PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

May be harmful if swallowed or inhaled. Use a dust mask. Avoid contact with eyes, skin or clothing. Handlers must wear protective clothing and equipment: a long-sleeve shirt and long pants or a coverall; chemical resistant gloves, shoes, socks, and goggles or a face shield. During mixing and loading, a chemical resistant apron must also be worn.

Applicators who apply this product manually or without the use of a closed-system treatment procedure must wear a respirator jointly approved by MSHA (Mine Safety and Health Administration) and by NIOSH (National Institute for Occupational Safety and Health) under the provision of 30 CFR Part 11 for Lindane-Maneb protection. Treat outdoors or in a well ventilated place only.

"Important! Before removing gloves, wash them with soap and water. Always wash hands, face, and arms with soap and water before eating, smoking or drinking and before using the toilet." After work take off all clothes and shoes. Shower using soap and water. Wear only clean clothes. Do not use contaminated clothing. Wash protective clothing and protective equipment with soap and water after each use. Personal clothing worn during use must be laundered separately from household articles. Clothing and protective equipment drenched with maneb must be destroyed according to state and local regulations.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED, call a physician or Poison Control Center immediately. Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person. May be fatal if swallowed.

IF INHALED, remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN, remove contaminated clothing and wash affected areas with soap and water. May be absorbed through the skin.

IF IN EYES, flush eyes with plenty of water. Call a physician immediately. Do not rub eyes or mouth with hands.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Cover or incorporate spilled treated seed. Do not contaminate water when disposing of equipment wash water.

It is a violation of State and Federal law to use this product in a manner inconsistent with its labeling. Read all directions before using and use only as specified on this label.

BEST AVAILABLE COPY

STORAGE AND DISPOSAL

1. **PROHIBITIONS:** Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.
2. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. "Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility."
3. **CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

DIRECTIONS FOR USE

AGSCO DB-Green Seed Treatment is a dust base product especially formulated for seed treatment at planting time. This product is formulated to help lubricate the planter box and assure a smooth, even flow to the furrow. It is formulated for use in the treatment of seeds for protection against wireworms, seed corn maggots, and certain other soil-borne insects, as well as providing protection against stinking smut (Bunt) of wheat, oat smuts, covered and false loose smuts of barley, and seed decay. Apply as a drill-box treatment mixing thoroughly with the seed before planting. For best results, the following procedure is suggested.

1. Use an AGSCO automatic seed treater that meters in the proper amount of DB-Green and uniformly mixes it as clean untreated seed is augered from the grain box into the planter or drill-box as uniformly treated seed.
2. Fill the drill-box only half full of seed; add half the required amount of product and mix thoroughly with a stick. Then add the remainder of seed to the drill-box and add the rest of the required amount of product to the seed, again mixing thoroughly.
DO NOT MIX WITH HANDS.

Good results are also obtained by premixing seed with the product in a suitable container, then pouring treated seed into the planter box.

DIRECTIONS:

Type of Seed	Ounces per Bushel
WHEAT, BARLEY, OATS, RYE	2 Oz.
CORN, SOYBEANS	2 3/4 Oz.
FLAX	4 Oz.

IF SOIL TEMPERATURE IS EXTREMELY HIGH (hot weather, mid-summer planting or other reasons) reduce recommended dosage by one-third.

USE RESTRICTIONS

Treated seed must not be used for or mixed with food or animal feed or processed for oil. Treat only those seeds needed for immediate use, ~~minimizing the interval between treatment and plantings.~~ Do not store excess treated seeds beyond planting time. Do not graze or feed livestock on treated areas for six weeks after planting. Care must be exercised in the handling of treated seed. Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and federal regulations.

NOTICE-READ CAREFULLY

LIMITED WARRANTY STATEMENT

AGSCO, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for purposes stated on the label only when used in accordance with directions and instructions specified on the label.
