PURITAN #2134

CONCENTRATED FOGGING INSECTICIDE

1 of 2

Concentrated Fogging Insecticide

Use as a Fog and Surface Spray

Control of Mosquitoes, Houseflies, Gnats, Wasps, Flying Moths, Crane Flies, Midges, and other insects.

For rapid knockdown and kill of Mosquitoes, Houseflies, Gnats, Wasps, Flying Moths, Crane Flies, Midges.

For control of all types of resistant and non-resistant Roaches, including German, Brownbanded, Oriental and American Cockroaches.

Active Ingredients: 100%

Petroleum distillate

*Naled (1,2-dibromo-2,2-dichloroethyl dimethyl phosphate)

*U.S. Patent No. 2,971,882

DIRECTIONS

Read entire label. Use strictly in accordance with label cautions, warnings and directions, and in conformity with any pertinent federal, state or local regulations.

PURITAN #2134 is a concentrate and must be diluted before fogging or surface spraying by mixing with appropriate quantities of kerosene, fuel oil, mineral seal oil or horticultural base oil. Fuel oil produces the best fog. Use within a few days after mixing. Do not store diluted spray. Do not mix with water.

FOR FOGGING:

Use any device in which an oil based insecticide may be used. Thermal foggers, such as the various model Dyna-Fogs, are especially useful. With foggers on carriers, apply at the rate of 40 gallons output per hour, at an average vehicle speed of 5 miles per hour, applying swath 300 to 400 feet wide.

Use as a fog in and around dairy barns (including milking rooms), livestock barns, pig pens, poultry houses, feed lots, cattle pens, outside meat packing establishments (including federally inspected) such as pens, dock ramps, disposal areas, cider mills, wineries.

Use in residential areas, municipalities, camp sites, athletic fields, drive-in theatres, garbage dumps, tidal marshes, swamps, woodlands, buildings, dairy barns, feed or forage areas.

FOR ADULT MOSQUITO CONTROL: Mix 1 gallon of PURITAN #2134 with 15 gallons of solvent and disperse by fog.

FOR CONTROL OF HOUSEFLIES, GNATS, CERTAIN OTHER NUISANCE INSECTS SUCH AS FLYING MOTHS, CRANEFLIES, MIDGES: Mix 1 gallon of PURITAN #2134 with 11½ gallons of solvent and disperse by fog.

In dairies and stock barns, spray around and above animals but not directly at animals. Do not use in milk processing rooms.

FOR SURFACE SPRAYING:

Use Hudson sprayer or other device capable of delivering a coarse, wet spray.

T 201 2

Use as a surface spray inside and outside of houses, apartments, hotels, motels, restaurants, factories, warehouses, barns, institutions and other buildings.

FOR CONTROL OF ALL SPECIES OF ROACHES: Mix 1 gallon with 13 gallons of solvent and apply as a coarse, wet spray into cracks, crevices and other hiding places where insects may be contacted. Apply to walls, beams, rafters, around windows and doorways and insect resting areas.

Avoid contamination of feed, foodstuffs and food processing machinery. Do not apply when plants are in operation or when foods are present or exposed. Do not apply to surfaces which will come into contact with foods. Cover food containers during spraying periods.

Do not use in edible products areas of food processing plants.

Use of this product inside homes must be restricted to Pest Control Operators only.

CAUTION: (18 pt.): Keep out of reach of children (12 pt.)

This product is toxic to fish. Keep out of lakes, streams and ponds. Apply only as specified on this label. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

Harmful if swallowed, inhaled or absorbed through the skin. Do not spray on humans or animals or near fish bowls. Avoid inhalation of mist or contact with skin. In case of contact with skin or eyes, wash with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking; wear clean clothing.

Avoid contamination of feed and foodstuffs, utensils, dishes or drinking water. Do not apply to any area not specified on the label. Do not apply on crop areas used for the production of food, feed or forage. Do not use or store near heat or open flame. Do not smoke while spraying. If swallowed, induce vomiting immediately, and get medical attention.

Store in a cool, dry place.

Especially designed for industrial, institutional and commercial use only.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place.

U.S.D.A. Registration No. 541-

Net Vol. Gals.

PURITAN

1 of 2

Concentrated Fog

Use as a Fog

Contains Naled,

For rapid knockdown and kill of Mosquitoes, Crane Flies, Midges.

For control of all types of resistant Brownbanded, Oriental and American Cockroaches.

Active Ingredients: 100%
Petroleum distillate
*Naled (1,2-dibromo-2, 2-dimethyl-3-nitroethane)
*U.S. Patent No. 2,971,882

DIRTY

Read entire label. Use strictly in accordance with directions and in conformity with any pertinent federal regulations.

PURITAN #2134 is a concentrate and must be mixed with appropriate quantities of kerosene or kerosene base oil. Fuel oil produces the best fog. Do not store diluted spray. Do not mix with water.

FOR FOGGING:

Use any device in which an oil based concentrate can be dispersed. The various model Dyna-Fogs, are especially suitable. At the rate of 40 gallons output per hour, a single operator can apply a swath 300 to 400 feet wide.

Use as a fog in and around dairy barns, pens, poultry houses, feed lots, cattle sheds, (including federally inspected) such as wineries.

Use in residential areas, municipalities, garbage dumps, tidal marshes, swamps, and other areas.

FOR ADULT MOSQUITO CONTROL: Mix 1 gallon of concentrate with 40 gallons of kerosene and disperse by fog.

FOR CONTROL OF HOUSEFLIES, GNATS, CERTAIN CRANEFLIES, MIDGES: Mix 1 gallon of concentrate with 40 gallons of kerosene and disperse by fog.

In dairies and stock barns, spray around perimeter. Do not use in milk processing rooms.

FOR SURFACE SPRAYING:

Use Hudson sprayer or other device capable of spraying.

Use as a surface spray inside and outside of houses, apartment, hotels, motels, restaurants, factories, warehouse, barns, institutional and other buildings.

FOR CONTROL OF ALL SPECIES OF ROACHES: Mix 1 gallon with 1/2 gallon of solvent and apply as a coarse wet spray into cracks, crevices and other hiding places. Do not expect to be effective. Apply to walls, baseboards, trim, and doors. Do not expect roach control.

Do not contaminate feed and foodstuffs and food processing machinery. Do not apply to plants in operation or when roach are present or exposed. Do not apply to surfaces which will come into contact with food. Cover all containers containing sprays.

Do not use in edible products areas or food processing plants.

Use of this product inside homes must be restricted to Pest Control Operator only.

CAUTION: (18 pt.): Keep out of reach of children (12 pt.)

This product is toxic to fish. Keep out of lakes, streams and ponds. Apply only as specified on this label. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources.

Harmful if swallowed, inhaled or absorbed through the skin. Do not spray on humans or animals or their foodstuffs. Avoid inhalation of mist or contact with skin. In case of contact with skin or eyes, wash with plenty of water; for eyes, get medical attention. Wash hands before and after handling and before eating or smoking; wear clean clothing.

Avoid contamination of feed and foodstuffs, utensils, dishes or drinking water. Do not use in areas not specified on the label. Do not apply in areas used for raising and/or feeding of fish or other aquatic life. Do not use near heat or open flames. Do not use on surfaces which will become wetting immediately, and get medical attention.
