Potential Acidity Equivalent to 700 lbs. CaCO₃ per ton. Total pounds Available Plant Food per 100 lbs. = 14 pounds.

MONEY BACK GUARANTEE

You must be pleased with results or you are entitled to your money back. Simply send sales slip to Vigoro, Box 100, Chicago, Illinois for prompt return.

1954-1955

LEAD THE WAY EXPERTS DO - Every 4 to 5 days (use after spreader setting rate below). Can be used monthly to produce the greenest, thickest snow law.

Back Panel ()

WATER-IN! Dichondra leaves are up-shaped and will not hold enough fertilizer to cause temporary blight, well watered by hosing off after application.

GOES FARTHER - This package fertilizes full 1/2 sq. ft. at the normal rate. Stores easily - and remains loose and easy to spread.

CONTAINS CHLORDANE

CAUTION: Harmful if swallowed. Avoid inhalation and skin contact. In case of contact, wash with soap and water. Avoid contact with eyes. Wash thoroughly with soap and water after using. Keep children and pets off of treated area until material is washed into the soil and grass is dry.

Do not apply to vegetables, food or forage crops. Avoid contamination of feed, foodstuffs and food containers. Do not use this product for any purpose other than recommended on the label.

This product is toxic to fish and wildlife. Keep out of any body of water. Birds feeding on treated areas may be killed. Do not reuse container. Destroy when empty.

**HOW TO SET YOUR SPREADER
SPREADER SETTINGS**

SPREADER MAKE

- Sears Craftsman
- War's Garden Mark
- Scott's
- Central
- Cyclone

Normal Speed
1200 ft. min.

Spreading rate varies with walking speed and lawn type. To insure exact coverage, walk spreader over a known area. Do not spread feeding. Water in after feeding.
