

DIRECTIONS

In preparing spray mixtures add at least half of the water to the spray tank before adding this herbicide. Apply at moderate pressure by air or ground equipment during warm weather when plants are growing actively.

WEED CONTROL IN SMALL GRAINS. (Wheat, Oats and Barley). For control of mustard, lambsquarter and other susceptible weeds use 1/3rd pint of this herbicide in sufficient water for coverage. Apply at any time from emergence to the boot stage of the grain. With certain weed species such as Canada thistle that are more difficult to control and under conditions where easily controlled weeds are more resistant as much as 1 pint of herbicide may be needed for effective control. If mustard is the only problem and if it is in a susceptible stage of growth as little as 1/4 pt. may be effective. Do not use on small grains later planted with sweet clover unless some injury to the legume can be tolerated. Use on grain underseeded with alfalfa only when specifically recommended by local agricultural experiment station or extension service weed specialists. Do not apply within 20 days of harvest.

NOTICE: Do not forage or graze on treated grain fields within two (2) weeks after treatment. Do not feed treated straw to livestock.

WEED CONTROL IN FLAX: For control of mustard and other susceptible weeds use 1/3rd pint per acre in the necessary amount of water required for coverage. Treat flax when 2 in. to 6 in. tall and before the bud begins to form.

Under ideal conditions where mustard is the only problem and is young and succulent as little as 1/4th pint will be effective. However, in general, 1/3rd pint per acre will give more uniform and predictable results. Amounts up to one pint per acre may be needed to control certain weeds such as Canada thistle and some injury to the flax may result.

NET CONTENTS **5** GALLONS

AGSCO MCP AMINE WEED KILLER

ACTIVE INGREDIENTS

* Dimethylamine salt of

2-Methyl-4-chlorophenoxyacetic acid

52.4%

INERT INGREDIENTS

47.6%

100.0%

* Acid equivalent: 42.75%

Contains 4 Pounds Acid Per Gallon

CAUTION

KEEP OUT OF REACH OF CHILDREN

(Additional precautionary statements on side panel)

Harmful if swallowed. Do not get in eyes. Avoid contact with skin or clothing. In case of contact with weed killer, flush with plenty of water for fifteen (15) minutes. For eyes, get medical attention. Remove and wash contaminated clothing and shoes before re-use.

Protect from temperatures below 0°F

Manufactured By

AGSCO CHEMICALS, INC.

Grand Forks, North Dakota

WARNING

Avoid inhaling spray.

Applications by air, ground or hand equipment should be made only when there is no hazard from drift. Spray drift may cause injury to susceptible plants such as vegetables, flowers, grapes or other plants sensitive to minute quantities of herbicide. To avoid injury to desirable plants, do not apply other agricultural chemicals with the same equipment used for this herbicide. Do not apply by air in the vicinity of sugar beets.

Do not store near fertilizer, seeds, insecticides, fungicides, feed or foodstuffs.

Excess amounts of this product in soil may temporarily inhibit seed germination or plant growth.

Do not contaminate any body of water by direct application, cleaning of equipment or disposal of waste and containers.

Destroy empty container by perforating and bury in a safe place. Do not burn.

Avoid excess use in environment of desirable animals and birds. Toxic to fish.

Local conditions may affect the use of herbicides. State agricultural authorities in many states issue recommendations to fit local conditions. Be sure that the use of this product conforms to all applicable conditions.

WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
