VIGORO®

ANT, SPIDER AND ROACH KILLER

CAUTION: CONTENTS UNDER PRESSURE. COMBUSTIBLE MIXTURE. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120° F. Keep out of the reach of children. Do not spray into or near open flame. Do not smoke while applying. Spray only in upright position. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Wash thoroughly after using. Do not contaminate food, feedstuffs, utensils, dishes or drinking water. Do not apply to areas which will be contacted frequently by children and do not allow them in treated areas until surfaces are dry. Do not apply to humans, pets, birds or near fish bowls. Avoid excessive wetting of plastics, vinyl or asphalt tile. **DO NOT USE AS A SPACE SPRAY** Remove pets and cover fish bowls before spraying. Contains new Baygon® insecticide which kills insects fast (including resistant flies, roaches and mosquitoes).

DIRECTIONS:

USE FOR SPOT TREATMENT ONLY

Important—hold container only in upright position to spray. Remove protective cap. Direct spray away from face. Hold container 6 to 12 inches from surfaces and spray area of infestation. Thorough applications produce a coating which will vaporize into cracks and crevices and into the room for insect control. If re-infestations occur, repeat applications as necessary.

ROACHES, RESISTANT ROACHES, WATER-BUGS, CRICKETS AND CENTIPEDES. Thoroughly treat cracks and crevices, baseboards, underneath chairs, tables, kitchen shelves, cupboards, sinks, refrigerators and around garbage containers. **ANTS.** Treat ant trails, around door sills and window frames and other places where ants may enter. Apply directly to ant hills. **EARWIGS, CLOVER MITES, AND SOWBUGS.** Spray window and door sills and other points of entry. Apply to outside foundation around doors, windows, porches and along foundation next to ground. For outdoor use on **WASPS.** Apply a wet spray to the nests after dark when all pests have returned to their nests.

SCORPION, BLACK WIDOW SPIDERS and other spiders. Spray directly on pests when possible. Treat surfaces of garages and out-buildings where pests hide or congregate. Spray points of entrance such as window sills and along crevices.

SILVERFISH. Apply to cracks, baseboards, behind picture frames, bookcases and other storage areas. Apply underneath and around the edges of carpets.

BROWN DOG TICKS. Thoroughly spray cracks, crevices and areas where pets are in the habit of lying down. Do not spray on pets. Allow the sprayed areas to dry thoroughly and replace bedding before permitting use by animals. In treating dog kennels, apply to outside dog runways, window sills and ledges. For outside use in dog kennels for control of flies, gnats, mosquitoes, roaches and brown dog ticks.

FLYING ANTS. Spray directly on swarming ants outdoors. Do not spray in air.

FLIES, MOSQUITOES, GNATS. Apply outdoors to screens, doors and window frames, light fixtures and other surfaces where these insects congregate.
