VIGOR TOMATO DUST

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Best results are secured by dusting at regular intervals throughout the growing season. For disease control begin applications before diseases occur or appear and repeat at 7-10 day intervals as needed. More frequent applications may be necessary during wet weather. Apply preferably in early morning or late evening when the air is still and cover all exposed parts of the plant with a thin even film of dust as in a garden type dusting. Apply Vigor Tomato Dust Spray used with dusting. Subsequent planting of food and feed crops in treated soil must be made with crops on this soil other than any labels.
