USE INSTRUCTIONS

CAUTION: This concentrate should be used only by trained personnel.

For use by Pest Control Operators only.

ACTIVE INGREDIENTS:

Chlordane, technical, ketined* 19.00

INERT INGREDIENTS:

TOTAL 81.00
100.00

*Equivalent to 11,1-octachloro-1,7-dimethyl-2,4,5,8-tetrahydroindane and 7,6 related compounds.

This concentrate and all water dilutions thereof are highly stable colloidal emulsions. Dilution after dilution with water is not necessary.

FLYING INSECTS: To make an emulsion containing 2% by weight of emulsifier, add 2 parts water to 1 part Insecticide V-20. This emulsion may be used as a spot treatment only in the form of a coarse wet spray, if necessary. Do not contaminate food or utensils.

ROCKY MOUNTAIN WEAVERS & CRICKETS: Special attention should be paid to cracks and hidden surfaces around sinks, refrigerators, or food storage areas where these insects may be hiding.

ANTS: Treat areas around doors and windows.

SPIDERBITE: Spray around baseboards, windows, closets and storage areas.

CARPET BEETLES: Spray baseboard, edges of carpeting, under carpeting and rugs, under furniture, in closets and shelves.

WAX DOCKETS: Spray cracks and crevices and sleeping quarters of animals. Do not use directly on bedding. Do not spray on animals.

SPIDERS: Spray around windows and doors.

CAUTION: This concentrate, if brought into contact with the skin, can cause toxic symptoms. Avoid skin contact and inhalation. In case of spillage on the skin, wash with soap and water. Avoid contamination of feed and foodstuffs and containers. Harmful if swallowed. Keep out of reach of children. Store in a cool dark place.

THIS PRODUCT IS TOXIC TO FISH AND SHELLFISH

Rinse equipment and containers and dispose of wastes by burying in noncrop lands away from water supplies. Containers should be disposed of by punching holes in the end and burying with wastes, or by burning. (Keep out of sight.)
