

# SUPERPINE

The refreshing aroma of the southern pine woods - and an attractive rich, white emulsion when diluted with water.

It is manufactured to meet the most exacting requirements where an exceptionally fine product is desired.

Manufactured with pure steam distilled pine oil - Easy to use.

*Minimum Phenol Coefficient of 7 by the A.O.A.C. Method*

*Active Ingredients:*

*Steam Distilled Pine Oil*

*Vegetable Oil Soap*

*Chloro - 2 - phenylphenol*

*Inert Ingredient:*

*Water, not more than 10%*

## PURPOSES

This Disinfectant is especially prepared for general disinfecting and cleansing purposes in public buildings, public institutions, schoolhouses, churches, theatres, restaurants, hotels, railway cars, steamships, clubs and private dwellings.

## CAUTION

KEEP OUT OF REACH OF CHILDREN

## DILUTION

For general disinfecting and cleansing purposes, use 140 parts of water to one part of the disinfectant. When preparing the solution, pour the disinfectant into the receptacle first, then add water and stir well. Lukewarm water gives the best results. Never use boiling water.

## APPLICATION

It is preferable to apply the solution with a mop, but can be used with rags or cloths, which can be wrung out. When used according to directions, this Disinfectant disinfects, deodorizes, and cleanses, all in one operation.

## WARNING

KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED. MAY CAUSE EYE INJURY.  
CAUSES SKIN IRRITATION. DO NOT GET IN EYES OR ON  
SKIN. AVOID CONTAMINATION OF FOOD.

### FIRST AID:

In case of contact with eyes or skin, wash immediately with water. For eyes, get medical attention. If swallowed do not induce vomiting. Vomiting may be harmful. Consult physician immediately.

This Disinfectant is especially prepared for disinfecting and cleansing purposes in public buildings, schoolhouses, churches, theatres, restaurants, hotels, clubs, and private dwellings, on floors, walls, woodwork, desks and toilets, washrooms and garbage pails.

### DILUTION:

Floors, walls desks and woodwork: Use 60 parts of water to one part disinfectant. (1 tablespoon disinfectant to 1 quart water). When preparing the solution, pour the disinfectant into the receptacle first, then add water and stir well. Lukewarm water gives best results. Apply with mop, sponge, or rags which can be wrung out. **Toilets:** Pour approximately 5 tablespoons into toilet bowl and brush solution under rim carefully, or pour directly on a bowl swab and wipe surface to be cleaned. **WASHROOMS:** Add ½ cup per gallon of water, preferably warm, and use as a washing or mopping solution. **GARBAGE PAILS:** Add 1 cup per gallon of warm water and scrub carefully.

### CONTAINER DISPOSAL:

Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.
