#### DIRECTIONS FOR USE

General: Dursban with synergized pyrethrum insecticide used as a spot treatment to control cockroaches, silverfish, spiders and other pests specified below. Using a suitable sprayer, apply as a coarse (large droplet) spray to localized areas where pests may occur. Spray surfaces until wet. Use at rate of one gallon per 750 square feet. Repeat as needed.

**To Kill Cockroaches, Ants, Crickets, Silverfish, Spiders and Sowbugs:** Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants apply to ant trails, also around doors and windows and wherever else these pests may find entrances. Repeat as necessary.

**To Kill Brown Dog Ticks:** Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. *Do not spray pets with this product.*

**Flies and Mosquitoes:** Use only out-of-doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.

(Accessible stages of Rice Weevils, Confused Flour Beetles, Indian Meal Moths, Caddisflies and Saw-toothed Grain Beetles): Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Dispose of all infested products and sweep up insects after treatment is performed.

# BAIRD'S

## Dursban - Pyrethrin Liquid Residual Spray

For use in food processing plants, warehouses, factories, hospitals, institutions, schools and homes.

Spray Only on Surfaces. Do Not Use as a Space Spray.

Kills Ants, Roaches and other crawling insects listed below including those resistant to certain chlorinated hydrocarbon and phosphate insecticides. Also aids in controlling flies and mosquitoes out-of-doors.

Ants	Silverfish	Earwigs
Brown Dog Ticks	Spiders	Sowbugs
Roaches	Crickets	

#### ACTIVE INGREDIENTS:

Pyrethrins	.050%
*Piperonyl butoxide, technical	.100%
N-octyl bicycloheptene dicarboximide	.166%
**Chlorpyrifos (0,0-diethyl 0-(3, 5, 6-trichloro-2-pyridyl) phosphorothioate)	.500%
Aromatic petroleum distillate	.290%
Petroleum distillate	98.894%
TOTAL	100.00%

\*Equivalent to .08% (butylcarbityl) (6-p-ppylpiperonyl) ether and .02% related compounds.

MGK 264, Insecticide Synergist.

\*\*Chlorpyrifos is the active ingredient of Dursban Insecticide, trademark of the Dow Chemical Co., U.S. Pat. No. 3,244,586.

Manufactured by

BAIRD & MCGUIRE, INC.

HOLBROOK, MASSACHUSETTS 02343

CAUTION  
KEEP OUT OF REACH OF CHILDREN

May be harmful if swallowed, inhaled or absorbed through skin. Avoid inhalation of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes and clothing should be avoided. Wash thoroughly with soap and water after handling. Avoid contamination of food and utensils and food preparation areas. If poisoning occurs, get prompt medical aid.

Do not use in edible products, areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Remove pets and cover fish bowls before spraying.

*Note to Physician:* Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

Do not spray in air in room or use on plants. *Apply as a surface spray only as specified on this label.*

In case of contact with eyes, flush eyes with water for 15 minutes; if irritation persists, seek medical attention.

Do not allow children or pets to contact treated surfaces until spray has dried.

This product is toxic to fish and wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not re-use empty container. Destroy when empty and discard in a safe place.

Keep container closed. Do not store, pour or spill near heat or open flame.
