DOG TICKS: Apply to infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets, and localized areas of floors and floor coverings. Fresh bedding should be placed in animal quarters following treatment. Do not treat pets or other animals.

FOR CARPET BEETLES: Apply to infested areas of carpets, local areas of floors, baseboards, cracks, and under carpets where insects may be found.

Houston—Newark—St. Louis
A DIVISION OF THE DEXTER CORPORATION

PURITAN #4107

RESIDUAL INSECTICIDE

Contains both Diazinon and synergized Pyrethrins for fast knockdown, quick kill and long residual kill of resistant insects. Quickly knocks down and kills crawling insects such as cockroaches, waterbugs, silverfish, ants, spiders, crickets, brown dog ticks, carpet beetles, boxelder bugs, centipedes, scorpions. Also kills flies, mosquitoes, gnats, flying moths, wasps and certain other small flying insects.

Active Ingredients	100%
Petroleum distillate	99.184%
O, O-diethyl O-(2-isopropyl 6-methyl-4-pyrimidinyl) phosphorothioate	0.500%
N-octyl bicycloheptene dicarboximide	0.166%
Technical piperonyl butoxide*	0.100%
Pyrethrins	0.050%

*Consists of butylcarbitol(2-propylpiperonyl) ether and related compounds.

CAUTION: Keep out of reach of children.

Harmful if swallowed, inhaled or absorbed through the skin. Do not spray on humans or animals or near fish bowls. Avoid contamination of feed and food-stuffs, utensils, dishes or drinking water. Avoid inhalation of mist or contact with skin. In case of contact with skin or eyes, wash with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking. Do not use or store near heat or open flame. Do not smoke while spraying. Do not spray on asphalt tile or composition tile. Do not allow children or pets to contact treated surfaces until dry. Remove caged birds and bees prior to treatment. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

ACCEPTED
JAN 12 1976
EPA Est. 541-GA-1
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 541-198

DIRECTIONS: *Continued from other side panel*

FOR BOXELDER BUGS: Apply around door sills, window frames or wherever pests may congregate, such as porches or sides of houses.

FOR CRICKETS: Apply to baseboards, floors of closets, storage places and other hiding places.

FOR SPIDERS & CENTIPEDES: Apply to infested baseboards and corners, to pipes, storage locations and other infested areas in basements.

FOR SCORPIONS: Apply around door sills, window frames, and other areas where insects may be entering premises. Spray surfaces in garages and buildings other than human dwellings.

FOR FLIES, MOSQUITOES, GNATS, FLYING MOTHS, WASPS, SMALL FLYING INSECTS: Apply to localized areas these insects may infest; treat around baseboards, cracks, doors and window frames. Outdoors and for preventing entry into dwellings, apply as a spot treatment thoroughly and repeatedly to screens, window frames, door sills and selected areas on porches where insects alight or congregate. For wasps, spray the nest after dark when all insects have returned to nest. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals.

This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not re-use empty container. Destroy and burn in a safe place.

Authorized by U.S.D.A. for use in federally inspected meat and poultry plants.
