

DIRECTIONS
LAWN APPLICATIONS

Most lawn insects are controlled by the recommended application rate of Chlor-Tox-45 chlordane emulsion concentrate. In terms of volume of Chlor-Tox-45 chlordane emulsion concentrate, add 1/2 gallon of water per 1000 sq. ft. of lawn area. For example, if you have 1000 sq. ft. of lawn area, you should add 1/2 gallon of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water. For every 1000 sq. ft. of lawn area, you should add 1/2 gallon of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water. For every 1000 sq. ft. of lawn area, you should add 1/2 gallon of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water. For every 1000 sq. ft. of lawn area, you should add 1/2 gallon of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water. For every 1000 sq. ft. of lawn area, you should add 1/2 gallon of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water.

DIRECTIONS
HOUSEHOLD APPLICATIONS

Chlor-Tox-45 chlordane emulsion concentrate is a general household insecticide. It is effective against a wide range of household insects, including ants, cockroaches, beetles, crickets, and flies. It is also effective against some types of household spiders and ticks. Chlor-Tox-45 chlordane emulsion concentrate is a contact insecticide, which means that it kills insects when they come in contact with the treated surface. It is also a residual insecticide, which means that it continues to kill insects for some time after it has been applied.

NET CONTENTS 1 5 30 55 GALLON

CHLOR-TOX-45

45% CHLORDANE EMULSION CONCENTRATE

Contains 4 lbs. of technical chlordane per gallon. Effective against a wide range of household insects, including C. Worm, White Grubs, Wireworms, Beetles, Garden Beetle Larvae, Fire Ants, Chinch Bugs, Armyworms, Grasshoppers, Crickets, Flea Chicks, Bugs, Sod Webworms, and Mites, Mole Crickets, Ticks, Chiggers, Earwigs, Household Ants, Spiders, Waterbugs, Carpet Beetles, Boxelder Bugs, House Flies, Mosquitoes, Fleas, Dog Ticks, Saw Fish, Household Spiders, and Termites.

ACTIVE INGREDIENTS

Technical chlordane 45%

Petroleum Hydrocarbons 55%

INERT INGREDIENTS

Total 100%

CAUTION

KEEP OUT OF REACH OF CHILDREN

This material is toxic to fish, birds, and aquatic life. Avoid contact with water. Avoid spraying on water. This product is toxic to fish, birds, and aquatic life. Avoid contact with water. Avoid spraying on water. This product is toxic to fish, birds, and aquatic life. Avoid contact with water. Avoid spraying on water.

ANTIDOTE

EXTERNAL: Wash with soap and water. INTERNAL: Drink plenty of water and call a physician.

Do not contaminate water by cleaning of equipment or disposal. Apply this product only as specified on this label.

CAUTION

Keep children and pets off treated areas until this material is washed into the soil and the grass or lawn has dried.

Do not mix, pour, spill, or store near heat or open flame.

ACCEPTED
DEC 10 1975
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 551-120

BAIRD & MCGUIRE, INC.
ROLBROOK, MASS.

Add 253 tablespoons of Chlor-Tox-45 chlordane emulsion concentrate to 100 gallons of water and apply as follows:

For the Control of ROACHES or WATERBUGS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where roaches and waterbugs are most likely to be found. For example, apply it to the areas around the sink, the stove, and the refrigerator.

For the Control of HOUSE FLYES

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where house flies are most likely to be found. For example, apply it to the areas around the garbage can and the animal house.

For the Control of SPIDERS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where spiders are most likely to be found. For example, apply it to the areas around the base of the wall and the corners of the room.

For the Control of SILVERFISH

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where silverfish are most likely to be found. For example, apply it to the areas around the fish tank.

For the Control of TICKS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where ticks are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of CARPET BEETLES

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where carpet beetles are most likely to be found. For example, apply it to the areas around the base of the wall and the corners of the room.

For the Control of MOSQUITOES

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where mosquitoes are most likely to be found. For example, apply it to the areas around the water source.

For the Control of FLEAS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where fleas are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of CRICKETS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where crickets are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of BEETLES

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where beetles are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of GRASSHOPPERS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where grasshoppers are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of CHICKEN BUGS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where chicken bugs are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of MITE CRICKETS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where mite crickets are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of TICKS

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where ticks are most likely to be found. For example, apply it to the areas around the animal house.

For the Control of CARPET BEETLES

Apply Chlor-Tox-45 chlordane emulsion concentrate to the areas where carpet beetles are most likely to be found. For example, apply it to the areas around the base of the wall and the corners of the room.
