

DIRECTIONS

For use on lawns, etc., dilute with water to make 5 to 10 gallons of spray equivalent to 1 to 2 teaspoons of 2, 4-D per gallon of water. Apply with hand or power sprayer with sufficient pressure to give a high coverage of the weeds. For use on lawns, etc., a wetting agent will be required. For use on pastures, approximately 15 to 200 gallons per acre, one gallon to 200 square feet will be required. More insistent usage will be required in some cases. If extremely efficient spray equipment is available, it may be possible to obtain the same coverage with a smaller volume of spray mixture. In which case the concentration of Weed Killer in the spray should be proportionately increased.

The recommended concentration should be doubled for the control of weeds, such as ~~various~~ ~~and~~ ~~collected~~. Double the concentration also for ~~poison ivy~~ growing in ~~at the~~ locations. Control of this species in ~~at the~~ locations is doubtful. Deep rooted ~~perennial~~ weeds, such as ~~hard~~ ~~wood~~ ~~and~~ ~~leafy~~ ~~stems~~ are more difficult to kill and may require repeated applications.

Apply with pressures of 7 to 200 pounds per square inch where dense foliage occurs. Higher pressures may cause matting of vegetation and make thorough coverage impossible. Apply during

NET CONTENTS

2, 4-D AMINE WEED KILLER

A Water-soluble Herbicide containing 2, 4-D

ACTIVE INGREDIENT:	
* Mixed Ethanolamine Salts of	
2, 4-Dichlorophenoxyacetic Acid	67.9%
INERT INGREDIENT:	32.1%
TOTAL	100.0%

Equivalent to 40% of 2, 4-D and "Equivalent to 4 lbs. of 2, 4-D per gallon."

KILLS

~~DANDELION - POISON IVY - POISON OAK - RAGWEED - PLANTAIN (BROAD AND NARROW LEAF) - THISTLES - DOCKS - WILD MORNING GLORY - SHEPHERD'S PURSE - WILD CARROT - MARROW~~ and many other broad-leaved weeds without injury to grasses.

For use on pastures, lawns and ornamental turf, and non-crop areas such as along highways, railroad right-of-ways, fire lanes, airfields, fence rows and around buildings.

CAUTION

KEEP OUT OF REACH OF CHILDREN

CAUTION - May cause Skin Irritation. Avoid contact with eyes, skin and clothing. Avoid spray drift to susceptible plants as this product may injure cotton, beans, ornamentals, etc. (Course sprays are less likely to drift.) Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes. Do not store near fertilizers, seeds, insecticides or fungicides.

Rinse equipment and containers and dispose of wastes by burying in non-crop lands. Rinse away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes.

See side panel for additional CAUTIONS.

DIRECTIONS

Water-soluble spray. Spray broadcast or spot spray on weeds with leaves. Apply as soon as weeds are visible. Do not spray on grass.

IMPORTANT

Avoid application to vegetables, flowering plants, strawberries, trees or other desirable type of plants. Do not spray if necessary when beating weeds near lawns, gardens and nurseries.

Do not use on grass lawns, except for spot spraying.

Avoid spray drift except thoroughness be required for other purpose. Rinse several times with water before handling. Do not contaminate food. Do not use for twenty-five gallons of water. Allow the tank to stand filled with water for 24 hours before use. Be sure to clean thoroughly after use.

WARNING: Do not inhale or ingest. Do not get on face, neck or in eyes. Smoke from the burn of the engine is poisonous. Avoid contact with the skin.

Do not use if you are ill or have a fever. Do not use if you are pregnant or nursing.

Do not use if you are allergic to the product. Do not use if you are allergic to the product. Do not use if you are allergic to the product.
