VIGORO. OXALIS KILLER FOR DICHONDRA

GENERAL INFORMATION

VIGORO OXALIS KILLER works slowly and it may take two to three weeks before complete kill of Oxalis is noticed

DIRECTIONS FOR USE

FOLLOW THESE DIRECTIONS CAREFULLY

1. Use only on Dichondra lawns
2. Use only to control Oxalis or Annual Bluegrass in higher mature or seedlings stages.
3. Use only amount recommended
4. Do not repeat application prior to four weeks after first application
5. Do not apply more than twice in any six month period.
6. Use at the rate of 1.5 teaspoonfuls to one gallon of water applied evenly to a 25 square foot area.
7. Water in thoroughly after application is made.

METHODS OF APPLICATION

A lawn gun applicator such as a Vigoro Lawn Weed & Feed Gun should be used where large areas are to be treated. Use 1.5 teaspoonfuls per gallon of water applied evenly to a 25 square foot area. Fill gun with water to the desired level. A sprinkling can may be used.

CAUTION: Keep away from children and domestic animals, avoid breathing dust or spray mist and avoid contact with skin, eyes, and clothing. Wash hands thoroughly after handling. May cause irritation of eyes, nose, throat, and skin. Do not apply on or near shrubs or plants or on area into which their roots may extend. Do not use same spray equipment for other purposes.
