APPLY THIS PRODUCT ONLY AS SPECIFIED ON THIS LABEL

PENTASOTE

protects wood against Powder Post Beetles and Termites. Stop. Don't. Stop. Delay.

DIRECTIONS

Pentasote can be applied to fence posts, posts, and other wood products by soaking, spraying or brushing. Soak or spray the deepest penetration and highest absorption. All wood to be in ground contact should be soaked. Fence posts and poles should be barked and air washed until dry, then soaked 24 to 48 hours. Lumber for sills, sills, etc., should be soaked for at least 12 hours. When wood is not in contact with the ground, brushing or spraying or liberal applications may be used.

ESPECIALLY RECOMMENDED FOR

Wood that is in ground contact such as Poles, Posts, Piling, Steps, Sills and other Wood Products that do not require painting.

WARNING

Keep out of reach of Children
See left side of panel for other precautions
