PRESERVATIVE SOLUTION

3% CONCENTRATE

FOR WOOD THAT MAY BE PAINTED

ACTIVE INGREDIENTS: Volatile-Mineral Spirits 53.5%
 *Pentachlorophenol 17.5%
 INERT INGREDIENTS: 49.0%
 *Following Federal Specification TT-W-570

U. S. D. A. REG NO. 550-R

DIRECTIONS FOR USE

GUARDSMAN PENTA WATER REPELLENT WOOD PRESERVATIVE SOLUTION
 3% CONCENTRATE should be diluted with 5 parts of mineral spirits.
 The solution formed is effective and economical for preventing
 destruction of wood due to mold and fungi. The diluted solution
 will also protect wood against swelling, warping and checking, due
 to too rapid change in moisture content. The ready-to-use solution
 may be applied by cold-soaking, brushing or spraying.

Fence posts, poles, foundation timbers and heavy wooden members
 should be free of bark, dry and well-seasoned and immersed in the
 diluted solution for a period of 12 to 48 hours to be an effective
 wood preserver against wood rotting fungi. Lumber intended to be in
 contact with the soil should be dipped for a minimum of 3 minutes or
 if treated by the brush or spray method, receive two or more flowing
 coats of the product.

When properly applied, the wood retains a natural appearance with a
 minimum of discoloration and may be painted. If the wood is cut after
 applying GUARDSMAN PENTA WATER REPELLENT WOOD PRESERVATIVE SOLUTION,
 the freshly cut surfaces should be treated to get maximum protection.

CAUTION: KEEP OUT OF REACH OF CHILDREN.
 Harmful or fatal if swallowed. Harmful if absorbed thru
 skin. Contains flammable solvent. Causes skin irritation.

Do not get in eyes, on skin or on clothing. Keep container closed
 and away from heat, fire or open flame. Do not pour, spill or spray
 near open flame. Do not breathe vapors. Wash thoroughly after handling.

In case of contact, immediately wash skin with soap and plenty of warm
 water. For eyes, flush with plenty of water at least 15 minutes and
 get medical attention. Remove and wash clothing before re-use. Do
 not contaminate water supplies by cleaning of equipment or disposal
 of waste and containers.

First Aid - Do NOT induce vomiting. Call a physician immediately.
 Contains petroleum distillate and pentachlorophenol.
