PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS

C A U T I O N

Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling.

ENVIRONMENTAL HAZARD

Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate any body of water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Vigoro Weed and Crabgrass Preventer Contains Balan kills weed and crabgrass seedlings just as they are sprouting from the seed, so get it on early! This should be one or two weeks prior to the germination of annual grass weeds. It will not control established weeds.

1. Rake area free of leaves and debris prior to application.
2. Apply contents of this bag to 5,000 sq. ft. for northern (cool season) turfgrasses.
3. Apply contents of this bag to 4,000 sq. ft. for southern (warm season) turfgrasses.

4. It is essential to apply with no skips or misses. Calibrate and check equipment prior to application. Set the spreader according to chart below and apply evenly to area. Check frequently to ensure equipment is working properly and distributing product uniformly.

5. Water in after application for optimum weed control.

When applied as directed, the following weeds in established turf are controlled: crabgrass, foxtails and barnyardgrass with an application in spring; goosegrass with a late spring or early summer application; annual bluegrass (*Poa Annua*) in northern areas with a late summer and early spring application.

Vigoro Weed and Crabgrass Preventer Contains Balan is tolerant to the following turfgrasses when applied as directed.

Kentucky bluegrass	Fescue	Bermudagrass
Perennial ryegrass	Zoysia	St. Augustine grass
Centipede grass		Bahiagrass

PRECAUTIONS: This product may thin established annual bluegrass and fine-leaved fescues and should not be applied in the spring to turfgrass planted the previous fall. Do not apply to bentgrass putting greens or dichondra. Avoid any cultural practices that disturb the soil such as raking, aerification or verticutting after application of this product. Reseeding of treated areas should be delayed for at least 6 weeks after applying this product.

SUGGESTED SPREADER SETTINGS

SPREADER	NORTHERN GRASSES and <i>Poa Annua</i> Control in Northern grasses		SOUTHERN GRASSES	
	SETTING		SETTING	
Cyclone	4 1/2		4 3/4
Central 1662	6 1/2		7
Ortho 3000	4 1/2		4 3/4
Scotts PF-1	4		4 1/2
Sears	6		6 1/2

NOTE: The spreader settings listed are approximate. Check by trial on a measured area and adjust setting, if necessary, to assure correct application rate.

4 OF 4

Storage: Store in original container in safe, dry place. Do not contaminate other pesticides, fertilizer, seeds, food or feed. Return spillage to original container prior to disposal.

Product Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

Container Disposal: Do not re-use bag. Discard bag in trash.
