#### **USE DIRECTIONS:**

#### Disinfection

Use at 1 ounce per gallon of water. This product will be effective against Pseudomonas aeruginosa PRD-10 at this level.

At 1 ounce per gallon of water, this product is fungicidal against pathogenic fungi.

For best results, use  $P \pm 6450$  as directed above with a cloth or mop and apply to walls, floors and other hard surfaces.

For heavy soil or organic matter, a pre-cleaning step is recommended.

#### Sanitization

If used for sanitization of previously cleaned food equipment or food contact items, limit the level of active quaternaries to 200 ppm (1.4 ounces per 5 gallons of water). Rinse with potable water after sanitizing.

This product when used on environmental, inanimate, hard surfaces at 1 ounce per gallon of water, is effective against Influenza A<sub>2</sub>, Herpes Simplex, Adenovirus type 2, and Vaccinia viruses.

Rinse empty container thoroughly with water and discard.
