

PURITAN #4106

Concentrated Fogging Insecticide

Contains Fenthion, Patented Insecticide

For Rapid Kill of Resistant Insects and for Prolonged Residual Kill. Quickly knocks down and kills resistant insects including Flies, Mosquitoes, Roaches, Waterbugs, Ants and Spiders.

Active Ingredients: 100%

Aromatic petroleum distillate

Fenthion\* (O, O-Dimethyl O-[4-(methylthio)-m-tolyl] phosphorothioate)

\*U. S. Patent No. 3,042,703

DIRECTIONS

PURITAN #4106 is a concentrated material and should be diluted before fogging by mixing 1 gallon of the concentrate with 25 gallons of kerosene, fuel oil, mineral seal oil or horticultural base oil. For heavy infestations, a dilution of 1 to 12 is recommended.

All uses of this product are to be made only by Public Health Officials, Public Mosquito Control Officials, Mosquito abatement districts, and Commercial Pest Control Operators.

**FOR OUTDOOR SPACE SPRAYING & REDUCTION OF AIRBORNE INSECT POPULATIONS:** For mosquitoes, disperse with fogging apparatus or mist sprayer. Adjust fogging machine to deliver equivalent of 40 gallons per hour at a machine speed of 5 m.p.h. to cover a swath width of up to 350 feet. Repeat as necessary.

**FOR OUTDOOR RESIDUAL SPRAYING:** For control of flies, mosquitoes, roaches, waterbugs, ants and spiders, mix 1 gallon of PURITAN #4106 with 16 gallons of suitable solvent and apply as a coarse, wet spray to the outside surfaces of building, screens, window frame, around outdoor light fixtures, and in garages. For heavy infestations a dilution of 1 to 8 is recommended. When applied at the rate of 500 sq. ft. per gallon, residual control will last 7 to 8 weeks for 1 to 16 mixture; even longer for 1 to 8 mixture. To prevent entry of flies, mosquitoes or wasps into human dwellings, apply to screens, window frames, door sills and areas on porches where insects congregate. Heavy application is desirable for the most effective kill and greatest residual effect. Do not apply so that it drifts to areas occupied by unprotected human or beneficial animals. Repeat application when necessary.

This product will kill shrimp and other aquatic animal life. Keep out of any body of water. Apply only as specified on this ~~label~~ label.

WARNING (18 pt.): Keep out of reach of children (12 pt.).

May be fatal if swallowed, inhaled or absorbed through the skin. Do not spray on humans or animals or near fish bowls or where food crops are grown. Avoid contamination of feed and foodstuffs, utensils, dishes or drinking water. Vapor harmful. Do not breathe spray mist. Do not get in eyes, on skin, or on clothing. In case of contact with skin or eyes, wash with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking; wear clean clothing. Do not use or store near heat or open flame. Do not smoke while spraying. If swallowed, induce vomiting immediately and get medical attention. Atropine sulfate is antidotal. Do not spray PURITAN #4106 or any other solvent based insecticide directly on grass, plants, shrubs or other green vegetation, since solvents are quite destructive to vegetation. However, dry fog application will not cause plant injury. Do not contact treated surfaces until thoroughly dry.

Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place.
