Mr. Dennis Prober
 Van Waters & Rogers
 Division of Univar
 2256 Junction Avenue
 San Jose, CA 95131

Dear Mr. Prober:

**Subject: Conditional Registration Application
 Amendments - Update Formula Statement,
 Change Product Name
 Namco Lindane 130 Emulsifiable
 EPA Registration No. 550-105
 Your Application Dated June 18, 1984**

The updated statement of formula is acceptable and has been added to this product's registration file.

The amendment to change the product name, submitted in connection with registration under FIFRA, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. Delete from the Directions for Use:

To be applied only by or under the supervision of pest control operators or other trained personnel responsible for pest control programs.

Also, delete from under the product name:

For Sale To, Storage and Use By Only Pest Control Operators Or Other Trained Personnel Responsible For Pest Control Programs.

The correct restriction already appears at the top of the front panel.

CONCURRENCES

SURNAME ▶								
DATE ▶								

2. In paragraph "5" of the Postconstruction Treatments directions, "Where wooden stairs, etc.," change "with chlordane solution" to "with lindane solution."

Submit five (5) copies of your revised final printed labeling before you release the product for shipment with the amended labeling.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767)

RD/IRB:LaRocca:DCR-50411:WANG-0150L:eg:Raven:479-2013:8/31/84:Del.9/16/84

NOTE TO PHYSICIAN: This product contains aromatic petroleum solvents.

HAZARDS TO HUMANS & DOMESTIC ANIMALS

May be injurious to eyes and skin. Wash thoroughly after handling. Wash contaminated clothing before reuse. Avoid breathing vapors and spray mist. Handle concentrate in a ventilated area.
The following personnel protective devices and clothing are prescribed when making a cleanup: protective suit or coveralls, unlined nitrile gloves, safety goggles, and a respirator. Persons working in enclosed areas such as crawl spaces should wear a respirator approved by MSHA/OSHA for protection against vapors.

ENVIRONMENTAL HAZARDS

Do not apply to water bodies. Do not apply to areas of high ground water. Do not apply to areas of high water table. Do not apply to areas of high groundwater. Do not apply to areas of high groundwater. Do not apply to areas of high groundwater.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE MIXTURE: Do not use, pour, spill, or store concentrate near heat or open flame. Keep container closed.

DIRECTIONS FOR USE

To be applied only by or under the supervision of pest control operators or other trained personnel responsible for pest control programs.

RETREATMENT RESTRICTIONS

- 1. Annual retreatment of the entire premises must be avoided.
- 2. Annual retreatment of the entire premises must be avoided.
- 3. Annual retreatment of the entire premises must be avoided.
- 4. Annual retreatment of the entire premises must be avoided.
- 5. Annual retreatment of the entire premises must be avoided.

RESTRICTED USE PESTICIDE
 FOR RETAIL SALE TO AND USE ONLY BY CERTIFIED
 APPLICATORS OR PERSONS UNDER THEIR DIRECT
 SUPERVISION AND ONLY FOR THOSE USES COVERED
 BY THE CERTIFIED APPLICATOR'S CERTIFICATION

Lindane 13%

Emulsifiable

For Sale To, Storage and Use By
 Only Pest Control Operators Or Other Trained
 Personnel Responsible For Pest Control Programs.

ACTIVE INGREDIENTS

Gamma Isomer of Benzene
 Hexachloride (from Lindane)

13.0%
 87.0%

INERT INGREDIENTS

Contains 1 pound lindane per gallon

KEEP OUT OF REACH OF CHILDREN
CAUTION

STATEMENT OF PRACTICAL TREATMENT: FIRST AID

If swallowed: **Get immediate medical assistance.** Do not induce vomiting. Do not give anything by mouth to someone who has swallowed this product. Do not give anyone who has swallowed this product anything to eat or drink until they have been treated with activated charcoal.

If inhaled: Remove person to fresh air. Apply artificial respiration if needed.

If on skin: Remove clothing immediately. Wash affected areas with plenty of water.

If in eyes: Flush eyes thoroughly for at least 15 minutes with plenty of low pressure water. Get immediate medical attention.

NOTE TO PHYSICIAN: This product contains aromatic petroleum solvents.

STORAGE AND DISPOSAL

General: Do not contaminate water, food, or feed by storage or disposal.
Storage: Store in a cool, dry and ventilated area away from humans, birds, feed stuffs and feed. Do not store near heat or open flame.
Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Disposal: Triple rinse, or equivalent. Then offer for recycling or reuse, or for energy recovery and disposal of a sanitary and final by other procedures approved by state and local authorities. Alternatively, plastic containers may be disposed of by incineration, or followed by state and local authorities, by burning. If burned, stay out of smoke.

Conditions of Sale and Warranty

The Directions for Use of this product reflect the opinion of experts based on the use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all inherent risks associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, pest resistance, or the manner of use or application of which are beyond the control of the manufacturer. No warranty is made by the manufacturer for such factors.

SELLER MAKES NO WARRANTY, EXPRESS OR IMPLIED, CONCERNING THIS MATERIAL OR THE USE OF THIS PRODUCT OTHER THAN INDICATED ON THE LABEL. BUYER ASSUMES ALL RISK OF USE AND/OR HANDLING OF THIS MATERIAL WHEN SUCH USE OR HANDLING IS CONTRARY TO LABEL INSTRUCTIONS.

Directions for use are used to establish a barrier which prevents termites from entering a structure. The emulsion must be adequately dispersed in the soil to provide a barrier between the wood structure and the termite colony in the soil.

It is necessary for the effective use of this product that the service technician be familiar with proper application techniques including trenching, treading, subsurface injection, and low pressure spray applications. The trenching and treading techniques employed to prevent termites from infesting a structure are the same as those used for termite baiting systems, termiticides, and repellents. Choice of appropriate application techniques should be based on consideration of such variable factors as the design of the structure, water table level, soil conditions, and the location and type of domestic water supplies. The trenching and treading techniques employed are important factors to be known as well as suggested, and the quantity of the infestation within the structure to be protected. For advice concerning application of this product to a particular structure, consult resources in structural pest control.

Installation of a trench and/or water supply should be as detailed as possible. The trench should be a minimum of 12 inches deep and 12 inches wide. The trench should be filled with a coarse material such as washed gravel or other coarse material. The trench should be filled with a coarse material such as washed gravel or other coarse material. The trench should be filled with a coarse material such as washed gravel or other coarse material.

Application of the emulsion should be made containing materials including a low pressure spray application. The trench should be filled with a coarse material such as washed gravel or other coarse material.

The trench should be filled with a coarse material such as washed gravel or other coarse material. The trench should be filled with a coarse material such as washed gravel or other coarse material.

PRECONSTRUCTION SUBTERRANEAN TERMITE TREATMENT

Effective preconstruction subterranean termite control requires the installation of a horizontal barrier and trenching to create a barrier between wood in the structure and the termite colony in the soil. A termite repellent or baiting system should be installed in the soil to provide additional protection.

Installation of the water emulsion should be made containing materials including a low pressure spray application. The trench should be filled with a coarse material such as washed gravel or other coarse material.

Application of the emulsion should be made containing materials including a low pressure spray application. The trench should be filled with a coarse material such as washed gravel or other coarse material.

Installation of a trench and/or water supply should be as detailed as possible. The trench should be a minimum of 12 inches deep and 12 inches wide. The trench should be filled with a coarse material such as washed gravel or other coarse material.

If it is necessary to produce a horizontal barrier, apply the emulsion or solution at the rate of 1 gallon per 10 square feet to fill dirt. If it is washed gravel or other coarse material, apply at 1/2 gallon per 10 square feet.

NAMCO®

Lindane-13%

Emulsifiable

**For Sale To, Storage and Use By
Only Pest Control Operators Or Other Trained
Personnel Responsible For Pest Control Programs.**

ACTIVE INGREDIENTS:

Gamma Isomer of Benzene	
Hexachloride (from Lindane)	13.0%
Xylene Range Aromatic Solvent	80.0%

INERT INGREDIENTS: 7.0%

Contains 1 pounds lindane per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT: *FIRST AID*

If swallowed - Call a doctor or the medical assistance center. Give nothing by mouth if the person is unconscious. Do not induce vomiting. Do not give anything by mouth to someone who is unconscious or is choking. Vomiting may be induced if the person is conscious and alert. If vomiting occurs, insert finger in back of throat to help. If person is unconscious, insert finger in back of throat to help. If person is unconscious, insert finger in back of throat to help.

If inhaled - Remove person to fresh air. If breathing is difficult, give oxygen. If breathing is difficult, give oxygen.

If on skin - Remove contaminated clothing. Wash skin with soap and water.

If in eyes - Flush eyes with water for at least 15 minutes. Get medical attention.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Do not swallow. Contact with skin may cause toxic symptoms. May be injurious to eyes and skin. Wash thoroughly after handling. Wash contaminated clothing before reuse. Avoid breathing vapors and spray mist. Handle concentrate in a ventilated area.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Use with care when applying in areas adjacent to any body of water. Keep out of lakes, streams, ponds, tidal marshes and estuaries.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE MIXTURE: Do not use, pour, spill, or store concentrate near heat or open flame. Keep container closed.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

To be applied only by or under the supervision of pest control operators or other trained personnel responsible for pest control programs.

STORAGE & DISPOSAL

Store in a cool, dry and ventilated area away from humans, pets, foodstuffs and feed. Do not store near heat or open flame.

PESTICIDE DISPOSAL: Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State, or local procedures under the Resource Conservation and Recovery Act (RCRA).

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose of in a sanitary landfill or by other approved State and local procedures. Rinsed metal containers may be offered for recycling or reconditioning.

Conditions of Sale and Warranty
