

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Poisonous if swallowed, inhaled, or absorbed through skin or eyes. Do not get in eyes or on skin. Do not breathe fumes. Rapidly absorbed through skin. Wear natural rubber gloves, waterproof protective clothing, and goggles when handling. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly the U.S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not discharge in lakes, streams, ponds, or public water unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This pesticide may be used only for formulation of an insecticide. Formulators using this product are responsible for obtaining EPA registration for their formulated products. Refer to Technical Bulletin for instructions for formulating and other information.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

STORAGE: If container is damaged, stop any leaks by repositioning the container or by patching or otherwise repairing the leaks. Take care to avoid contact with pesticide and wear protective gear. On cleanup of spilled liquids, wear protective equipment as required to prevent contact with the product or its vapors. Cover the spilled areas with generous amounts of absorbent material, such as clay, diatomaceous earth, sand, or sawdust. Sweep the contaminated absorbent on to a shovel and put the sweepings into a salvage drum. Dispose of wastes as below. Place any leaking container into a similar drum or glass container. Do not store, use, pour, or spill near heat or open flame.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

Prentiss

D-D INTERMEDIATE NO. 483

AN INSECTICIDE FOR FORMULATING RESIDUAL
INSECTICIDE HOUSEHOLD
PRESSURIZED SPRAY ONLY

ACTIVE INGREDIENTS:

Diazinon (0,0-diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate)	25.0%
2,2-Dichlorovinyl dimethyl phosphate	25.0%
Related Compounds	1.9%
Xylene Range Aromatic Solvent	44.3%
INERT INGREDIENTS:	3.8%
TOTAL	100.0%

DIAZINON® is the registered trademark of Ciba-Geigy Corp.
PRENTOX®—Registered Trademark of Prentiss Drug & Chemical Co., Inc.

KEEP OUT OF REACH OF CHILDREN

POISON DANGER

STATEMENT OF PRACTICAL TREATMENT

If swallowed: — Call a physician or Poison Control Center immediately. If possible, vomiting should be induced under medical supervision. Drink 1 or 2 glasses of water and induce vomiting by touching the back of throat with the finger. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

If inhaled: — Move victim to fresh air. Apply respiration if indicated. Call a physician immediately.

If on skin: — Remove contaminated clothing and wash immediately with soap and water. Call a physician immediately if symptoms of poisoning occur.

If in eyes: — Flush eyes for at least 15 minutes with water. Call a physician immediately.

NOTE TO PHYSICIAN

Symptoms: Symptoms include weakness, headache, tightness in chest, blurred vision, non-reactive pin-point pupils, salivation, sweating, nausea, vomiting, diarrhea, and abdominal cramps.

Treatment: Atropine is the specific therapeutic antidote for this type of poisoning. Atropine should be injected after the first 15 minutes if symptoms of 1 to 2 milligrams until complete atropinization has occurred. Morphine is contraindicated. Clear chest by postural drainage. Oxygen administration may be necessary. 2 PAM is also an antidote and may be administered in conjunction with atropine. Observe patient continuously for 48 hours. Repeated exposure to cholinesterase inhibitors may, without warning, cause prolonged susceptibility to very small doses of a cholinesterase inhibitor. Allow no further exposure until cholinesterase regeneration has been attained as determined by blood test.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

NOTE TO FORMULATORS

Concentrated phosphite insecticides have been shown to cause staining and color changes of carpets dyed with certain sensitive dyes. Products made from this concentrate should carry warning labels to prevent contact with carpeting by spray, spray mist or dust.

PRECAUTIONS

The following safety precautions are recommended in the plant area where Diazinon insecticides are being manufactured. In the home, it is suggested that respirators be worn (See list of acceptable respirators).

1. Protective clothing should not be worn in mixing areas during the handling of the material. Clothing contaminated with any chemical should be laundered before re-use. Those directly exposed to a mixing process should wear rubber gloves and rubber shoe covers.
2. A shower should be taken at the end of each day.
3. Eating and smoking should be permitted in a mixing area.
4. Workers should wash thoroughly before eating or smoking.
5. Maintenance workers should maintain the same precautions.
6. All workers should wear the same type of clothing as those directly involved in mixing.
